The Genocides:

After the Genocides Henry David Abraham, 2024-10-30 This book is a memoir spanning the lives of the author's Jewish and Armenian families from 1895 to 1985 when the organization he helped create was awarded the Nobel Peace Prize. It is a personal sweeping account that speaks to the themes of genocide, violence, race, education, religion, the Cold War, and his work with American and Russian leaders to prevent a nuclear war.

The Genocides Thomas M. Disch, 2000-11-14 This spectacular novel established Thomas M. Disch as a major new force in science fiction. First published in 1965, it was immediately labeled a masterpiece reminiscent of the works of J. G. Ballard and H. G. Wells. In this harrowing novel, the world's cities have been reduced to cinder and ash, and alien plants have overtaken the earth. The plants, able to grow the size of maples in only a month and eventually reach six hundred feet, have commandeered the world's soil and are sucking even the Great Lakes dry. In northern Minnesota, Anderson, an aging farmer armed with a Bible in one hand and a gun in the other, desperately leads the reduced citizenry of a small town in a daily struggle for meager existence. Throw into this fray Jeremiah Orville, a marauding outsider bent on a bizarre and private revenge, and the fight to live becomes a daunting task.

Nigeria, Biafra, and Boko Haram: Ending the Genocides Through Multistate Solution Osita Ebiem, 2014-03-17 Since the unification of Southern and Northern Nigeria in 1914, the country has been rife with violence, poverty, inequity, and corruption. For decades, it has barely functioned, and even now Nigerians face adversity in the absence of a pragmatic solution. In his book *Nigeria, Biafra, and Boko Haram: Ending the Genocides Through Multistate Solution*, author Osita Ebiem fashions a compelling argument for finally partitioning Nigeria into distinct countries. Through the use of the multi-state solution and the principle of Self-Determination, the widely diverse Nigerian ethnic identifications (Igbo, Yoruba, Hausa, Fulani) would be unimpeded in practicing their religious, cultural, and social differences and help initiate and accelerate growth, prosperity, and impunity, and entrench sanity, law, and order in the various emerging new countries. With detailed precision, Ebiem explores the annals of Nigerian history and explains in clear terms the evolution of a country forced together by European commercial interests. The portrait of an utterly disastrous One Nigeria is often haunting and unbelievable, and though the country and its people have endured trauma beyond comprehension, Ebiem offers practical solutions which can reroute Nigeria's path and ultimately begin the long process of healing.

Controversies in the Field of Genocide Studies Samuel Totten, Henry Theriault, Elisa von Joeden-Forgey, 2017-09-29 At the heart of the field of Genocide Studies lies an active core of vigorous debate that has led to both heated disagreements and productive disputes. This new volume in the *Genocide: A Critical Bibliographic Review* series focuses on these as well as other significant issues. Chapters in this volume focus on a number of issues: Did Peru's Acha suffer genocide? What was the role of media propaganda in the Rwandan Genocide, and what more, if anything, could have been done about it? Have Rwanda's post-genocide gacaca courts successfully promoted reconciliation? How has denial affected governmental recognition around the world of the Armenian, Hellenic, and Assyrian genocides? Why have some left-wing

progressives engaged in denial of the Rwandan Genocide Has anti genocide activism had a meaningful effect in prevention of or intervention against genocide In the pages of this book readers can explore the various debates that have defined the study of genocide and that are redefining it today This insightful and provocative volume will entice further discussion on the concept of genocide and will be a must read for the field of genocide studies *The Genocide-Ecocide Nexus* Damien Short,Martin Crook,2022-02-09 In a world gripped by an ever worsening ecological crisis there are present and increasing genocidal pressures on many culturally distinct social groups such as indigenous peoples This is where the genocide ecocide nexus presents itself The destruction of ecosystems ecocide can be a method of genocide if for example environmental destruction results in conditions of life that fundamentally threaten a social group s cultural and or physical existence Given the looming threat of runaway climate change the attendant rapid extinction of species destruction of habitats ecological collapse and the self evident dependency of the human race on our bio sphere ecocide both natural and manmade will become a primary driver of genocide Through nine chapters of cutting edge research this book examines specific case studies in geographical settings such as Iraq Sudan Nigeria and Brazil to highlight and analyse the crucial connections and vectors of the genocide ecocide nexus This book will be of great value to scholars students and researchers interested in the ecological crisis Environmental Justice the political economy of genocide and ecocide as well as environmental human rights The chapters in this book were originally published as a special issue of The Journal of Genocide Research **A Cultural History of Genocide in the Long Nineteenth Century** David Meola,2023-05-04 The long 19th century approximately 1750 to 1918 was one of significant existential change for peoples across the globe The beginning of this period saw the expansion of empires and shortly thereafter the Euro American Enlightenment brought about calls for revolutions and the rights of man The events and ideas made way for empire and the creation of the nation state European states primarily concentrated their aggressive colonization in the Global South bringing mostly white metropolitans and settlers into intimate contact with diverse African Asian and American populations The inherent violence of imperialism eventually ushered in flashpoints of conflict as well as indentured servitude racial segregation ecological destruction and genocide throughout Europe s overseas empires While communal destruction functioned as a central element of 19th century genocides colonial governments also used other methods to destroy indigenous life such as forced assimilation language adoption religious instruction and economic subjugation Memories of these atrocities have since contributed both to systemic violence in subsequent decades and to education about these events in the hope of genocide prevention Yet for all of the violence a spirit of humanitarianism developed alongside these vile actions that tried to reverse the policies of states and help the aggrieved *God, Greed, and Genocide* Arthur Grenke,2005 What are the similarities between the mass extermination of idolaters in the Old Testament the burning of witches in the Middle Ages the extermination of native Americans the mass killing of the Armenians at the hand of the Turks the Holo caust of the European Jews and the communist eradication of the enemies of the people both in the Soviet

Contagion Israel W. Charny, 2016-07-15 In *The Genocide Contagion* Israel W Charny asks uncomfortable questions about what allows people to participate in genocide either directly through killing or other violent acts or indirectly by sitting passively while witnessing genocidal acts Charny draws on both historical and current examples such as the Holocaust and the Armenian Genocide and presses readers around the world to consider how they might contribute to genocide Given the number of people who die from genocide or suffer indirect consequences such as forced migration Charny argues that we must all work to resist and to learn about ourselves before critical moments arise Civilian-Driven Violence and the Genocide of Indigenous Peoples in Settler Societies Mohamed Adhikari, 2021-07-12 Existing studies of settler colonial genocides explicitly consider the roles of metropolitan and colonial states and their military forces in the perpetration of exterminatory violence in settler colonial situations yet rarely pay specific attention to the dynamics around civilian driven mass violence against indigenous peoples In many cases however civilians were major if not the main perpetrators of such violence The focus of this book is thus on the role of civilians as perpetrators of exterminatory violence and on those elements within settler colonial situations that promoted mass violence on their part *The genocide perpetrated against the Tutsis of Rwanda explained to its children* Jean-Marie Vianney Rurangwa, 2025-07-21 In a dialogical clear pedagogical style and a resolutely scientific documented and reasoned approach the author through his spokesman Professor Jean de Dieu Namahire explains the unheard of crime that bereaved Rwanda in 1994 by answering questions about its genesis its execution and its memory A beautiful work that easily instructs any reader and is a high quality didactic tool for parents and teachers Koulsy Lamko postfacer
