The Motion Picture Guide 1993 Annual The Films Of 1992:

The Motion Picture Guide, 1993 **The Motion Picture Guide 1992 Annual** James Pallot, 1992 The Reel Middle Ages Kevin J. Harty, 2015-08-13 Those tales of old King Arthur Robin Hood The Crusades Marco Polo Joan of Arc have been told and retold and the tradition of their telling has been gloriously upheld by filmmaking from its very inception From the earliest of Georges Melies s films in 1897 to a 1996 animated Hunchback of Notre Dame film has offered not just fantasy but exploration of these roles so vital to the modern psyche St Joan has undergone the transition from peasant girl to self assured saint and Camelot has transcended the soundstage to evoke the Kennedys in the White House Here is the first comprehensive survey of more than 900 cinematic depictions of the European Middle Ages date of production country of origin director production company cast and a synopsis and commentary A bibliography index and over 100 stills complete this remarkable work **The Motion Picture Guide** Jay Robert Nash, Stanley Ralph Ross, 1996 **The Motion Picture Guide** Jay R. Nash, Stanley R. Ross, Robert B. Conelly, 1993-01-01 *The 50 Most Influential Black Films* Torriano Berry, Venise T. Berry, 2001 A plentifully illustrated guide to the most popular and socially significant movies made for by and about African Americans from 1900 to today Also includes incisive interviews with Hollywood greats such as Ossie Davis and Ivan Dixon **The Publishers' Trade List Annual**, 2000 **King Arthur on Film** Kevin J. Harty, 1999-01-01 This collection of eleven essays details more than 75 films from Edwin Porter s 1904 Parsifal to the animated Quest for Camelot in 1998 A variety of critical perspectives are provided The medieval and modern worlds collide in The Fisher King and Indiana Jones and the Last Crusade issues of femininity and depictions of Morgan Le Fay are analyzed in the 1931 Connecticut Yankee and in Excalibur concerns of masculinity are examined in First Knight and Dragonheart A comprehensive filmography selective bibliography and over 40 film stills complete this critical appreciation of the rich and varied cinematic tradition of Arthur **43 Ways to Finance Your Feature Film** John W. Cones, 1998 On film finance **The V-chip Debate** Monroe E. Price, 2013-11-26 The V chip is a highly significant part of the discussion about whether television or broadcasting in general deserves some special attention in terms of its accessibility to children its particular power to affect conduct and its invasiveness But as this notion of filtering and labeling has caught the imagination of the regulator the legislator and all those who wish to consider new ways to alter bargaining over imagery in society the very idea of the V chip or its equivalent is moving across other technologies including the Internet The V chip issue has also fueled the ongoing debate about violence and sexual practices in society and how representations on television relate to those practices Although the initial concept of the V chip is simple its flow into the public realm raises so many extraordinary questions that the introduction and production of the chip virtually serves as a case study in problems of law and public policy The very conceptualization of speech in society is being affected by this issue Accordingly the place of the V chip in this debate is increasingly important indeed it may be argued that the V chip s contribution to legal argumentation may be greater than its ultimate contribution to the

relationship between children and imagery Among the questions the contributors address are What research basis is necessary to require a framework for labeling and rating What relationship between government and the image producing industries can be characterized for constitutional and other reasons as voluntary as opposed to coercive Who should evaluate these images To what extent should the evaluation process be centralized and or distributed What assessment is appropriate to evaluate whether the experiment is successful In addition to the V chip s origin s in Canada and its further evolution in the United States this book discusses the development of the V chip and television rating systems in Europe Australia and throughout the world It also includes essays which contrast the very different approaches in Canada and the United States in terms of the role of regulatory agency industry and government
