## **The Global City:**

The Global City Saskia Sassen, 2025-09-09 In her classic book *The Global City* Saskia Sassen tells how New York London and Tokyo became command centers of the emerging global economy and in the process underwent massive and parallel changes The book reorients the way we think about how cities shape and are shaped by globalization and provides lessons for the future

*Everyday Lives in the Global City* Jörg Dürrschmidt, 2013-04-15 Rejecting simplifying notions of globalisation as a macro economic force this book provides a grounded picture of the various ways in which people's biographies are tied up with the global cultural economy The main argument of the book is that the globalisation of lives is experienced by people as the extension of their milieu both spatially and symbolically

**The Global City** Theodore Hermann Von Laue, 1969

The Global City 2.0 Kristin Ljungkvist, 2015-08-27 Global cities all over the world are taking on new roles as they increasingly participate directly and independently in international affairs and global politics So far surprisingly few studies have analyzed the role of the Global City beyond its already well explicated role in the globalized economy How is it that local governments of Global Cities claim international political authority and develop what appears to be their own independent foreign and security policies despite the fact that such policy areas have traditionally been considered to be the core function of nation states and central governments What does it mean to be and to govern the contemporary Global City In this book Kristin Ljungkvist claims that we can better understand why local governments find it to be in their Global City's interest to claim international political authority by exploring how the city's role in the globalized world is constructed and narrated locally A core claim is that Global City hood as a specific type of collective identity can play a constitutive part in such interest formation Combining insights from International Relations and Urban Studies scholarship and with the help of a case study on New York City Ljungkvist develops a new analytical framework for studying the Global City as an international political actor The Global City 2.0 shows that even as the Global City engages in various global issues such as global environmental governance or counterterrorism such pursuit will be framed and rationalized in terms of the city's economic growth The quest for growth and global competitiveness are not necessarily the only available meanings attached to the being and governing of the contemporary Global City However there seems to be a remarkable persistency and attraction in economic ideas and an economic conception of the Global City

**The Global Cities Reader** Neil Brenner, Roger Keil, 2006 This book contains fifty selections from classic writings by authors such as John Friedmann Michael Peter Smith Saskia Sassen Peter Taylor Manuel Castells and Anthony King as well as major contributions by other international scholars of global city formation

**The Global City and the Holy City** Tovi Fenster, 2016-09-17 The Global City the Holy City explores the local embodied knowledge of women and men of different national cultural and ethnic identities and age groups living in London and Jerusalem Their narratives focus on the three main concepts of Comfort Belonging and Commitment to the various spaces in which they live By deconstructing the meanings of these three notions

and analyzing their expression in cognitive temporal maps The Global City The Holy City examines the practicalities of incorporating this kind of local embodied knowledge into the professional planning and management of cities in the age of globalization

**Democracy, Citizenship and the Global City** Engin F. Isin, 2013-04-15 Democracy Citizenship and the Global City focuses on the controversial neglected theme of citizenship It examines the changing role of citizens their rights obligations and responsibilities as members of nation states and the issue of accountability in a global society Using this interdisciplinary approach the book offers an innovative collection of work from Robert A Beauregard Anna Bounds Janine Brodie Richard Dagger Gerard Delanty Judith A Garber Robert J Holton Warren Magnusson Raymond Rocco Nikolas Rose Evelyn S Ruppert Saskia Sassen Bryan S Turner John Urry Gerda R Wekerle and Nira Yuval Davis

**Urban World/global City** David Clark, 2003 The millennium marked a symbolic transition in the history of human settlement Over half of the world's six billion people now live in towns and cities The world is an urban place This book identifies and accounts for the characteristics of the contemporary city and of urban society It analyses the distribution and growth of settlements and explores the social and behavioural characteristics of urban living The latest theoretical and empirical developments and insights are synthesized and presented in an accessible way Emphasis throughout is placed upon the world scale urban developments being seen as the geographical consequences of the evolution of capitalism Individual chapters focus upon populations and places growth and urbanization urban development as a global phenomenon socio economic consequences of global urban development urban culture and global urban society world cities and the urban future This second edition has been extensively updated and referenced Each chapter includes sets of learning objectives annotated readings and topics for discussion

**The Global City** Saskia Sassen, 2025-09-09 In her classic book The Global City Saskia Sassen tells how New York London and Tokyo became command centers of the emerging global economy and in the process underwent massive and parallel changes The book reorients the way we think about how cities shape and are shaped by globalization and provides lessons for the future

Global City Challenges M. Acuto, W. Steele, 2013-10-31 The contributors illustrate what twin analytical and practical challenges emerge from juxtaposing cultural economic historical postcolonial virtual architectural literary security and political stances to the concept of the global city

