

South Of The Main Offensive

David M. Glantz, Jonathan M. House

South Of The Main Offensive:

The Russian-Ukrainian War, 2023 John S Harrel, 2025-01-30 Details the second year of Russia's invasion of Ukraine focusing on drone warfare strategic battles and global impacts This book describes in great detail the second year of Putin's Special Operation to obliterate Ukraine General Ret Harrel's previous book entitled *The Russian Invasion of Ukraine* February-December 2022 described the initial invasion identifying the units and weapons on the battlefield with military precision Now he continues the story of Ukrainian resistance in the face of overwhelming odds The author knowledgeably reports on twenty-first century mechanized warfare and how drones and unmanned aerial vehicles UAVs have evolved to dominate the tactical operational and strategic levels of war The year 2023 saw the dawn of drone warfare as combatants on both sides of the conflict at first tinkered with the use of civilian hobby type machines but then having had great success rushed forward to design purchase often with crowd funding and deploy drones through all domains of the battlefield Drones performed reconnaissance targeting for artillery and direct attacks seeking identifying and striking targets not only on the battlefield but in the Black Sea and deep inside Mother Russia As the fighting raged Russia successfully continued its worldwide cyber campaign to influence elections divide allies and undercut support for Ukraine The Pyrrhic Russian victories at Bakhmut and Avdiivka were offset by Ukrainian victories in the Black Sea after its failed counteroffensive in the Summer of 2023 Finland and Sweden joined NATO while US support was stymied and delayed by internal politics NATO clearly assumed its place as the bastion of Western freedom as the war continued into 2024 *AF Press Clips*, 1986-07

Israel/Palestine and the Politics of a Two-State Solution Thomas G. Mitchell, 2013-05-21 This is a dispassionate examination of the viability of a two-state solution in the Israeli-Palestinian conflict based on the politics of Israel Palestine and the United States It includes instructive case studies from South Africa in Namibia and the Irish claim to Northern Ireland The results of Israeli elections from 2001 to 2013 are analyzed with the conclusion that the Likud will be in any government coalition for at least the midterm future giving it a veto over policy A chapter examining the history and ideology of the secular right over the last 90 years follows There are three chapters of case studies the Likud withdrawal from the Sinai in 1979 1982 and from Gaza in 2005 the withdrawal of South Africa from Namibia in 1988 1989 and the dropping of Ireland's constitutional claim to Northern Ireland in 1998 under a Fianna Fail government the same party that wrote the constitution in 1937 A chapter examines Palestinian politics since the mandatory era and another the American-Israeli alliance and American politics A concluding chapter draws lessons from the case studies and the analysis *Defence from the Skies: 80 Years of the Indian Air Force*, 2013-08-15 Indian Air Force now completes 80 years since it was formed as an independent component of India's armed forces Time and again the air force has performed magnificently even against severe odds and built up a professional reputation that is the envy of leading air forces of the world This volume as the Second Edition of the earlier volume published in 2007 has been extensively revised and updated Air Forces are unique in

the sense that they are the only national military institution exclusively devoted to military operations in the aerospace continuum The Indian Air Force is no different But their dominant role in modern warfare the high costs of aerospace power and a host of other factors demand closer attention to their role in modern defence and the protection of national interests Air Forces don't win wars by themselves and no one in the Indian Air Force has ever claimed it But no war can be won without them We learnt that seminal lesson the hard way when we did not use the potent force of the IAF's combat fleet in the Sino Indian War of 1962 It is from this perspective that this study or rather an interpretative essay reflecting on the significant issues and events of the past 80 years approaches the challenges the Indian Air Force faces in the coming decades IAF combat force levels have slumped while its commitments are rapidly growing in consonance with our expanding economic and political interests well beyond our territorial boundaries

