The Civilianization of War Andrew Barros,Martin Thomas,2018-08-09 Distinguishing between civilians and combatants is a central aspect of modern conflicts Yet such distinctions are rarely upheld in practice The Civilianization of War offers new ways of understanding civilians exposure to violence in war Each chapter explores a particular approach to the political legal or cultural distinctions between civilians and combatants during twentieth century and contemporary conflicts The volume as a whole suggests that the distinction between combatants and non combatants is dynamic and oft times unpredictable rather than fixed and reciprocally understood Contributors offer new insights into why civilian targeting has become a strategy for some and how in practice its avoidance can be so difficult to achieve Several discuss distinct population groups that have been particularly exposed to wartime violence including urban populations facing aerial bombing child soldiers captives and victims of sexual violence The book thus offers multiple perspectives on the civil military divide within modern conflicts an issue whose powerful contemporary resonance is all too apparent **The Fifth Column in World War II** Robert Loeffel,2015-07-21 Alarming levels of fear and suspicion developed in Australia following the German victories in Europe of 1940 It was believed the Nazis had prepared an army of subversives a Fifth Column to undermine the war effort These suspicions plagued the Australian home front for much of the war **The 'Red Terror' and the Spanish Civil War** Julius Ruiz,2014-04-30 This study challenges the common view that extrajudicial executions in Republican Spain in July 1936 were the work of criminal or anarchist uncontrollables
