The God Who Is Beauty Brendon Thomas Sammon, 2014-09-25 In the beginning was beauty and beauty was with God and beauty was God If the tradition of divine names that in its Christian form originates with Dionysius the Areopagite and includes among its ranks Albert the Great Thomas Aquinas and others is correct in identifying God with the name beauty then repurposing the Prologue to John s Gospel in this way seems hardly controversial For if beauty is a divine name then not only is it fitting to say God is beautiful but it is equally fitting to say that God is beauty itself However like most arguments from fittingness that is to say arguments whose veracity derives from the congruency proportion or harmony between the various elements of a proposition or idea rather than from some categorically higher or univocally determinate logical necessity the simplicity of its utterance stands in stark contrast to the complexity of its intelligible content It is the aim of the present work is to explore what it means to say that beauty is a divine name Perspectives on the Philosophy of William P. Alston Heather D. Battaly, Michael P.

Lynch, 2005-04-06 One of the most influential analytic philosophers of the late twentieth century William P Alston is a leading light in epistemology philosophy of religion and the philosophy of language In this volume twelve leading philosophers critically discuss the central topics of his work in these areas including perception epistemic circularity justification the problem of religious diversity and truth Together with Alston s vigorous responses these articles make significant new contributions to the literature and will be of interest to a wide range of philosophers and students In addition the volume contains a comprehensive introduction and overview of Alston s work and a complete bibliography of his publications

BACCHIUS IUDAEUS James M. Scott, 2015-08-19 James M Scott examines a denarius minted in Rome in 55 bce which is visually fascinating but conceptually enigmatic On its obverse around the head of a female figure with turreted crown appears the name A Plautius who held the office of aedilis curulis in that year on its reverse is a camel in front of which a

male figure kneels on his right leg holding the camel's reins in his left hand and extending a branch in his right hand the legend reads BACCHIVS IVDAEVS Scott's study argues that the oft suggested connection between Aristobulus' gift of the golden vine from the Temple and the Bacchius Iudaeus denarius does seem to merit further investigation To that end he examines first Pompey's own agenda in having the coin minted It is shown that the year the denarius appeared 55 bce was the same year in which Pompey dedicated his spectacular theater temple in Rome and furthermore that these very public displays are related as expressions of Pompey's Dionysian pretensions Second Scott examines each element of the denarius in question looking for clues as to the meaning of Bacchius Iudaeus It is shown that the Latin inscription refers first and foremost to the god Bacchus Dionysus via an interpretatio Romana Finally he explores the possible implications of his investigation for the precise date of the fall of Jerusalem in 63 bce Scott's study delves deeply into Judaism at the beginning of the Roman era using the Roman coin to highlight the complex interface between Greco-Roman and Jewish religious-cultural institutions of the period

Standard, 1928 *The Standard*, 1928 Platonic Questions Diskin Clay, 2010-11-01 The dialogue has disappeared as a mode of writing philosophy and philosophers who study Plato today often ignore the form in which Plato's work appears in favor of reconstructing and analyzing arguments thought to be conveyed by the content of the dialogues A distinguished classicist here offers an approach to understanding Plato that tries to do full justice to the form of Platonic philosophy appreciated against the background of Greek literature and history while also giving proper due to the important philosophic content of the dialogues The book deals in turn with Plato's relation to and portraits of Socrates the literary and philosophical character of the dialogues including the problems of interpreting a philosopher who never speaks in his own name and the modes of argumentation employed in the dialogues as well as some of their major themes

On the Gods and the World Vojtěch Hladký, 2024-05-01 The Derveni papyrus is a multi-layered and intricate philosophical and religious treatise written in Greek probably just before 400 BCE Since its discovery in 1962 the papyrus has attracted the attention of scholars in several areas of Classical studies mostly ancient philosophy and religion but also literary studies The anonymous author of the text quotes a previously unknown Orphic poem and comments on it using philosophical motifs and concepts borrowed from various Presocratic thinkers but especially Heraclitus and the Anaxagoreans The book presents a new interpretation of various aspects of this complex text situating the treatise within the tradition of allegorical interpretation providing an interpretation of the opening columns which describe a peculiar ritual and contain some Heraclitean material including as the study argues some previously unknown fragments reconstructing the contents of the Orphic poem upon which the Derveni author comments examining various allegorical devices employed by the Derveni author in his explanation of the Orphic poem following his commentary in detail and finally discussing the likely intellectual background in which the Derveni treatise originated In general the study argues that rather than being the work of a philosophising Orphic initiate the Derveni treatise is a philosophical text whose aim was to explain a nonstandard religious

poem The commentary explains the Orphic poem from a perspective influenced by discussions among the followers of philosophy of Anaxagoras and Heraclitus and employs reflections on the use and function of language found in the writings of some contemporary thinkers Based on an analysis of sources upon which the Derveni papyrus is based it is concluded that its author was probably active in Athens in late fifth century BCE and may have been a person close to Socrates teacher Archelaus
