Woods, 2024-01-02 The heroes of early narrative are the faces of an older world In constant retellings their stories hold the memory like members of an extended family Gilgamesh Odysseus Beowulf Gawain Roland Yvain Genji in their colorful often exaggerated ways they show how the people of their own time and place liked to know themselves The heroes embody their identity and reflect their culture Because their world was difficult and dangerous every hero needed defensive strengths This book analyzes seven iconic heroes and compares each champion to a walled town or castle hardened against an outer threat These defenses are the mortal walls of their identity their strengths against the world as well as their dealings within it and are exemplified in their actions as warriors distinct rhetoric complex relationships with women and devotion to the divine By delving into some of early narrative's most renowned heroes the book reveals the pieces of their inner selves that even they cannot keep outside the walls but must finally accept with firm humility *The Intimate Frontier* Ignacio Martínez, 2019-10-22 For millennia

friendships have framed the most intimate and public contours of our everyday lives In this book Ignacio Mart nez tells the multilayered story of how the ideals logic rhetoric and emotions of friendship helped structure an early yet remarkably nuanced fragile and sporadic form of civil society *societas civilis* at the furthest edges of the Spanish Empire Spaniards living in the isolated borderlands region of colonial Sonora were keen to develop an ideologically relevant and socially acceptable form of friendship with Indigenous people that could act as a functional substitute for civil law and governance thereby regulating Native behavior But as frontier society grew in complexity and sophistication Indigenous and mixed raced people also used the language of friendship and the performance of emotion for their respective purposes in the process becoming skilled negotiators to meet their own best interests In northern New Spain friendships were sincere and authentic when they had to be and cunningly malleable when the circumstances demanded it The tenuous origins of civil society thus developed within this highly contentious social laboratory in which friendships authentic and feigned set the social and ideological parameters for conflict and cooperation Far from the coffee houses of Restoration London or the lecture halls of the Republic of Letters the civil society illuminated by Mart nez stumbled forward amid the ambiguities and contradictions of colonialism and the obstacles posed by the isolation and violence of the Sonoran Desert

The First Great Powers Arthur Cotterell, 2019-11-01 The rediscovery of Babylon and Assyria in the 1840s transformed Western views on the origins of civilisation The excavation of Nineveh proved that even the Greeks Romans and Egyptians together did not constitute the ancient world These peoples had nothing to do with the beginnings of civilisation on Earth It was in Mesopotamia that humanity took the first steps on its path towards the society we know today The Sumerians inaugurated civilisation itself but it was the Babylonians and then the Assyrians who fulfilled its potential Their early experiments in state formation remain fascinating to us today just like our governments for a thousand years Babylon and Assyria grappled with the challenges of organising central power administering distant territories and engineering social harmony in empires and their cities These achievements form one of the momentous episodes in human history the Mesopotamian invention of writing revolutionised our minds and increased our intellectual possibilities a hundredfold The First Great Powers is a revelation of kingship warfare society and religion Here at last we can discover what it meant to be an ancient Mesopotamian living in such an extraordinary world

The Biblical Hero Elliott Rabin, 2020-03-01 Approaching the Bible in an original way comparing biblical heroes to heroes in world literature Elliott Rabin addresses a core biblical question What is the Bible telling us about what it means to be a hero Focusing on the lives of six major biblical characters Moses Samson David Esther Abraham and Jacob Rabin examines their resemblance to hero types found in and perhaps drawn from other literatures and analyzes why the Bible depicts its heroes less gloriously than do the texts of other cultures Moses founds the nation of Israel and is short tempered and weak armed Samson arrogant and unhinged can kill a thousand enemies with his bare hands David establishes a centralized unified triumphal government through pretense and self deception Esther saves her people but marries a

murderous misogynist king Abraham's relationships are wracked with tension Jacob fathers twelve tribes and wins his inheritance through deceit In the end is God the real hero Or is God too removed from human constraints to even be called a hero Ultimately Rabin excavates how the Bible's unique perspective on heroism can address our own deep seated need for human scale heroes
