The Model Male:

The Model Male Katherine Marsh, 2004-08 If someone seems too good to be true are they Or is your skepticism really masking paranoia How would you know for sure How can you really tell Will it be too late when you finally uncover the answer the truth And the question begs to be asked Too late for what In her ground breaking new novel The Model Male author Katherine Marsh paints a vivid picture of life where women s desires are completely fulfilled on all levels emotionally to intimately But what is the price At what cost to women and at what cost to the world The Model Male takes you on a mesmerizing journey of attraction vulnerability and hopefulness to power disdain and terror Each page draws you deeper into a vortex of fantasy reality confusion and danger Ms Marsh opens the door to a world that may be possible within our lifetime But is such a new world an answer to our prayers or the dawn of our destruction It leaves us wondering if it is safe to trust anyone anymore Questioning if we are more easily deceived than we would like to think Ultimately we must deal dead on with the question Who is the real deceiver Man or The Model Male Rylee Brown The Model Male keeps pulling you in chapter after chapter Very well written would love to see it made into a movie with the potential for a sequel I was caught up in the drama and found myself rooting for the bad guys throughout the book G Sky LePage [The Invention of the Model](#)

[The Invention of the Model](#) Susan Waller, 2017-07-05 Although mastery of the representation of the human figure was central to art making as early as the fifteenth century in Europe in the nineteenth century French imagination the artist s model became identified as a distinct social type and cultural trope This study of the artist s model in Paris between 1830 and 1870 incorporates three histories a social history of professional models a cultural history of models as social types and an art history of representations of the model in elite and popular visual culture It takes as its starting point the artist model transaction demonstrating that stereotypes of the model that figured in the public imagination were framed both by gender and ethnicity the book develops a nuanced typology of different types of models Interwoven with the analysis of the constructed identities of models are accounts of the lives of particular models and the histories of the urban population groups from which they emerged The Invention of the Model Artists and Models in Paris 1830 1870 is an adept exploration of a major issue in nineteenth century art which will be of interest not only to art historians but also to social and French cultural historians

Social Butterflies Henry S. Horn, 2021-08-03 An ecologist s investigation of the social lives of butterflies Throughout his career Henry Horn took a unique approach to the study of butterflies This book brings together his findings with recent advances in behavioral ecology to provide an incomparable look at the social lives of butterflies illuminating for the first time the marvelously diverse range of butterfly behaviors across several species Social Butterflies features in depth studies of five sympatric species the Plain Ringlet the Eyed Brown the Great Spangled Fritillary the Viceroy and the Pearly Eye showing how their social interactions span much of the range of behaviors observed in vertebrates Drawing on decades of his own keen observations in the field Horn describes the natural history and behavioral peculiarities of each species and develops

models to explain characteristic aspects of their behaviors He then emphasizes key departures from these models to challenge the notion that butterflies are simply preconditioned to react to stimuli showing how some make decisions by observing how other butterflies interact with the landscape and each other Along the way he sheds light on butterfly territoriality mating tactics vagrancy feeding strategies and more Charting new directions for future research Social Butterflies poses intriguing questions about the complex and sometimes mystifying social behaviors of these marvelous creatures making it essential reading for lepidopterists ecologists and anyone interested in the social behaviors of invertebrate species

Ancient Households of the Americas John G. Douglass, Nancy Gonlin, 2012-04-15 In *Ancient Households of the Americas* archaeologists investigate the fundamental role of household production in ancient colonial and contemporary households Several different cultures Iroquois Coosa Anasazi Hohokam San Agustín Wankarani Formative Gulf Coast Mexico and Formative Classic Colonial and contemporary Maya are analyzed through the lens of household archaeology in concrete data driven case studies The text is divided into three sections Section I examines the spatial and social organization and context of household production Section II looks at the role and results of households as primary producers and Section III investigates the role of and interplay among households in their greater political and socioeconomic communities In the past few decades household archaeology has made substantial contributions to our understanding and explanation of the past through the documentation of the household as a social unit whether small or large rural or urban commoner or elite These case studies from a broad swath of the Americas make *Ancient Households of the Americas* extremely valuable for continuing the comparative interdisciplinary study of households

New Frontiers in Offender Treatment Elizabeth L. Jeglic, Cynthia Calkins, 2018-11-16 This book reviews how new and promising evidence based interventions are being used with those involved in the criminal justice system While there has been an increased emphasis on evidence based practice within forensic treatment there remains a disjoint between what we know works and adapting these interventions to those involved in the criminal justice system This book seeks to bridge that gap by providing an overview of what we know works and how that information has been translated into offender treatment In addition it highlights avenues where additional research is needed This book is comprised of three parts In the first part current models of correctional treatment including the Risk Needs Responsivity Model The Good Lives Model and Cognitive Behavioral Models are presented In the second part the chapters address clinical issues such as the therapeutic alliance clinician factors and diversity related issues that impact treatment outcome In the third and final part of the book adaptations of innovative and cutting edge evidence based treatments such as Dialectical Behavior Therapy Trauma Informed Care Mindfulness Motivational Interviewing Assertive Community Treatment Multisystemic Treatment New frontiers in Intimate Partner Violence treatment and the current research on the treatment of those with psychopathy are presented Research supporting these treatment approaches targeting areas such as self management psychological well being treatment engagement and
