The Gateway To History History And Historiography:

The Gateway to History Allan Nevins, 2018-10-24 In this book originally published in 1962 one of America's most distinguished historians defines the scope and variety of his field and outlines his views on history's objectives both as a science and as an art. The book provides insight into historians' methods of interpreting and presenting the past from Thucydides to twentieth-century scholarship on Europe and America. It sets apart the different approaches to history: biographical, cultural, intellectual, geographical, and political, illuminating the peculiar goals, problems, and development of each discipline. It discusses the question of pre-history and its companion science, archaeology, and spans the history of the collection and use of records.

Frontiers of History Donald R. Kelley, 2006-01-01 In 1764-65 the irrepressible playwright Beaumarchais travelled to Madrid where he immersed himself in the life and society of the day. Inspired by the places he had seen and the people he had met, Beaumarchais returned home to create *The Barber of Seville* and *The Marriage of Figaro*, plays that became the basis for the operas by Rossini and Mozart that continue to delight audiences today. This book is a lively and original account of Beaumarchais's visit to Madrid; he never went to Seville and a re-creation of the society that fired his imagination. Drawing on Beaumarchais's letters and commentaries translated into English for the first time, Hugh Thomas investigates the full range of the playwright's activities in Madrid. He focuses particular attention on short plays that Beaumarchais attended and by which he was probably influenced, and he probes the inspirations for such widely recognized characters as the barber valet Figaro, the lordly Count Almaviva, and the beautiful but deceived Rosine. Not neglecting Beaumarchais's many other pursuits ranging from an endeavour to gain a contract for selling African slaves to an attempt to place his mistress as a spy in the bed of King Charles III, Lord Thomas provides a highly entertaining view of a vital moment in Madrid's history and in the creative life of the energetic Beaumarchais.

Everybody's History Keith A. Erikson, 2012 How a group of nonprofessional historians forced a reassessment of Abraham Lincoln's life story.

The Writing of American History Michael Kraus, Davis D. Joyce, 1990-01-01 Events which become historical, says Michael Kraus, do not live on because of their mere occurrence. They survive when writers re-create them and thus preserve for posterity their otherwise fleeting existence. Paul Revere's ride, for example, might well have vanished from the records had not Longfellow snatched it from approaching oblivion and given it a dramatic spot in American history. Now Revere rides on in spirited passages in our history books. In this way the recorder of events becomes almost as important as the events themselves. In other words, historiography, the study of historians and their particular contributions to the body of historical records, must not be ignored by those who seriously wish to understand the past. When the first edition of Michael Kraus's *Writing of American History* was published, a reviewer for the *New York Herald Tribune* wrote: "No serious study of our national origins and development can afford not to have such an aid as this at his elbow." The book quickly came to be regarded as one of the few truly standard general surveys of American historiography, invaluable as a reference book, as a textbook, and as a highly readable source of

information for the interested general reader This new edition with coauthor Davis D Joyce confirms its position as the definitive work in the field Concise yet comprehensive here is an analysis of the writers and writings of American history from the Norse voyages to modern times The book has its roots in Kraus s pioneering History of American History published in 1937 a unique and successful attempt to cover in one volume the entire sweep of American historical activity Kraus revised and updated the book in 1953 when it was published under the present title Now once again the demand for its revision has been met Davis D Joyce with the full cooperation and approval of Kraus has thoroughly revised and brought up to date the text of the 1953 edition The clarity and evenhandedness of Kraus s text has been carefully preserved The last three chapters add entirely new material surveying the massive and complex body of American historical writing since World War II Consensus American Historical Writing in the 1950s Conflict American Historical Writing in the 1960s and Complexity American Historical Writing in the 1970s and Beyond Michael Kraus Professor Emeritus at City College of New York received the Ph D from Columbia University and in his long career established himself as one of America s foremost historiographers Davis D Joyce is Professor Emeritus of History East Central University Ada Oklahoma and is the author of HOWARD ZINN A RADICAL AMERICAN VISION and ALTERNATIVE OKLAHOMA CONTRARIAN VIEWS OF THE SOONER STATE He teaches part time at Rogers State University Claremore Oklahoma

Postcolonising the Medieval Image Eva Frojmovic, Catherine E. Karkov, 2017-03-16 Postcolonial theories have transformed literary historical and cultural studies over the past three decades Yet the study of medieval art and visualities has in general remained Eurocentric in its canon and conservative in its approaches Postcolonising as the eleven essays in this volume show entails active intervention into the field of medieval art history and visual studies through a theoretical reframing of research This approach poses and elicits new research questions and tests how concepts current in postcolonial studies such as diaspora and migration under represented artistic cultures accented art making displacement intercultural versus transcultural hybridity presence absence can help medievalists to reinvigorate the study of art and visuality Postcolonial concepts are deployed in order to redraft the canon of medieval art

thereby seeking to build bridges between medievalist and modernist communities of scholars Among the varied topics explored in the volume are the appropriation of Roman iconography by early medieval Scandinavian metalworkers multilingualism and materiality in Anglo Saxon culture the circulation and display of Islamic secular ceramics on Pisan churches cultural negotiation by Jewish minorities in Central Europe and the Iberian peninsula Holy Land maps and medieval imaginative geography and the uses of Thomas Becket in the colonial imaginary of the Plantagenet court