**Sustainability in the Global City** Cindy Isenhour, Gary McDonogh, Melissa Checker, 2015-03-05 Cities play a pivotal but paradoxical role in the future of our planet As world leaders and citizens grapple with the consequences of growth pollution climate change and waste urban sustainability has become a ubiquitous catchphrase and a beacon of hope Yet we know little about how the concept is implemented in daily life particularly with regard to questions of social justice and equity This volume provides a unique and vital contribution to ongoing conversations about urban sustainability by looking beyond the promises propaganda and policies associated with the concept in order to explore both its mythic meanings and the practical implications in a variety of everyday contexts The authors present ethnographic studies from cities in eleven countries and six continents Each chapter

highlights the universalized assumptions underlying interpretations of sustainability while elucidating the diverse and contradictory ways in which people understand incorporate advocate for and reject sustainability in the course of their daily lives

**Global City 2.0** Kristin Ljungkvist, 2014-11-25 The aim of this thesis is to increase our understanding of the Global City's pursuit of what can be regarded as independent foreign and security policies despite the fact that such policies have traditionally been considered to be a core function of central governments By studying how the Global City's role in the globalized world is constructed in local public narratives as the local government develops and pursues specific international policies the thesis argues we can come closer to an understanding of what it means to be and to govern a Global City and why its local government finds it to be in the city's interest to claim international political authority A core claim is that Global City hood as a specific type of collective identity can play a constitutive part in such interest formation The study seeks to make three contributions one of empirical nature and two of theoretical nature The empirical contribution involves furthering our understanding of New York City's local role conception as a Global City This is also closely related to the first theoretical contribution whereby the case study of New York City as a most important case serves to develop our general understanding of what meanings are attached to contemporary Global City hood from a local perspective The second theoretical contribution involves outlining a new way of studying the Global City as international political actor by developing an interdisciplinary analytical framework combining insights from the Global Cities literature studies on Urban Politics and International Relations respectively The analysis shows that even as the Global City engages in issues such as global environmental governance or counterterrorism such pursuit will be framed and rationalized in terms of the city's economic growth The quest for growth and global competitiveness are not necessarily the only available meanings attached to the being and governing of the contemporary Global City However there seems to be a remarkable persistency and attraction in economic ideas and an economic conception of the Global City

**How to Build a Global City** Michele

Acuto, 2022-01-15 In *How to Build a Global City* Michele Acuto considers the rise of a new generation of so called global cities Singapore Sydney and Dubai and the power that this concept had in their ascent in order to analyze the general relationship between global city theory and its urban public policy practice The global city is often invoked in theory and practice as an ideal model of development and a logic of internationalization for cities the world over But the global city also creates deep social polarization and challenges how much local planning can achieve in a world economy Presenting a unique elite ethnography in Singapore Sydney and Dubai Acuto discusses the global urban discourses aspirations and strategies vital to the planning and management of such metropolitan growth The global city he shows is not one single idea but a complex of ways to imagine a place to be global and aspirations to make it so often deeply steeped in politics His resulting book is a call to reconcile proponents and critics of the global city toward a more explicit engagement with the politics of this global urban imagination

Cities of the World Stanley D. Brunn, Donald J. Zeigler, Maureen Hays-Mitchell, Jessica K. Graybill, 2020-03-03

Remarkably more than half of the world's population now lives in cities and the numbers grow daily as people abandon rural areas. This fully updated and revised seventh edition of the classic text offers readers a comprehensive set of tools for understanding world regional geography as seen through the urban landscape and by extension the world's politics, cultures, and economies. Providing a sweeping overview of world urban geography, noted experts explore the major global regions. Each regional chapter considers urban history, economy, culture, and environment as well as special problems and future prospects. A regional map that shows the major cities, a summary of basic statistical information about the cities and urbanization in each region, and a list of ten salient points about that region's urban experience frame each region. Chapters conclude with a list of references including films and webpages which can be used by the student and instructor for additional information about specific cities. This edition adds the important new themes of climate change and migration while continuing to focus specifically on sustainability, water technology, social and environmental justice, security, and conflict. The history of urban settlement, urban planning trends, and daily life. Vignettes of key cities give the reader a vivid understanding of daily life and the spirit of place. The opening chapter presents an overview of key terms and concepts and explores contemporary world urbanization, and a concluding chapter projects the world's urban future. Generously illustrated in full color with a new selection of photographs, maps, and diagrams, the text also includes a rich array of textboxes to highlight key topics ranging from migration and immigration to LGBTQ activism, human security, and climate change. Clearly written and timely, *Cities of the World* will be invaluable for those teaching introductory or advanced classes on global cities, regional geography, the developing world, and global urban studies.

