Levy, 2012-01-23 We are surrounded by documents of all kinds from receipts to letters business memos to books yet we rarely stop to reflect on their significance Now in this period of digital transition our written forms as well as our reading and writing habits are being questioned and transformed by new technologies and practices What is the future of the book Is paper about to disappear With the Internet and World Wide Web what will happen to libraries copyright and education Starting with a simple deli lunch receipt SCROLLING FORWARD examines documents of all kinds from the perspectives of culture history and technology in order to show how they can work and what they say about us and the values we carry into the new age

today's technologies particularly the personal computer and the World Wide Web are having analogous effects to past inventions such as paper the printing press writing implements and typewriters in shaping how we use documents and the forms those documents take Scrolling Forward lets us see the continuity between the written forms of today and those of the past Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home Humanities, 1999 *The Scientific Article in the Age of Digitization* John Mackenzie Owen, 2006-11-18 1 The birth of the electronic journal In the autumn of 1987 Michael Ehringhaus and Bird Stasz of Syracuse University launched New horizons in adult education probably the very first refereed scientific journal to be published in electronic form 1 1 The first issue was sent over the Adult Education Network AEDNET The journal still 2 exists today In March 1991 Ted Jennings of the University at Albany State 3 University of New York launched EJournal described as an electronic journal concerned with the implications of electronic networks and texts 1 2 coining the now popular term e journal The Online journal of current clinical trials published from September 1991 has been described as the first peer reviewed electronic journal in medicine How significant is the phenomenon of the scientific electronic journal today more than a decade and a half after its introduction Over this period information and communication technologies ICT have been an important factor in the development of scientific communication Applications such as communication over digital networks converging towards a single network the Internet the use of computerized systems for creating storing and retrieving 1 The scientific journal is also referred to as scholarly or research journal We use the former term in this study 2 Although no longer distributed over AEDNET but through the World Wide Web The first issue is now available at <http://www.nova.edu/aed/horizons/vol1n1>