Enduring Controversies in Military History Spencer C. Tucker, 2017-09-21 This provocative examination of major controversies in military history enables readers to learn how scholars approach controversial topics and provides a model for students in the study and discussion of other historical events Why did Alexander the Great's empire fall apart so soon after his death How did France win the Hundred Years War despite England winning its major battles Was slavery the primary cause of the American Civil War Would it have benefited the Allies militarily to have gone to war against Germany in 1938 rather than in 1939 Should women be allowed to serve in combat positions in the U S military All of these questions and many other historical controversies are addressed in this thought provoking reference book By exploring every angle of some of the most contentious debates involving military history this book builds students critical thinking skills by supplying a complete background of the controversial topic to provide context and also by providing multiple perspective essays written by top scholars in the field The perspective essays present arguments for different positions on the controversy Readers will consider the cases for and against whether Hannibal should have marched on Rome after his momentous victory at Cannae whether the United States was justified in using the atomic bomb in Japan whether Adolf Hitler was primarily responsible for the Holocaust and whether torturing prisoners during the War on Terror is warranted among many other historical military debates

When Titans Clashed David M. Glantz, Jonathan M. House, 2015-10-16 On first publication this uncommonly concise and readable account of Soviet Russia's clash with Nazi Germany utterly changed our understanding of World War II on Germany's Eastern Front immediately earning its place among top shelf histories of the world war Revised and updated to reflect recent Russian and Western scholarship on the subject much of it the authors own work this new edition maintains the 1995 original's distinction as a crucial volume in the history of World War II and of the Soviet Union and the most informed and compelling perspective on one of the greatest military confrontations of all time In 1941 when Pearl Harbor shattered America's peacetime pretensions the German blitzkrieg had already blasted the Red Army back to Moscow Yet less than four years later the Soviet

hammer and sickle flew above the ruins of Berlin stark symbol of a miraculous comeback that destroyed the Germany Army and put an end to Hitler's imperial designs In swift and stirring prose *When Titans Clash* provides the clearest most complete account of this epic struggle especially from the Soviet perspective Drawing on the massive and unprecedented release of Soviet archival documents in recent decades David Glantz one of the world's foremost authorities on the Soviet military and noted military historian Jonathan House expand and elaborate our picture of the Soviet war effort a picture sharply different from accounts that emphasize Hitler's failed leadership over Soviet strategy and might Rafts of newly available official directives orders and reports reveal the true nature and extraordinary scale of Soviet military operations as they swept across the one thousand miles from Moscow to Berlin featuring stubborn defenses and monumental offensives and counteroffensives and ultimately costing the two sides combined a staggering twenty million casualties Placing the war within its wider context the authors also make use of recent revelations to clarify further the political economic and social issues that influenced and reflected what happened on the battlefield Their work gives us new insight into Stalin's political motivation and Adolf Hitler's role as warlord as well as a better understanding of the human and economic costs of the war for both the Soviet Union and Germany While incorporating a wealth of new information *When Titans Clashed* remains remarkably compact a tribute to the authors determination to make this critical chapter in world history as accessible as it is essential

The World in Arms ,1990 *Russia at War* Timothy C. Dowling,2014-12-02 This easy to use reference explores the people and events that shaped Russian military history and impacted Europe Asia and the world over the past eight centuries Russian military history is an often overlooked field Yet Russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage This study of Russia's military past provides insights into European and U S history including the conduct of the two World Wars and the Cold War and will help readers better appreciate the current geopolitical situation This work covers major events and figures in Russian military history from the end of Mongol domination in the 14th century to the present day More than 650 entries by scores of expert contributors detail events individuals organizations and ideas that have influenced Russian warfare over 800 years Two alphabetically arranged volumes explore such conflicts as the Russo Polish Wars the Great Northern War the Russo Turkish Wars the Napoleonic Wars the Crimean War the Russo Japanese War World War I World War II and the Cold War including the Soviet invasion of Afghanistan Cross references and further readings in each entry serve as jumping off points for further exploration

Vietnam Gary R. Hess,2015-03-25 Now available in a completely revised and updated second edition *Vietnam Explaining America's Lost War* is an award winning historiography of one of the 20th century's seminal conflicts Looks at many facets of Vietnam War examining central arguments of scholars journalists and participants and providing evidence on both sides of controversies around this event Addresses key debates about the Vietnam War asking whether the war was necessary for US security whether President Kennedy would have avoided the war had he lived beyond November 1963

whether negotiation would have been a feasible alternative to war and more Assesses the lessons learned from this war and how these lessons have affected American national security policy since Written by a well respected scholar in the field in an accessible style for students and scholars
