Sources of Modern Architecture Dennis Sharp, 1981 *Sources of Modern Architecture* D. Sharp, 1981 **Sources of Modern Architecture** Dennis Sharp, Architectural Association (Great Britain), 1967 **Sources of Modern Architecture** Dennis Sharp, 1967 **Sources of Modern Architecture** Dennis Sharp, 1981 **Twentieth Century Architecture** Dennis Sharp, 2002 Fully documented richly illustrated guide to the great architectural achievements of the last one hundred years *The Dissertation* Iain Borden, 2006-08-14 The Dissertation is one of the most demanding yet potentially most stimulating components of an architectural course Properly done it can be a valuable contribution not only to the students own learning development but also to the field of architecture as a whole This book provides a complete guide to what to do how to do it when to do it and the major pitfalls involved This is a comprehensive guide to all that an architecture student might need to know about undertaking the dissertation including new material on CD ROM and online sources web based research techniques digital images alternative imaging strategies key architecture links referencing and new dissertation extracts It clearly navigates the student through the whole process of writing preparing and submitting a dissertation as well as suggesting what to do after the dissertation has been completed Subjects covered include how to write a proposal which research methodologies and techniques to adopt which libraries and archives to utilize including special architectural resources on the net as well as how to structure reference and illustrate the final submission The authors also take architecture students into new terrain suggesting alternative methods of undertaking dissertations whether as video prose writing multimedia or other forms of expression Furthermore this guide includes new examples of exemplary dissertations of all kinds as completed by students in Europe and North America so that the reader can clearly see the kinds of work which they themselves might choose to pursue Also in the Seriously Useful Guides Series The Crit The Portfolio Practical Experience **History of Architectural Theory** Hanno-Walter Kruft, 1994 As the first comprehensive encyclopedic survey of Western architectural theory from Vitruvius to the present this book is an essential resource for architects students teachers historians and theorists Using only original sources Kruft has undertaken the monumental task of researching organizing and analyzing the significant statements put forth by architectural theorists over the last two thousand years The result is a text that is authoritative and complete easy to read without being reductive [The Theory of Architecture](#) Paul-Alan Johnson, 1994-04-18 The Theory of Architecture Concepts Themes Practices Paul Alan Johnson Although it has long been thought that theory directs architectural practice no one has explained precisely how the connection between theory and practice is supposed to work This guide asserts that architectural theory does not direct practice but is itself a form of reflective practice Paul Alan Johnson cuts through the jargon and mystery of architectural theory to clarify how it relates to actual applications in the field He also reveals the connections between new and old ideas to enhance the reader s powers of critical evaluation Nearly 100 major concepts themes and practices of architecture as well

as the rhetoric of architects and designers are presented in an easily accessible format Throughout Johnson attempts to reduce each architectural notion into its essential concept By doing so he makes theory accessible for everyday professional discussion Topics are arranged under ten headings identification definition power attitudes ethics order authority governance relationship and expression Areas covered under these headings include Utopic thought in theories of architecture Advocacy and citizen participation in architecture The basis of architectural quality and excellence The roles of the architect as artist poet scientist and technologist Ethical obligations of architecture Rationales for models and methods of design How authority is determined in architecture How architects structure their concepts Conventions of communication within the architectural profession Each section begins by showing the etymology of key terms of the topic discussed along with a summary history of the topic s use in architecture Discussions probe the conceptual and philosophical difficulties of different theories as well as their potential and limitations in past and present usage Among the provocative issues discussed in terms of their relationship to architecture are chaos theory feminism service to the community and the use of metaphor Johnson points out with stunning clarity the intentions as well as the contradictions and inconsistencies of all notions and concepts All architects and designers as well as students and teachers in these disciplines will gain many insights about architectural thought in this groundbreaking text

The Taylorized Beauty of the Mechanical Mauro F. Guillén, 2020-11-10

The dream of scientific management was a rationalized machine world where life would approach the perfection of an assembly line But since its early twentieth century peak this dream has come to seem a dehumanizing nightmare Henry Ford s assembly lines turned out a quarter of a million cars in 1914 but all of them were black Forgotten has been the unparalleled new aesthetic beauty once seen in the ideas of Ford and scientific management pioneer Frederick Winslow Taylor In *The Taylorized Beauty of the Mechanical* Mauro Guillén recovers this history and retells the story of the emergence of modernist architecture as a romance with the ideas of scientific management one that permanently reshaped the profession of architecture Modernist architecture s pioneers Guillén shows found in scientific management the promise of a new functional machine like and beautiful architecture and the prospect of a new role for the architect as technical professional and social reformer Taylor and Ford had a signal influence on Bauhaus founder Walter Gropius and on Le Corbusier and his *Towards a New Architecture* the most important manifesto of modernist architecture Architects were so enamored with the ideas of scientific management that they adopted them even when there was no functional advantage to do so Not a traditional architectural history but rather a sociological study of the profession of architecture during its early modernist period *The Taylorized Beauty of the Mechanical* provides a new understanding of the degree to which modernist architecture emerged from a tradition of engineering and industrial management
