The Latin Passion Play Sandro Sticca, 1970-01-01 In this first comprehensive study of the Latin Passion play Professor Sticca examines the medieval liturgical ceremonies commemorating the events in Christ s Passion and traces their gradual change in character from the contemplative to the dramatic The author shows that while Christ s Passion became increasingly popular as one of the sacred mysteries beginning in the tenth century new forces that allowed a more eloquent and humane visualization and description of Christ s anguish first appeared in the eleventh and twelfth centuries Professor Sticca analyzes the earliest extant Latin Passion play the twelfth century Montecassino codex and compares it with other Latin and vernacular Passion plays He refutes the traditional view that the Planctus Mariae is the germinal point of the Latin Passion play and then offers a new theory of its inception As a literary form the Latin Passion play appears to Professor Sticca as a creation of the Montecassino monastic circle which was inspired by the liturgical services of Good Friday and the Gospel accounts Particularly influential also were three themes that developed in the eleventh century in liturgy a concentration on Christocentric piety in art a more humanistic treatment of Christ and in literature a consideration of the scenes of the Passion as dramatic and human episodes In the course of this investigation Professor Sticca also reappraises traditional views of the origin of the medieval liturgical drama indicating that it should not be traced exclusively to the tropes from the schools of St Gall and St Martial of Limoges

Nagarjuna's Madhyamaka Jan Westerhoff,2009-02-23 The Indian philosopher Acharya Nagarjuna c 150 250 CE was the founder of the Madhyamaka Middle Path school of Mahayana Buddhism and arguably the most influential Buddhist thinker after Buddha himself Indeed in the Tibetan and East Asian traditions Nagarjuna is often referred to as the second Buddha His primary contribution to Buddhist thought lies in the further development of the concept of sunyata or emptiness For Nagarjuna all phenomena are without any svabhava literally own nature or self nature and thus without any underlying essence In this book Jan Westerhoff offers a systematic account of Nagarjuna s philosophical position He reads Nagarjuna in his own philosophical context but he does not hesitate to show that the issues of Indian and Tibetan Buddhist philosophy have at least family resemblances to issues in European philosophy
