The Guardians Of The New World:

The Harold Project Judy Canter, 2023-07-13 Harold was born with the ability to connect to the ancient life energy lost by humans because of their selfish materialistic behaviors. He grows up supported by gnomes sent by Mother Earth to help humans reconnect to life energy and stop their destructive actions that are killing the earth. So he starts growing vegetables that people say give them peace and harmony after consuming them. But are these vegetables magical? Harold surrounds himself with his gardens, seldom emerging until his wife is taken from him by the Guardians and an evil force tries to kill him. Suddenly he starts to care about the future of the earth and works to help people reconnect and care about their futures. The Guardians come to earth to help humans understand the consequences of their actions, reconnect with the life energy, and heal the earth. But most humans resist. The earth is dying, and time is running out for humans. Will they care enough to heal the earth, or will life continue without them?

The Āśrama System Patrick Olivelle, 1993 The lesser known and explored of the two pillars of Hinduism, rama and vara, rama is the name given to a system of four distinct and legitimate ways of leading a religious life: as a celibate student, a married householder, a forest hermit, and a world renouncer. In this, the first full-length study of the rama system, Olivelle uncovers its origin and traces its subsequent history. He examines in depth its relationship to other institutional and doctrinal aspects of the Brahmanical world and its position within Brahmanical theology and assesses its significance within the history of Indian religion. Throughout, he argues that the rama system is primarily a theological construct and that the system and its history should be carefully distinguished from the socio-religious institutions comprehended by the system and from their respective histories.
