Leidholdt,2009-11 A longtime columnist for the Raleigh News and Observer Cornelia Battle Lewis earned a national reputation in the 1920s and 1930s for her courageous advocacy on behalf of women s rights African Americans children and labor unions Late in her life however after fighting mental illness Lewis reversed many of her stances and railed against the liberalism she had spent her life advancing In Battling Nell Alexander S Leidholdt tells the compelling and ultimately tragic life story of this groundbreaking journalist against the backdrop of the turbulent post Reconstruction Jim Crow South and speculates about the cause of her extraordinary transformation The daughter of North Carolina s most prominent public health official Lewis grew up in Raleigh but her experiences at Smith College in Massachusetts and later in France during World War I led her to question the prevailing racial attitudes and gender roles of her native region In 1920 Lewis began her storied career with the News and Observer Inspired by H L Mencken s scathing

criticism of the South she soon established herself as the region's leading female liberal journalist. Her column 'Incidentally' attacked the Ku Klux Klan, lobbied against the exploitation of mill workers, defended strikers during the notorious communist-organized Gastonia labor violence, mocked religious fundamentalists who fought the teaching of evolution, and decried lynch law. A suffragist and a feminist who saw women's rights as inextricably linked to human rights, Lewis ran for state legislature in 1928 and was one of the first women in North Carolina to be admitted to the bar. In the 1930s, however, Lewis faced repeated institutionalizations for a debilitating bout of mental illness and sought treatment from Christian Science practitioners, spiritualists, and psychotherapists. As she aged, her views grew increasingly reactionary, and she insisted that she had served as a communist dupe during the Gastonia strike and trials that communists had infiltrated the University of North Carolina, and that many of her former progressive allies had ties to communism. Finally, many of her opinions completely reversed, and in the wake of the 1954 *Brown v. Board* decision, she served as an influential spokesperson for the South's massive resistance to public school desegregation. She continued to espouse these conservative beliefs until her death in 1956. In his detailed retelling of Lewis's fascinating life, Leidholdt chronicles the turbulent history of North Carolina from the 1920s through the 1950s, as industrialization and racial integration began to tear at the region's conservative fabric. He vividly explains the background and ramifications of Lewis's many controversial stances and explores the possible reasons for her ideological about-face. Through the extraordinary story of Battling Nell, Leidholdt reveals how the complex issues of gender, labor, and race intertwined to influence the convulsive events that shaped the course of early twentieth-century southern history.

[Making Whiteness](#) Grace Elizabeth Hale, 2010-08-25 *Making Whiteness* is a profoundly important work that explains how and why whiteness came to be such a crucial, embattled, and distorting component of twentieth-century American identity. In intricately textured detail and with passionately mastered analysis, Grace Elizabeth Hale shows how, when faced with the active citizenship of their ex-slaves after the Civil War, white southerners re-established their dominance through a cultural system based on violence and physical separation. And in a bold and transformative analysis of the meaning of segregation for the nation as a whole, she explains how white southerners' creation of modern whiteness was beginning in the 1920s, taken up by the rest of the nation as a way of enforcing a new social hierarchy while at the same time creating the illusion of a national egalitarian, consumerist democracy. By showing the very recent historical making of contemporary American whiteness and by examining how the culture of segregation in all its murderous contradictions was lived, Hale makes it possible to imagine a future outside it. Her vision holds out the difficult promise of a truly democratic American identity whose possibilities are no longer limited and disfigured by race.

