Sources Of Christian Theology In America:

Sources of Christian Theology in America Mark G. Toulouse, James O. Duke, 1999 This volume is intended as a companion to the story already told in *Makers of Christian Theology in America* Abingdon 1997 by scholars who sketched intellectual portraits of 91 thinkers formative in Christian theological discussion Emphasis is on theologians or theologies which reach considerably beyond their denominational regional ethnic or school support bases The volume thus has selections of the sort standard and revisionist histories alike have cause to take into account in their field surveys The focus is on the traditions of scholarly Christian church theology and the selections offer access to substantive content at some considerable length using complete and self contained samples when possible instead of snippets The four eras of Christian theology s history in America covered by these sixty readings are the colonial early national post Civil War to World War I and twentieth century developments *A Documentary History of Religion in America to 1877* Edwin S. Gaustad, Mark A. Noll, 2003-09-19 A richly variegated selection of short documents illustrative of the history of religion in America The best source book available to contemporary students and general readers *Holy Spirit and Salvation* Veli-Matti Kärkkäinen, 2010-01-01 Theologians from the early church to the present have written much about the Holy Spirit and Christian salvation This extensive sourcebook of primary theological texts makes many of these writings available with a description of their context and importance Especially valuable are more recent works emerging from theologians in Africa Asia and Latin America This global perspective coupled with the broad selection of writings from the history of theology makes this the most complete collection of primary source material on these topics *A History of Christianity in the United States and Canada* Mark A. Noll, 2019-10-17 A best selling text thoroughly updated including new chapters on the last 30 years An excellent study that will help historians appreciate the importance of Christianity in the history of the United States and Canada The Journal of American History Scholars and general readers alike will gain unique insights into the multifaceted character of Christianity in its New World environment Nothing short of brilliant Harry S Stout Yale University A new standard for textbooks on the history of North American Christianity James Turner University of Notre Dame Mark Noll s *A History of Christianity in the United States and Canada* has been firmly established as the standard text on the Christian experience in North America Now Noll has thoroughly revised updated and expanded his classic text to incorporate new materials and important themes events leaders and changes of the last thirty years Once again readers will benefit from his insights on the United States and Canada in this superb narrative survey of Christian churches institutions and cultural engagements from the colonial period through 2018 *Introducing American Religion* Charles H. Lippy, 2009 *Handbook of U.S. Theologies of Liberation* Miguel A. De La Torre, 2004-11-01 The purpose of this handbook is to introduce the reader to Christian concepts from the perspective of U S marginalized communities It explores the interrelationship between religion community and culture in the social context of different marginalized groups specifically those rooted in the African

American Amerindian Asian American feminist gay lesbian and Hispanic experiences and their impact on the development of U S theologies of liberation The handbook gives attention to the history nature sources and development of these theologies and the theologians who contributed to their formation Of particular interest is how Handbook of U S Theologies of Liberation clearly distinguishes both the differences and similarities between these U S theologies and their Latin American counterparts The handbook is divided into two sections Thematic Essays that provide a general overview of a specific theological theme from the perspectives of different marginalized groups and Contextual Essays that focus on the specific contributions of scholars from various racial ethnic and gender backgrounds *America's Religions* Peter W. Williams, 2008

A panoramic introduction to religion in America newly revised and updated **Respectable Methodism** Daniel F. Flores, 2023-03-07 The Wesleyan Methodist movement entered American history as a fragment of British Methodism It quickly took on a new identity in the early republic and grew into a vibrant denomination in the nineteenth century The transitions from the rugged pioneer religion modeled by Bishop Francis Asbury to the urbane religion of industrial America was by design the goal of influential leaders of the Methodist Episcopal Church Nathan Bangs was perhaps one of the most significant of such leaders He rose from obscurity to the ranks of power and influence by refining patterns of worship expanding denominational publishing and structuring ministerial education This study is concerned with the development of respectability in American Methodism It also explores questions on how Bangs and other leaders dealt with in house conflicts on issues related to race slavery and the poor **The Oxford Handbook of African American Theology** Katie G. Cannon, Anthony B. Pinn, 2014-07-01 Named an Honor Book for Nonfiction by the Black Caucus of the American Library Association African American theology has a long and important history With modern roots in the civil rights movements of the 1960s African American theology has gone beyond issues of justice and social transformation to participate in broader dialogues of theological inquiry The Oxford Handbook of African American Theology brings together leading scholars in the field to offer a critical and comprehensive analysis of this theological tradition in its many forms and contexts Using an interdisciplinary approach this Oxford Handbook examines the nature structures and functions of African American Theology The volume surveys the field by highlighting its sources doctrines internal debates current challenges and future prospects in order to present key topics related to the wider palette of Black Religion in a sustained scholarly format This formative collection presents current scholarship on African American Theology and scripture eschatology Christology womanist theology sexuality ontology the global economy and much more The contributors represent a diverse set of faith perspectives adding to the layered discourses within the volume These essays further important discussions on the pressing debates and challenges that shape black and womanist theologies *America's God* Mark A. Noll, 2002-10-03 Religious life in early America is often equated with fire and brimstone Puritanism yet by the nineteenth century Americans had moved away from the severe European traditions of which Puritanism was the most influential In its place arose a singularly American set of

beliefs marked by heightened spiritual inwardness a new confidence in individual reason and an attentiveness to the economic and market realities of Western life In *America's God* Mark Noll has given us the definitive history of Christian theology in America from the time of Jonathan Edwards to the presidency of Abraham Lincoln
