Anthony Low

The Georgic Revolution:

The Georgic Revolution Anthony Low, 2014-07-14 Low discusses the courtly or aristocratic ideal as the great enemy of the georgic spirit and shows that georgic powerfully invaded English poetry in the years from 1590 to 1700 Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 God Speed the Plough Andrew McRae, 2002-09-12 An interdisciplinary analysis of the history and literature of the land in early modern England The Georgic Mode in Twentieth-Century American Literature Ethan Mannon, 2024-02-02 The Georgic Mode in Twentieth Century American Literature The Satisfactions of Soil and Sweat explores environmental writing that foregrounds labor Ethan Mannon argues that Virgil's Georgics as well as the georgic mode in general exerted considerable influence upon some of America's best known writers including Robert Frost Willa Cather and Wendell Berry and that these and others worked to revise the mode to better fit their own contexts This book also outlines the contemporary value of the georgic literary tradition two thousand years of writing that begins with the premise that humans must use the world in order to survive and search for a balance between human needs and nature's productive capacity In the georgic mode authors found an adaptable discourse that enabled them to advocate for the protection and responsible use of productive lands present rural places and people in all of their complexity explore human relationships with laboring animals and advertise the sensory pleasures of rooted work The Georgic Revolution Anthony Low, 1985-01-01 A New Handbook of Literary Terms David Mikics, 2008-10-01 A New Handbook of Literary Terms offers a lively informative guide to words and concepts that every student of literature needs to know Mikics's definitions are essayistic witty learned and always a pleasure to read They sketch the derivation and history of each term including especially lucid explanations of verse forms and providing a firm sense of literary periods and movements from classicism to postmodernism The Handbook also supplies a helpful map to the intricate and at times confusing terrain of literary theory at the beginning of the twenty first century the author has designated a series of terms from New Criticism to queer theory that serves as a concise but thorough introduction to recent developments in literary study Mikics's Handbook is ideal for classroom use at all levels from freshman to graduate Instructors can assign individual entries many of which are well shaped essays in their own right Useful bibliographical suggestions are given at the end of most entries The Handbook's enjoyable style and thoughtful perspective will encourage students to browse and learn more Every reader of literature will want to own this compact delightfully written guide **Romantic Revolutions** Kenneth R. Johnston, 1990 **Making Democracy in the French Revolution** James Livesey, 2001 This book reasserts the importance of the French Revolution to

an understanding of the nature of modern European politics and social life Livesey argues that the European model of democracy was created in the Revolution a model with very specific commitments that differentiate it from Anglo American liberal democracy *The Matter of Revolution* John Rogers,2018-09-05 John Rogers here addresses the literary and ideological consequences of the remarkable if improbable alliance between science and politics in seventeenth century England He looks at the cultural intersection between the English and Scientific Revolutions concentrating on a body of work created in a brief but potent burst of intellectual activity during the period of the Civil Wars the Interregnum and the earliest years of the Stuart Restoration Rogers traces the broad implications of a seemingly outlandish cultural phenomenon the intellectual imperative to forge an ontological connection between physical motion and political action *Everyday Revolutions* Diane E. Boyd,Marta Kvannd,2008 Women s everyday choices can engender revolutionary acts This collection gathers essays that build upon this premise and examines the ways in which eighteenth century women defied not only the restrictions their own culture sought to enforce but also the restrictions our historical and literary understandings have created **Technologies of Empire** Dermot Ryan,2012-12-21 Technologies of Empire looks at the ways in which writers of the long eighteenth century treat writing and imagination as technologies that can produce rather than merely portray empire Authors ranging from Adam Smith to William Wordsworth consider writing not as part of a larger logic of orientalism that represents non European subjects and spaces in fixed ways but as a dynamic technology that organizes these subjects and transforms these spaces Technologies of Empire reads the imagination as an instrument that works in tandem with writing expanding and consolidating the networks of empire Through readings across a variety of genres ranging from Smith s *The Wealth of Nations* and Edmund Burke s *Reflections on the Revolution in France* to Maria Edgeworth s Irish fiction and Wordsworth s epic poetry this study offers a new account of writing s role in empire building and uncovers a genealogy of the romantic imagination that is shot through by the imperatives of imperialism Published by University of Delaware Press Distributed worldwide by Rutgers University Press

Delve into the emotional tapestry woven by in Experience **The Georgic Revolution** . This ebook, available for download in a PDF format (*), is more than just words on a page; itis a journey of connection and profound emotion.
