Art of Mentoring, The Darlene Zschech, 2011-08 Insights and inspiration to bridge gaps with and guide the mentoring of the next generation of leaders from an internationally acclaimed worship leader

Mentoring the Future Osbourne Murray, 2018-09-27 Human beings are interdependent The journey from the womb to the tomb is threefold as it is one of dependence independence and interdependence Travelling this path which is a complex interwoven tapestry requires the skillful navigation of a tour guide from beginning to end The wise seek the advice of those who have gone before them and successfully negotiated the contours of the path any attempt to travel without the aid and counsel of those who are more experienced and knowledgeable is neither prudent nor pragmatic Compared to humans the lower animals require less nurturing before they are weaned and become independent Humans conversely take a relatively long time to reach physical and mental maturity Indeed it is interesting that some animals can protect and fend for themselves in a matter of days after their birth while the development of similar abilities in human beings requires years For humans this is primarily a time of dependence and interdependence During this phase the human mind is trained to think communicate and respond to instructions It is also during this period that we learn to understand the importance of relationships and the need to be interdependent We recognize that no one individual has all the answers and that when we cooperate increased productivity results thereby enabling us to achieve more The socialization process is the genesis of mentoring as it is during the early and formative years that we learn not only to follow instructions but also to emulate the examples of senior family members Notice that the first few years of the human's life are thought of as formative as this is the most impressionable period During this time mentoring is critical because the individual is in search of his or her identity while contending with the rapid changes occurring internally as well as in the outside world The aid of a wise and understanding counselor can be of significant help during childhood and throughout adolescence and parents usually play this role However research has shown that the presence of other influential adults during this period can be very useful In later years the role of mentors may change but the need for relationships and connections remain critical to the success of any future partnership be it related to business politics family or any other sociocultural endeavors Mentoring is largely about building relationships and connections with the right people and places Some of the most successful businessmen have

benefited tremendously from being mentored Richard Branson for instance stated If you ask any successful business person they will always say that they have had a great mentor at some point along the road Additionally three of the world s wealthiest men Warren Buffett Bill Gates and Mark Zuckerberg have all been mentored Mentorship is a powerful tool for building interpersonal skills However the wisdom and benefits of employing it as a strategy for perpetuating a culture of excellence and preserving the integrity and heritage of any group organization or entity are yet to be envisioned by many including leaders at every level and in every sphere of society This book is about how you can shape your future and leave a legacy It is important to recognize that the greatest investment you can make in this life is not in material possessions rather it is the investment of your time talent and experience in another human being Your future will live on in what you pour into others and in so doing you will not only shape it for the better but will also contribute to making the world a better place

Mentoring at Minority Serving Institutions (MSIs) Jeton McClinton,David S. B. Mitchell,Mark A. Melton,Gerunda B. Hughes,Tyrell Carr,2018-05-01 The primary thrust of the proposed volume is to provide information for higher education minority serving institutions MSIs and other institutions and individuals interested in providing and or improving mentoring programs and services to a variety of target groups The editors are interested in how mentorship can produce beneficial outcomes for the mentor that may be similar to or different from outcomes in other educational contexts Thus the purpose of this volume is to showcase through case studies and other forms of empirical research how successful mentoring programs and relationships at MSIs have been designed and implemented Additionally we will examine the various definitions and slight variations of the meaning of the construct of mentoring within the MSI context It is our intent to share aspects of mentoring programs and relationships as well as their outcomes that have heretofore been underrepresented and underreported in the research literature

Educating for Humanity Mike Seymour, Henry M. Levin, 2015-11-17 At a time of profound crises around the world when social justice peace democracy and the environment seem under increasing threat the promise of a world for all seems a viable aspiration for education Ample evidence from many schools today and dating back throughout the last century prove that the purpose of educating young people to develop character compassion purpose and commitment is integral with the mastery of intellectual skills and life competencies Schooling without a doubt can play a monumental part in the development of the personal values people take with them to the world Unfortunately as the saying goes if you don't know where you're going you'll probably get someplace else Educational policy directions over the last twenty years have veered far away from the important work of educating for humanity This book makes a powerful appeal to revisit educational purpose in light of what is most fundamental and important to human beings everywhere The authors address timely issues such as high stakes testing school choice and privatization of education in looking beyond these measures to new approaches to educational excellence The Healing Wisdom of Africa Malidoma Patrice Some, 1999-09-13 A revealing exploration of traditional healing practices by a renowned shaman and scholar Bridging ancestral wisdom from West Africa with the challenges of modern life in the West this acclaimed book offers a wealth of insights into indigenous knowledge and how it speaks to the chronic problems of our fast paced disconnected world Drawing on his lived experience within the Dagbara culture as well as his extensive studies and teachings Malidoma Som's observations on healing community and ritual present powerful ways to become more connected to the natural world to the intergenerational village that can mentor and support every person and ultimately to the truest unmasked parts of ourselves Profoundly wise and fascinating Malidoma Patrice Som has delivered an incomparably meaningful gift to us wanderers and seekers in the West Alice Walker An amazing bridge over the chasm of modern isolation Malidoma reawakens the rituals of the heart This is profound brilliant and accessible medicine for us Jack Kornfield
