The German Rearmament Question American Diplomacy And European Defense After World War II:

The German Rearmament Question Robert McGeehan,1971 *The German Rearmament Question* Robert McGeehan,1996 **German Rearmament Question** Robert McGeehan,1971 **Germans to the Front** David Clay Large,2000-11-09 In *Germans to the Front* David Large charts the path from Germany's total demilitarization immediately after World War II to the appearance of the Bundeswehr the West German army in 1956 The book is the first comprehensive study in English of West German rearmament during this critical period Large's analysis of the complex interplay between the diplomatic and domestic facets of the rearmament debate illuminates key elements in the development of the Cold War and in Germany's ongoing difficulty in formulating a role for itself on the international scene Rearmament severely tested West Germany's new parliamentary institutions dramatically defined emerging power relationships in German politics and posed a crucial challenge for the NATO alliance Although the establishment of the Bundeswehr ultimately helped stabilize the nation the acrimony surrounding its formation generated deep divisions in German society that persisted long after the army took the field According to Large the conflict was so bitter because rearmament forced a confrontation with fundamental questions of national identity and demanded a painful reckoning with the past George F. Kennan and the Making of American Foreign Policy, 1947-1950 Wilson D. Miscamble, C.S.C.,2021-04-13 When George C Marshall became Secretary of State in January of 1947 he faced not only a staggering array of serious foreign policy questions but also a State Department rendered ineffective by neglect maladministration and low morale Soon after his arrival Marshall asked George F Kennan to head a new component in the department's structure the Policy Planning Staff Here Wilson Miscamble scrutinizes Kennan's subsequent influence over foreign policymaking during the crucial years from 1947 to 1950 **The United States and Germany in the Era of the Cold War, 1945-1990** Detlef Junker,Philipp Gassert,Wilfried Mausbach,David B. Morris,2004-05-17 Publisher Description **The United States and the European Right, 1945-1955** Deborah Kisatsky,2005 Nazi Germany's defeat in May 1945 commenced a decade long allied effort to democratize the former Reich The United States simultaneously began sheltering scientists industrialists and military officers complicit in Nazi crimes What explained this conflict between the spirit and practice of denazification Did U S Cold War anticommunism simply replace antifascism in the postwar period Did Americans favor rightists over leftists in a quest to restore order in Europe In this groundbreaking study Deborah Kisatsky shows that opportunity not order galvanized U S foreign policy and that American dealings with the European Right were more complex than has been presumed U S leaders cooperated with West German Chancellor Konrad Adenauer to achieve shared Atlanticist goals And the United States co-opted nationalistic fighters into a secret stay behind net of the Bund Deutscher Jugend Technischer Dienst But allied leaders jointly worked to contain such vocal neutralist nationalists as the ex-Nazi Otto Strasser Cooperation co-optation and containment of French and Italian as of German rightists advanced American hegemony in Europe These strategies extended techniques of social

control perfected within the United States and synthesized domestic and international systems of power in the twentieth century BOOK JACKET

Britain's Policy for West German Rearmament, 1950-1955 Saki Dockrill, 1991 *The Rise and Fall of the European Defence Community* K. Ruane, 2000-06-06 Using the European Defence Community EDC as a case study this book examines the competing and often conflicting view of the British and American governments towards European integration in the early 1950s The British fearing an agonizing reappraisal of the American defence commitment to Europe if the supranational EDC failed went to great lengths to ensure the success of the scheme When despite these efforts the EDC finally collapsed in August 1954 NATO was plunged into arguably the most severe crisis in its history The crisis also possessed an Anglo American dimension with London and Washington badly divided on how it should be resolved In the end the British were instrumental in the creation of the Western European Union as a successor to the EDC Their crisis management however had been rooted in fear of the agonizing reappraisal a danger dismissed by many historians as exaggerated but which the British in 1954 were perhaps right to take seriously

From Disarmament to Rearmament Sheldon A. Goldberg, 2017-10-02 At the end of World War II the Allies were unanimous in their determination to disarm the former aggressor Germany As the Cold War intensified however the decision whether to reverse that policy and to rearm West Germany as a bulwark against the Soviet threat led to disagreements both within the US government and among members of the nascent NATO alliance The US military took the practical view that a substantial number of German troops would be required to deter any potential Soviet assault The State Department on the other hand initially advocated an alternative strategy of strengthening European institutions but eventually came around to the military's position that an armed West Germany was preferable to a weak state on the dividing line between the Western democracies and the Soviet satellite states Sheldon A Goldberg traces the military diplomatic and political threads of postwar policy toward West Germany and provides insights into the inner workings of alliance building and the roles of bureaucrats and military officers as well as those of diplomats and statesmen He draws on previously unexamined primary sources to construct a cogent account of the political and diplomatic negotiations that led to West Germany's accession to NATO and the shaping of European order for the next forty years
