

A woman with long, flowing blonde hair is the central figure. She is wearing a blue, long-sleeved, ribbed top and black pants. She holds a flashlight in her right hand, which is turned on, casting a bright beam of light. Her hair is blowing in the wind, suggesting a fan or a breeze. The background is a dark, industrial environment with metal beams and structures. The overall mood is mysterious and suspenseful.

The Hider:

The Hider Loren D. Estleman, 2005 To eighteen year old Jeff Curry the old hider and the buffalo he hunted was something of a myth like a ghost from the past stalking a dream The old man claimed to have tracked the last of the mighty beasts all the way from Arizona to Oregon where buffalo hadn't been seen in ten years It was the chance for adventure that Jeff had ached for But when these two men help an Indian framed for murder the buffalo hunt turns into a manhunt and Jeff is one of the prey

Infection's Revenge Daron Malmborg, 2013-06 Hank is mowing his lawn when a horrifying blast rocks his world He sees a mushroom cloud rise over a distant valley and runs for shelter in his fruit cellar In a matter of minutes the only life Hank knows has disappeared Nine months after the nuclear bomb explodes resources are stretched thin as greed fear and self preservation trump morals ethics and civilized behavior Led by his animalistic instinct to survive Hank becomes a nomad as he attempts to escape the hordes of undead rising in his city as well as his own conscience With his life now reduced to eluding the relentless rotting walking corpses and lurking diseased hiders Hank spends his few peaceful moments battling guilt for not pursuing his dream of becoming an ordained minister As he struggles with his fading religious beliefs and the stark reality of not knowing who he can trust he soon realizes he is not alone in this godless existence From within the dark shadows a new enemy emerges that poses an even greater threat than the undead As the world sits on the brink of nuclear war in an effort to stop a cataclysmic infection one man embarks on a perilous journey for survival without any idea that the government may have its own plans for his future

Advances in Dynamic Games David M. Ramsey, Jérôme Renault, 2020-11-09 This contributed volume collects talks originally given at the 18th International Symposium on Dynamic Games and Applications

held in Grenoble France from July 9-12 2018. Chapters present state of the art research in the field of dynamic games and are written by leading experts in this active area. Featuring a broad overview of recent advances as well as a wide range of applications, this book is organized into four sections: games of conflict, evolutionary games, economic games, and games involving common interest. Within these sections, specific topics covered include Pursuit evasion games, Partnership formation games, Replicator dynamics, Load balancing congestion games, Equilibrium coalition structures. **Advances in Dynamic Games** will be of particular interest to researchers and doctoral students studying game theory. **Original Knowing** J. Bradley Wigger, 2012-10-17. Did Lucy know? God? Could Neanderthals talk? Was Ardi self-conscious? These are the strange new breed of questions emerging as we discover more and more about our prehistoric origins. Questions about knowing. While fossil digs and carbon dating tell a remarkable story about the bones and times of our ancient ancestors, we cannot help wondering what they knew and when. Exploring such questions, **Original Knowing** takes contemporary science as seriously as religious tradition and searches for the story behind this odd creature who senses more to the universe than meets the eye. In limestone bluffs and butterfly migrations from Stone Age tool making to Sumerian beer making, clues are sought to better understand this strange mind that ponders the origins of its own existence. When do babies point and why does it matter? What does throwing a Frisbee reveal about our distant ancestors? Is language the key to our minds as many believe? Or perhaps the heart of knowing rests in something more basic: in a smile and the powerful social abilities at work allowing us to sense a depth to life, to our own lives, a depth that our minds help us glimpse if only through a glass darkly. **"Cat Person" and Other Stories** Kristen Roupenian, 2019-01-15. Includes the story **Cat Person**, now a major film. A compulsively readable collection of short stories that explore the complex and often darkly funny connections between gender, sex, and power across genres. These stories are sharp and perverse, dark and bizarre, unrelenting and utterly bananas. I love them so so much. Carmen Maria Machado, National Book Award Finalist and author of *Her Body and Other Parties*. Kristen Roupenian isn't just an uncannily great writer; she also knows things about the human psyche. The world has made a lot more sense since reading this book. **Miranda**, July. New York Times bestselling author. Previously published as *You Know You Want This*. **Cat Person and Other Stories** brilliantly explores the ways in which women are horrifying as much as it captures the horrors that are done to them. Among its pages are a couple who becomes obsessed with their friend; hearing them have sex, then seeing them have sex until they can't have sex without him; a ten-year-old whose birthday party takes a sinister turn when she wishes for something mean; a woman who finds a book of spells half-hidden at the library and summons her heart's desire; a nameless, naked man; and a self-proclaimed biter who dreams of sneaking up behind and sinking her teeth into a green-eyed, long-haired, pink-cheeked coworker. Spanning a range of genres and topics from the mundane to the murderous and supernatural, these are stories about sex and punishment, guilt and anger, the pleasure and terror of inflicting and experiencing pain. These stories fascinate and repel, revolt and arouse, scare and delight in equal measure. And as a collection, they point a finger at you.

daring you to feel uncomfortable or worse understood as if to say You want this right You know you want this **Group**
Chase and Escape Atsushi Kamimura, Toru Ohira, 2019-12-12 This book presents a unique fusion of two different research topics One is related to the traditional mathematical problem of chases and escapes The problem mainly deals with a situation where a chaser pursues an evader to analyze their trajectories and capture time It dates back more than 300 years and has developed in various directions such as differential games The other topic is the recently developing field of collective behavior which investigates origins and properties of emergent behavior in groups of self driving units Applications include schools of fish flocks of birds and traffic jams This book first reviews representative topics both old and new from these two areas Then it presents the combined research topic of group chase and escape recently proposed by the authors Although the combination is simple and straightforward the book describes the emergence of rather intricate behavior provoking the interest of readers for further developments and applications of related topics
