The God Within:

The God Within Emil Fackenheim, 1996-12-15 For nineteenth century thinkers the central problem of religious consciousness in the modern West was the tension between prevailing concepts of individual autonomy and the traditional Judaeo Christian claim for divine revelation The God Within brings together ten of Professor Emil Fackenheim's essays on the German Idealists who struggled to resolve this tension This philosophic preoccupation found its most searching and comprehensive expression when the traditional notion of God as Transcendent was reconceptualized as the God within The internalization of God's otherness reached its climax with Hegel the subject of Fackenheim's earlier work The Religious Dimension in Hegel's Thought This long awaited companion to that volume examines the earlier stages of the process beginning with its initiator Kant then considering Schelling in both his earlier and later phases and finally looking once more at Hegel The investigation of this movement together with the related themes of history and the literary arts leads to reflection on the significance of taking historicity seriously Included is the classic much cited article Metaphysics and Historicity which connects the philosophy of German Idealists to twentieth century questions of historicity and existential thought in particular The previously unpublished essay Schelling in 1800 1801 Art as Revelation provides an overview of philosophical history from Kant through Fichte and Schleiermacher to the later Schelling All the essays gathered here are concerned with the radical singularity of history and existence on the one hand and the demands of philosophical truth on the other They are informed by Professor Fackenheim's engagement with the profound philosophical challenges of our day particularly his efforts as a Jewish theologian to confront the horrors of the Holocaust We see through Fackenheim's exposition how these thinkers sought to come to terms with the presence of radical evil a problem whose modern relevance is explored in this volume's epilogue the 1988 essay Holocaust and Weltanschauung Philosophical Reflections on Why They Did It

THE GOD WITHIN Farnsworth Loomis, **The God Within** Elwood Babbitt, 1982-01-01 A Handbook for Spiritual Growth In 1970 Charles Hapgood asked Elwood Babbitt a full trance medium to contact the Hindu deity Vishnu At that time he believed that Vishnu was one of the Hindu Trinity of Brahma Vishnu and Siva which corresponded in ancient philosophy to the earth's seasons of Spring Summer and Fall When this request was made of Elwood Babbitt's chief assistant in spirit Dr Frederick Fischer Fischer said Hapgood was asking for the All In All Hapgood found on investigation that the highest thought of India was indeed monotheistic that Vishnu was accepted as the One the Universal Spirit of which Brahma and Siva were aspects Fischer said that bringing in the total Force of the universe to express through the body of a medium had never been done before but he thought it could be done and he accomplished it but not without mortal danger to the medium Exposed to too great an energy Babbitt became very ill and for several weeks it seemed he was unlikely to survive Fischer however managed to moderate the vibrational force so that the transmissions could continue Hapgood interrogated Vishnu attempting to cover as wide an area as possible to answer questions in the minds of people Tape recordings were made and these will be

available to the public in due course After the recordings were transcribed Hapgood edited the texts to clarify any expressions that were confused owing to minor distortions of language because of distortions of the vibrations coming through Babbitt's brain The result is a comprehensive and clear work avoiding technicalities of philosophy or dogma and concentrating on the problem of assisting all those who wish to devote themselves to the path of spiritual growth **The God Within** Tom Allender,1996 The God Within Speaks Hazel Sinanan,2013-09 The God Within Speaks is intended to inspire others to take inward steps through intent desire and action to allow their higher selves to work and live through them in order to facilitate higher consciousness which will open them up to the flow of the Mighty Source As the author unites her mind with that of her higher self allows her higher self to think with and through her and surrenders to the insights of her higher mind wisdom flows The result is inspired thinking that manifests in wisdom teachings aimed at opening up the minds of the readers to contemplate new perspectives and act as a catalyst for truth seeking **The God Within Me** Michael Faust,2011-10-23 Psychologist Carl Jung and Nobel Prize winning physicist Wolfgang Pauli collaborated to find a means of bridging the gap between the psychological and scientific worlds between mind and matter They failed but everything they sought has been accomplished by the ancient and controversial secret society known as the Illuminati They have provided a framework for understanding all phenomena of whatever nature either scientific or paranormal Discover their startling theory of everything It explains Rupert Sheldrake's theory of Morphic Resonance homeopathy out of body and near death experiences synchronicity remote viewing hypnosis and many other previously inexplicable phenomena And read about dream gnosis the extraordinary means by which the fortunate few encounter their inner God *God Within* Oliver Davies,2006-03 This new edition of a classic book sheds light again on a neglected spiritual tradition It conveys the essence of writers whose works still resonate with contemporary seekers of authentic theological insight Jan van Ruusbroec Johannes Tauler Henry Suso and Walter Hilton in addition to more familiar figures such as Meister Eckhart and Julian of Norwich Book cover **The God within , God Within You** Father T.
