The Disappearance Of Childhood:

The Disappearance of Childhood Neil Postman, 1994-08-02 From the vogue for nubile models to the explosion in the juvenile crime rate this modern classic of social history and media traces the precipitous decline of childhood in America today and the corresponding threat to the notion of adulthood Deftly marshaling a vast array of historical and demographic research Neil Postman author of *Technopoly* suggests that childhood is a relatively recent invention which came into being as the new medium of print imposed divisions between children and adults But now these divisions are eroding under the barrage of television which turns the adult secrets of sex and violence into popular entertainment and pitches both news and advertising at the intellectual level of ten year olds Informative alarming and aphoristic *The Disappearance of Childhood* is a triumph of history and prophecy *The Disappearance of Childhood* Neil Postman, 1984 **The Disappearance of**

Reflections of Change International Research Society for Children's Literature. Congress, International Research Society for Children's Literature, 1997-01-30 Over the past fifty years children's literature has freed itself of many traditional restrictions and become a field of exciting innovations in both form and content The new status of children's literature has been accompanied by an unprecedented growth in research on children's literature internationally This volume explores the many changes that have taken place in the past half century in children's literature showing how those changes reflect our rapidly changing world and attempt to prepare children for the new millennium Among the issues discussed are the shifting boundaries between children's literature and adult literature postmodern trends paradigm shifts national literatures and the reconceptualization of the past *The Medical Diseases of Infancy and Childhood* Alfred Cleveland Cotton, 1906

Lectures on the Diseases of Infancy and Childhood Charles West, 1874 **Grotesque Progeny** Mark Heimermann, 2024-11-20 In contemporary Western society childhood appears more protected than ever to the casual onlooker Yet we are increasingly fascinated by narratives in which children are depicted as unsettling beings both dangerous and endangered sometimes chaotic or even evil In *Grotesque Progeny: The Commodification of Dangerous and Endangered Children* author Mark Heimermann argues that these representations reflect cultural anxiety regarding a shifting conception of youths from emotional assets to economic ones In the early to mid twentieth century children who had previously been viewed in part as economic investments were largely moved out of the work force For decades children were instead valued primarily as emotional assets However the rise of neoliberal capitalism in the 1970s and 1980s and its eventual proliferation throughout our politics and our lives has led to the widespread commodification of social arenas previously kept separate from the capitalist quest for profit Not even children have escaped being objectified and dehumanized in this manner Heimermann examines a variety of texts that center on children and adolescents who are marked as different from the adult characters and consequently viewed as grotesque Chapters cover Jeff Lemire's *Sweet Tooth* M R Carey's *The Girl with All the*

Gifts Katherine Dunn's *Geek Love* Richard Starkings's *Elephantmen* Kazuo Ishiguro's *Never Let Me Go* and more. Because the young characters are not viewed as equal members of society they must either strike back at those who commodify them or risk facing a lifetime of dehumanization. Grotesque Progeny argues that these monstrous depictions reveal societal unease over shortsighted economic and political thinking, the exploitation of children and the changing nature of childhood. The book addresses a growing concern over which spaces ought to be excluded or removed from the harsh valuations of neoliberalism.
