The Goddess Anat in Ugaritic Myth Neal H. Walls, 1992

Women in Ugarit and Israel Hennie J.

Marsman, 2021-10-01 In this volume the presupposition is investigated whether women in a polytheistic society had a better position than women in a monotheistic society To this end the social and religious position of women in Ugarit according to its literary texts is compared to that of women in Israel according to the Hebrew Bible while the wider context of the ancient Near East is also taken into consideration After an overview of feminist biblical exegesis the book discusses the roles of women in the family and in society It also provides an analysis of the roles of women as religious specialists and as worshippers Finally the data on the position of women in the literary texts is compared to that in non literary texts

Goddesses and the Divine Feminine Rosemary Ruether, 2006-11-20 Gender and the problem of prehistory Goddesses and world renewal in the ancient mediterranean The Hebrew God and gender Savior goddesses in the mystery religions and gnosticism The spiritual feminine in New Testament and patristic Christianity Feminine symbols in medieval religious literature Tonantzin Guadalupe the meeting of Aztec and Christian female symbols in Mexico Mary and wisdom in protestant mystical millennialism Contested gender status and imagining ancient matriarchy The return of the goddess The Early History of God Mark S. Smith, 2002-08-03 Foreword by Patrick D Miller In this remarkable acclaimed history of the development of monotheism Mark S Smith explains how Israel s religion evolved from a cult of Yahweh as a primary deity among many to a fully defined monotheistic faith with Yahweh as sole god Repudiating the traditional view that Israel was fundamentally different in culture and religion from its Canaanite neighbors this provocative book argues that Israelite religion developed at least in part from the religion of Canaan Drawing on epigraphic and archaeological sources Smith cogently demonstrates that Israelite religion was not an outright rejection of foreign pagan gods but rather was the result of the progressive establishment of a distinctly separate Israelite identity This thoroughly revised second edition of The Early History of God includes a substantial new preface by the author and a foreword by Patrick D Miller **Routledge**

Smooth Words Carole Fontaine, 2002-09-01 This book explores the social roles of women as portrayed within the book of Proverbs as well as the character archetypes and patriarchal ideologies which undergird the sage's portrayal. Using feminist folklore methodologies and performance studies, the author explores an alternative paradigm for understanding women's relationship to wisdom traditions in the ancient Near East using parallel texts, later midrash, and extrabiblical representations of biblical women associated with wisdom. The author demonstrates that women were culturally authorized performers of the family-based wisdom traditions of teaching, economic problem solving, and care giving, and that these roles provided them with a platform to use their acknowledged wisdom in public roles. **From the Banks of the Euphrates** Micah

Ross, 2008-01-01 Although Near Eastern languages and the history of the exact sciences are known for being obscure and deliberately arcane to general audiences, Alice Slotsky has paradoxically established her legacy by exposing these topics to a wider audience. As a visiting professor at Brown University, Slotsky has taught more students than any previous Assyriologist and successfully brought this discipline to a wider audience than previously imagined possible. This volume, with articles written by former students as well as colleagues, pays tribute to her broad interests. **Appealing to God or Man** Nicholas

J. Campbell, 2025-03-31 **Appealing to God or Man: Contrasting Barrenness and Family Death Narratives in the Hebrew Bible and Ancient Near East** argues for a reevaluation of barrenness type scenes in the Hebrew Bible and ancient Near East. More specifically, the argument is for a distinction: women in family death narratives appeal to men, while women in barrenness narratives appeal to God. Even the male-centric epics of the ancient Near East show that women interact with the divine more during barrenness crises, e.g., the wife's prophetic dream in the Etana myth, than during family death crises, e.g., male divine narratives in Kirta and Aqhat. This distinction not only clarifies the narrative tropes but emphasizes the role of women in these crises and intersects with discussions of household roles in the ancient Near East. Male and female roles in marriage and fertility drive the responses of characters in these idealized narrative worlds, especially in family death and barrenness narratives. **Near Eastern Archaeology** Suzanne Richard, 2003-06-30 Filling a gap in classroom texts, more than 60 essays by major scholars in the field have been gathered to create the most up-to-date and complete book available on Levantine and Near Eastern archaeology. Congress Volume International Organization for the Study of the Old Testament.

Congress, 2000-01-01 This Congress Volume comprises not only the main lectures of the XVth I O S O T Congress held in Oslo 1998 but also the interventions at the two panels on Intertextuality and the Pluralism of Methods and on The Hebrew Bible and History. Both the main lectures and the panelists' interventions focus on current methodological problems and study central questions in the present study of the Hebrew Bible/Old Testament in its environment.