**American Studies** Jack Salzman, 1986-08-29 This is an annotated bibliography of 20th-century books through 1983 and is a reworking of *American Studies: An Annotated Bibliography of Works on the Civilization of the United States*, published in 1982. books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00      William Louis Poteat Randal L. Hall,2014-10-17

William Louis Poteat 1856 1938 the son of a conservative Baptist slaveholder became one of the most outspoken southern liberals during his lifetime He was a rarity in the South for openly teaching evolution beginning in the 1880s and during his tenure as president of Wake Forest College 1905 1927 his advocacy of social Christianity stood in stark contrast to the zeal for practical training that swept through the New South s state universities Exceptionally frank in his support of evolution Poteat believed it represented God at work in nature Despite repeated attacks in the early 1920s Poteat stood his ground on this issue while a number of other professors at southern colleges were dismissed for teaching evolution One of the few Baptists who stressed the social duties of Christians Poteat led numerous campaigns during the Progressive era for reform on such issues as public education child labor race relations and care of the mentally ill His convictions were grounded in a respect for high culture and learning a belief in the need for leadership and a deep seated faith in God Poteat also embodied the struggle with the intellectual compromises that tortured contemporary social critics in the South Though he took a liberal position on numerous issues he was a staunch advocate for prohibition and became a strong supporter of eugenics a position he adopted after following his beliefs in a natural hierarchy and absolute moral order to their ultimate conclusion Randal Hall s revisionist biography presents a nuanced portrait of Poteat shedding new light on southern intellectual life religious development higher education and politics in the region during his lifetime      The Nation's Region Leigh Anne Duck,2009

How could liberalism and apartheid coexist for decades in our country as they did during the first half of the twentieth century This study looks at works by such writers as Thomas Dixon Erskine Caldwell Zora Neale Hurston William Faulkner and Ralph Ellison to show how representations of time in southern narrative first accommodated but finally elucidated the relationship between these two political philosophies Although racial segregation was codified by U S law says Leigh Anne Duck nationalist discourse downplayed its significance everywhere but in the South where apartheid was conceded as an immutable aspect of an anachronistic culture As the nation modernized the South served as a repository of the country s romantic notions the region was represented as a close knit custom bound place through which the nation could temper its ambivalence about the upheavals of progress The Great Depression changed this Amid economic anxiety and the international rise of fascism writes Duck the trope of the backward South began to comprise an image of what the United States could become As she moves from the Depression to the nascent years of the civil rights movement to the early cold war era Duck explains how experimental writers in each of these periods challenged ideas of a monolithically archaic South

through innovative representations of time She situates their narratives amid broad concern regarding national modernization and governance as manifest in cultural and political debates sociological studies and popular film Although southern modernists modes and methods varied along this trajectory their purpose remained focused to explore the mutually constitutive relationships between social forms considered southern and national *The Southern Press* Douglas O. Cumming, 2009 The Southern journalist was more likely to be a Romantic and an intellectual The region's journalism was personal colorful and steeped in the classics This title suggests that the South's journalism struck a literary pose closer to the older English press than to the democratic penny press or bourgeois magazines of the urban North Editor for Justice Alexander S. Leidholdt, 2002-05-01 From his assumption of the Norfolk Virginian Pilot's editorial helm in 1919 until his death in 1950 Louis Isaac Jaff served as one of the South's leading and most respected liberal journalists Prejudice he faced as a Jew created in him an abiding empathy with the downtrodden and his World War I military service and subsequent Red Cross work deepened his sensitivity to injustice Alexander Leidholdt's new biography maps the battlefield of intolerance and civil rights violations on which Jaff fired his journalistic salvos and explores the complexities of a man who was poised to become a national spokesman for a better South Jaff worked ceaselessly to advance racial understanding successfully lobbying locally for black parks and beaches black police and a black college A high point of Leidholdt's book is the account of Jaff's attacks on mob justice a stirring record of one writer's response to what he saw as inexcusable moral sluggishness in civil authorities For his campaign urging Virginia lawmakers to adopt stiff antilynching legislation he earned the 1929 Pulitzer Prize for distinguished editorial writing Achieving a poignant balance between Jaff's significant professional accomplishments and the private pains he bore including anti-Semitism a mentally unstable wife and an estranged son this superb study demonstrates how Jaff's difficulties limited him as an active liberal reformer but also fueled his prescient and impassioned warnings against Hitler's rise to power in the early thirties Drawing extensively from primary source material much of it previously unexamined Editor for Justice makes an important contribution to journalism and to southern Jewish and black history Readers will treasure the depiction of an extraordinary champion of human rights
