The Hidden Dimension Edward Twitchell Hall, 1966 *The Hidden Dimension* Edward Twitchell Hall, 1969 *The Hidden Dimension* Marc Raeff, 1966 *The Hidden Dimension [sound Recording]* Edward Twitchell Hall, 1972 *The GOD Entity* Scott S Gordon, 2015-09-18 Theoretical physics has reached an impasse that many feel is a dead end As the odds of finding evidence for supersymmetry starts to fade new theories have emerged such as The Multiverse Extra Dimensions and Dimensional Transmutation These theories attempt to explain the inexplicable yet at the same time fail to explain the explainable Many physicists are left frustrated and wondering aloud How could we have travelled so far down the wrong path Any intelligent fool can make things bigger and more complex It takes a touch of genius and a lot of courage to move in the opposite direction Albert Einstein Engineers know that the right answer is usually a simple one As Einstein would put it The grand aim of all science is to cover the greatest number of empirical facts by logical deduction from the smallest number of hypotheses or axioms Gordon's theory of everything starts with only two postulates the massless bosons called Gordon Omnipresent Dots or GOD entities and the E0 energy associated with their initial alignment These primordial postulates are the only building blocks of a model that explains the inevitable course of events that created our universe The mathematics created within this process corrects the postulates used to develop the theories of relativity and quantum mechanics which can finally be united and subsequently applied to the infinitesimally small and the infinitely large We currently use parameters such as distance time straight lines velocity electric charge energy fields and mass Gordon's theory of everything begins at a time when none of these parameters existed prior to the Big Bang It takes nothing for granted as a predestined process unfolds creating these parameters as they come into existence defined by the evolving mathematics The Gordon

model reveals that energy exists in three separate Gordon energy states described by The GOD equation The interaction between these energy states result in the formation of energy fields and the creation of all forces Most importantly the structure of space time from the previously unrecognized G0 energy state provides the solid foundation upon which we are able to build a new understanding of everything in the universe The simplicity and elegance of Gordon s theory of everything will astonish everyone as everything falls into place The purpose of this book is to put the field of physics on a theoretically sound foundation The structures of the first few fundamental particles and the energy fields they generate are just the beginning You will have the opportunity to make major contributions Starting where this book leaves off at the up quark and electron the race is on to find the internal structure of a neutron and all the particles of the standard model Don t be left behind Be among the first to read Scott S Gordon s The GOD Entity Gordon s Theory of Everything **Worlds' Embrace** Pasquale De Marco,2025-08-11 Worlds Embrace is an exploration of the hidden dimensions that exist alongside our own a journey into the unknown that will challenge our preconceptions and expand our understanding of the universe we inhabit Within these pages you will find Explorations of ancient wisdom traditions and their relevance to modern life Investigations into the power of the mind dreams and intuition Discussions of the latest scientific discoveries in physics cosmology and consciousness studies Insights into the nature of reality the existence of extraterrestrial life and the mysteries of the universe Practical techniques and exercises for exploring the hidden dimensions of your own being Whether you are a seeker of knowledge a spiritual explorer or simply someone who is curious about the mysteries of life Worlds Embrace is an invitation to embark on a journey of discovery that will forever change your perception of the world This book is a tapestry of knowledge and wonder woven together from the threads of ancient wisdom and modern science It is a book that will inspire you to look beyond the veil of the ordinary and embrace the extraordinary that lies hidden within and all around us Open your mind embrace the unknown and prepare to be amazed Worlds Embrace is a journey into the hidden dimensions of existence a quest for knowledge and self discovery that will leave you forever changed If you like this book write a review