**Ends of the Global City** Rashmi Varma, Jini Kim Watson, 2025-04-23 This volume of essays explores how the global city is confronting new forms of crises and disruption. Examining cities in the Caribbean, North America, Africa, the Persian Gulf, Asia, and Australia, the essays use literary and cultural analysis to examine the pasts, present, and futures of the global city. Ranging from the period of high postcolonial development, industrialization, and compacted modernization to present-day neoliberal urban planning, the collection considers arrivals and departures in the global city, offering new critical vocabularies to analyse ongoing processes of migration, economic immiseration, and environmental collapse.

*Writing the Global City* Anthony D. King, 2016-04-14 Over the last three decades, our understanding of the city worldwide has been revolutionized by three innovative theoretical concepts: globalisation, postcolonialism, and a radically contested notion of modernity. The idea, and even the reality, of the city has been extended out of the state and nation and repositioned in the larger global world. In this book, Anthony King brings together key essays written over this period, much of it dominated by debates about the world or global city. Challenging assumptions and silences behind these debates, King provides largely ignored historical and cultural dimensions to the understanding of world city formation, as well as decline. Interdisciplinary and comparative, the essays address new ways of framing contemporary themes: the imperial and colonial origin of contemporary world and global cities, actually existing

postcolonialisms claims about urban and cultural homogenisation and the role of architecture and built environment in that process Also addressed are arguments about indigenous and exogenous perspectives Eurocentricism ways of framing vernacular architecture and the global historical sociology of building types Wide ranging and accessible Writing the Global City provides essential historical contexts and theoretical frameworks for understanding contemporary urban and architectural debates Extensive bibliographies will make it essential for teaching reference and research **The**

**Imperatives of Urban and Regional Planning** Anis Ur Rahmaan,2011 This book is comprised of articles and papers that have come about after years of academic and applied research endeavors of the practitioners and academicians in the field of urban and regional development planning Most of these articles have already been presented and deliberated in national and international conferences held in different parts of the world namely Indianapolis Newcastle upon Tyne Rome Istanbul Cairo Alexandria Vienna Stockholm Jeddah Riyadh Jubail Islamabad Penang and Bandung The concepts and case studies described in this book bring home the fact that the world is undergoing a gyrational transition Not only are developed and developing countries getting influenced by each other and transforming due to a process of circular causation but each of the two sets of countries are also undergoing a simultaneous internal transformation due to the differential infusion of technology and indigenous entrepreneurship As a consequence highly diversified urban systems are getting integrated interactively leading to the formation of a global village and achievement of a unity in diversity Cities of Others Xiaojing Zhou,2014-12-01

Asian American literature abounds with complex depictions of American cities as spaces that reinforce racial segregation and prevent interactions across boundaries of race culture class and gender However in Cities of Others Xiaojing Zhou uncovers a much different narrative providing the most comprehensive examination to date of how Asian American writers both celebrated and overlooked depict urban settings Zhou goes beyond examining popular portrayals of Chinatowns by paying equal attention to life in other parts of the city Her innovative and wide ranging approach sheds new light on the works of Chinese Filipino Indian Japanese Korean and Vietnamese American writers who bear witness to a variety of urban experiences and reimagine the American city as other than a segregated nation space Drawing on critical theories on space from urban geography ecocriticism and postcolonial studies Zhou shows how spatial organization shapes identity in the works of Sui Sin Far Bienvenido Santos Meena Alexander Frank Chin Chang rae Lee Karen Tei Yamashita and others She also shows how the everyday practices of Asian American communities challenge racial segregation reshape urban spaces and redefine the identity of the American city From a reimagining of the nineteenth century flaneur figure in an Asian American context to providing a framework that allows readers to see ethnic enclaves and American cities as mutually constitutive and transformative Zhou gives us a provocative new way to understand some of the most important works of Asian American literature Handbook of Cities and Networks Neal, Zachary P.,Rozenblat, Céline,2021-07-31 This Handbook of Cities and Networks provides a cutting edge overview of research on how economic social and transportation

networks affect processes both in and between cities Exploring the ways in which cities connect and intertwine it offers a varied set of collaborations highlighting different theoretical historical and methodological perspectives *Study On Globalizing Cities, A: Theoretical Frameworks And China's Modes* Zhenhua Zhou, 2014-01-24 A Study on Globalizing Cities is the latest masterpiece by Zhou Zhenhua a famous Chinese economist who closely tracks the theoretical study of global cities and is actively engaged in the strategic research of Shanghai's development With rich empirical data and an in depth analysis this book is of great theoretical and practical significance Different from studies on global cities by renowned western scholars this book extends its perspective to globalizing cities It explores a unique development model for China's globalizing cities by adopting a creative angle of observation and analytical methods By criticizing that the traditional global city theory derives the logic relations of global cities directly from globalization Mr Zhou puts forward the concept of globalization city which is introduced as a new intermediate explanatory variable More importantly this book emphasizes that the building of global cities is not only dependent on the distribution of urban space and urban economic development but also on comprehensive construction of multiple structures and functions of cities
