W.

Davies,1989-05-05 In 1929 30 the spinal year of the first five year plan a vast investment programme began the transformation of the Soviet Union from a peasant country into a great industrial power This book the third part of The Industrialisation of Soviet Russia re examines the breakdown of the mixed economy In those days of heroism and enthusiasm hunger and repression crucial Soviet economic and political institutions were established and are only now being effectively challenged by Gorbachev s revolution While complementing the previous two volumes of this author s work the book is designed to be read independently It sheds new light on a dramatic moment in Soviet history and in the formation of the Soviet system **The Food Revolution In The Soviet Union And Eastern Europe** Robert Deutsch,2019-07-11 The first study in the Western world to compare the relationship between food and politics in the countries of Eastern Europe this book views the current food revolution as part of the modernization process Robert Deutsch argues that the communist

leaders in the Comecon countries increasingly link political stability and preservation of power to the problem of satisfying consumer demand. He also assesses the various social forces that have brought about the food revolution. The most important is the expanded working class which is no longer willing to defer consumer demands to a hypothetical communist future. The CMEA countries thus face the dilemma of either gradually liberalizing their economies in order to meet growing consumer demands or resorting to repression. Neither of these options promises a long term solution for implementing economic policies prescribed by Marxist Leninist doctrine. Robert Deutsch presents case studies of Hungary, Bulgaria and the German Democratic Republic as examples of the relative success of economic reforms. To a greater or lesser extent these countries have opted for economic decentralization by liberalizing private ownership and pricing policy and by integrating planning with market oriented concepts. The author compares this with the economic problems of the Soviet Union, Poland, Romania and Czechoslovakia. The study is enhanced by an exhaustive bibliography arranged topically and drawn from the specialized literature in several languages.

The Soviet Economy on the Brink of Reform Peter Wiles, 2023-06-14. The Soviet Economy on the Brink of Reform 1988 is a collection of essays in honour of Alec Nove and covers such topics as Leon Trotsky, Navrozov, Soviet Investment criteria, Soviet Agricultural and economic politics under Andropov and Chernenko.

Soviet Constitutional Crisis Robert Sharlet, 2016-06-16. Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev, Andropov and Chernenko to the radical legal restructuring of the Gorbachev years, Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR. Sharlet, a noted authority on Soviet law and constitutional development, demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development. In effect, he argues, one of Gorbachev's most durable achievements may be his redefinition of Soviet politics into a legal idiom along with his relocation of policymaking from behind the closed doors of Party conclaves into the more open emergent arena of constitutional government. In analyzing the politics of law from the Brezhnev era to the rise of Yeltsin, the author takes account of the war of laws, the symbolic uses of the Soviet constitution and even the fact that the leaders of the failed coup attempted to justify their seizure of power on constitutional grounds. Constitutionalism has sufficiently suffused Soviet public life, the book concludes, that most of the sovereign republics as successors to the former USSR have begun designing their futures to varying degrees in constitutional forms.
