The Monster In The Mirror Gender And The Sentimental Gothic Myth In Frankenstein

R Barnett

The Monster In The Mirror Gender And The Sentimental Gothic Myth In Frankenstein:

The Monster in the Mirror Mary K. Patterson Thornburg, Mary Patterson Thornburg, 1987 *Mary Shelley's Frankenstein* Harold Bloom, 2013-09 Perhaps best recognized for the horror films it has spawned *Frankenstein* written by 19 year old Mary Shelley was first published in 1818 *Frankenstein* warns against the irresponsible use of science and technology and makes readers reconsider who the world's monsters really are and how society contributes to creating them Ideal for research or general interest this resource furnishes students with a collection of the most insightful critical essays available on this Gothic thriller selected from a variety of literary sources *The Monster in the Mirror* Mary K. Patterson Thornburg, Mary Patterson Thornburg, 1987 **Frankenstein, Or, The Modern Prometheus** Mary Wollstonecraft Shelley, Mary Shelley, 1993 *Frankenstein* is a deeply disturbing story of a monstrous creation which has terrified and chilled readers since its first publication in 1818 **Frankenstein, Creation, and Monstrosity** Stephen Bann, 1994 Deals with the place of the monster in Western **The Naked And The Undead** Cynthia Freeland, 2018-03-05 Horror is often dismissed as mass art or lowbrow entertainment that produces only short term thrills Horror films can be bloody gory and disturbing so some people argue that they have bad moral effects inciting viewers to imitate cinematic violence or desensitizing them to atrocities In *The Naked and the Undead* Evil and the Appeal of Horror Cynthia A Freeland seeks to counter both aesthetic disdain and moral condemnation by focusing on a select body of important and revealing films demonstrating how the genre is capable of deep philosophical reflection about the existence and nature of evil both human and cosmic In exploring these films the author argues against a purely psychoanalytic approach and opts for both feminist and philosophical understandings She looks at what it is in these movies that serves to elicit specific reactions in viewers and why such responses as fear and disgust are ultimately pleasurable The author is particularly interested in showing how gender figures into screen presentations of evil The book is divided into three sections *Mad Scientists and Monstrous Mothers* which looks into the implications of male rationalistic scientific technology gone awry *The Vampire's Seduction* which explores the attraction of evil and the human ability or inability to distinguish active from passive subject from object and virtue from vice and *Sublime Spectacles of Disaster* which examines the human fascination with horror spectacle This section concludes with a chapter on graphic horror films like *The Texas Chainsaw Massacre* Written for both students and film enthusiasts the book examines a wide array of films including *The Silence of the Lambs* *Repulsion* *Frankenstein* *The Fly* *Dead Ringers* *Alien* *Bram Stoker's Dracula* *Interview with the Vampire* *Frenzy* *The Shining* *Eraserhead* *Hellraiser* and many others [Frankenstein and Its Classics](#) Jesse Weiner, Benjamin Eldon Stevens, Brett M. Rogers, 2018-08-09 *Frankenstein and Its Classics* is the first collection of scholarship dedicated to how *Frankenstein* and works inspired by it draw on ancient Greek and Roman literature history philosophy and myth Presenting twelve new essays intended for students scholars and other readers of Mary Shelley's novel the volume explores classical receptions in some of *Frankenstein*'s most important scenes sources and adaptations

Not limited to literature the chapters discuss a wide range of modern materials including recent films like Alex Garland's *Ex Machina* and comics like Matt Fraction's and Christian Ward's *Ody C* in relation to ancient works including Hesiod's *Theogony* Aeschylus's *Prometheus Bound* Ovid's *Metamorphoses* and Apuleius's *The Golden Ass* All together these studies show how *Frankenstein* a foundational work of science fiction brings ancient thought to bear on some of today's most pressing issues from bioengineering and the creation of artificial intelligence to the struggles of marginalized communities and political revolution This addition to the comparative study of classics and science fiction reveals deep similarities between ancient and modern ways of imagining the world and emphasizes the prescience and ongoing importance of Mary Shelley's immortal novel As *Frankenstein* turns 200 its complex engagement with classical traditions is more significant than ever

Where No Man has Gone Before Lucie Armitt, 2012-11-12 How do women writers use science fiction to challenge assumptions about the genre and its representations of women To what extent is the increasing number of women writing science fiction reformulating the expectations of readers and critics What has been the effect of this phenomenon upon the academic establishment and the publishing industry These are just some of the questions addressed by this collection of original essays by women writers readers and critics of the genre But the undoubted existence of a recent surge of women's interest in science fiction is by no means the full story From Mary Shelley onwards women writers have played a central role in the shaping and reshaping of this genre irrespective of its undeniably patriarchal image Through a combination of essays on the work of writers such as Doris Lessing and Ursula Le Guin with others on still neglected writers such as Katherine Burdekin and C L Moore and a wealth of contemporaries including Suzette Elgin Gwyneth Jones Maureen Duffy and Josephine Saxton this anthology takes a step towards redressing the balance Perhaps above all what this collection demonstrates is that science fiction remains as particularly well suited to the exploration of woman as alien or other in our culture today as it was with the publication of *Frankenstein* in 1818

Mary Shelley, *Frankenstein* Berthold

Schoene-Harwood, 2000 This Guide encapsulates the most important critical reactions to a novel that straddles the realms of both high literature and popular culture The selections shed light on *Frankenstein*'s historical and socio-political relevance its innovative representations of science gender and identity as well as its problematic cultural location between academic critique and creative production

Icons of Horror and the Supernatural S. T. Joshi, 2006-12-30 Horror and the supernatural have fascinated people for centuries and many of the most central figures appear over and over again These figures have gained iconic status and continue to hold sway over popular culture and the modern imagination This book offers extended entries on 24 of the most enduring and significant figures of horror and the supernatural including *The Sea Creature* *The Witch* *The Alien* *The Vampire* *The Werewolf* *The Sorcerer* *The Ghost* *The Siren* *The Mummy* *The Devil* and *The Zombie* Each entry is written by a leading authority on the subject and discusses the topic's essential features and lasting influence from the classical epics of Homer to the novels of Stephen King Entries cite sources for further reading and the

Encyclopedia closes with a selected general bibliography Entries include illustrations sidebars of interesting information and excerpts from key texts Horror and the supernatural have fascinated people for centuries with many of the most central figures appearing over and over again across time and cultures These figures have starred in the world s most widely read literary works most popular films and most captivating television series Because of their popularity and influence they have attained iconic status and a special place in the popular imagination This book overviews 24 of the most significant icons of horror and the supernatural
