The Death Edge Jeremy Thomas Fuller,2025-07-08 A bookseller never meant to wield magic An archer who refuses to back down In a world divided between the floating city of Newfris and the untamed Earth below Arra a skilled archer but no mage fights for survival in the Muir Woods While her sister Elanil wields the magic that Arra lacks Arra battles the marauding Remnant the last vestiges of a broken humanity But when fate brings a group of rebels crashing from the sky Arra s life collides with a deeper mystery Among the fallen is Trey a bookseller with a hidden gift for magic and Rylan Phoenix s son now fifteen and a mage himself Together they uncover a deadly plot by the Cothellon dark elves with an apocalyptic device that could destroy the world As Arra grapples with her own insecurities she must join forces with these unlikely allies all while her heart is pulled toward Trey in ways she cannot explain With time running out Arra must prove that magic is not the only strength that matters In a race against the Cothellon the survival of Earth lies not in power but in courage Can Arra rise to the challenge or will the world shatter like the city in the sky *The Mourning Edge of Iron* Everette Bell,2003

Death's Edge S. B. Sebrick,2015-04-23 Everyone in my village is crazy They whisper behind my back about a brother I ve never had How can they all remember a boy who I know never existed Sure my nightmares are a little too vivid The sight of blood terrifies me but lots of people can t stand the stuff There s nothing wrong with me I m totally sane That s what I believed at least Until the night of the earthquake Until I saw that broken corpse lying in the rubble Until I met him

Death and Memory in Early Medieval Britain Howard Williams, 2006-08-31 How were the dead remembered in early medieval Britain? Originally published in 2006 this innovative study demonstrates how perceptions of the past and the dead and hence social identities were constructed through mortuary practices and commemoration between c. 400-1100 AD. Drawing on archaeological evidence from across Britain including archaeological discoveries Howard Williams presents a fresh interpretation of the significance of portable artefacts, the body structures, monuments and landscapes in early medieval mortuary practices. He argues that materials and spaces were used in ritual performances that served as technologies of remembrance practices that created shared social memories intended to link past, present and future. Through the deployment of material culture early medieval societies were therefore selectively remembering and forgetting their ancestors and their history. Throwing light on an important aspect of medieval society this book is essential reading for archaeologists and historians with an interest in the early medieval period.

Mourning Animals Margo DeMello, 2016-08-01 We live more intimately with nonhuman animals than ever before in history. The change in the way we cohabitate with animals can be seen in the way we treat them when they die. There is an almost infinite variety of ways to help us cope with the loss of our nonhuman friends: from burial, cremation, and taxidermy to wearing or displaying the remains, ashes, fur, or other parts of our deceased animals in jewelry, tattoos, or other artwork; to counselors who specialize in helping people mourn pets; to classes for veterinarians; to tips to help the surviving animals who are grieving their animal friends; to pet psychics and memorial websites. But the reality is that these practices and related beliefs about animal souls or animal afterlife generally only extend, with very few exceptions, to certain kinds of animals: pets. Most animals in most cultures are not mourned, and the question of an animal afterlife is not contemplated at all. *Mourning Animals* investigates how we mourn animal deaths, which animals are grievable, and what the implications are for all animals.
