Sir James K. Shuttleworth on Popular Education Sir James Kay-Shuttleworth, Trygve R Tholfsen, 1974

Memorandum on Popular Education Sir James Phillips Kay-Shuttleworth, 1868 *The Concept of Popular Education* Harold Silver, 2007 Originally published 1965 This reprints the 1977 edition which included a new introduction From the starting point of popular charity education the book traces the dynamic of ideological and social change from the 1790s to the 1830s in terms of attitudes to education and analyzes the range of contemporary opinions on popular education It also examines some of the channels through which ideas about education were disseminated and became common currency in popular movements *Ruskin's Educational Ideals* Sara Atwood, 2016-04-08 Focusing on John Ruskin as a teacher and on his greatest educational work *Fors Clavigera* Sara Atwood examines Ruskin's varied roles in education the development of his teaching philosophy and style and his vision for educational reform Atwood maintains that the letters of *Fors Clavigera* constitute not only a treatise on education but a dynamic educational experiment serving to set forth Ruskin's ideas about education while simultaneously educating his readers according to those very ideas Closely examining Ruskin's life and writings her argument traces the development of his moral aesthetic and increasing involvement in social reform his methods and approach as an art instructor and his dissatisfaction with contemporary educational practice A chapter on Ruskin's legacy takes account of his influence on late Victorian and Edwardian educators including J H Whitehouse and the Bembridge School the Ruskin colonies in Tennessee Florida and Georgia and the relevance of Ruskin's ideas to ongoing educational debates about teacher pay state national testing retention and the theory of the competent child Historically well grounded and forcefully argued Atwood's study is not only a valuable contribution to scholarship on Ruskin and the Victorian period but an enjoiner for us to reconsider how Ruskin's educational philosophy might be of benefit today *Special Reports on Educational Subjects* Great Britain. Education Department, 1898 **The Diaries of William Charles Macready, 1833-1851** William Charles Macready, 1912 In 1875 two years after Macready's death his *Reminiscences* and selections from his diaries and letters edited by the late Sir W F Pollock bart were published by Messrs Macmillan At that time it was thought desirable to withhold a considerable portion of the diaries but after the lapse of nearly forty years the reasons for this suppression no longer hold good and the most important of the omitted passages are accordingly given for the first time in the present work v 1 pref *Social Paralysis and Social Change* Neil J. Smelser, 1991-09-03 Neil Smelser's *Social Paralysis and Social Change* is one of the most comprehensive histories of mass education ever written It tells the story of how working class education in nineteenth century Britain often paralyzed by class religious and economic conflict struggled forward toward change This book is ambitious in scope It is both a detailed history of educational development and a theoretical study of social change at once a case study of Britain and a comparative study of variations within Britain Smelser simultaneously meets the scholarly standards of historians and critically addresses accepted theories of educational change

progress conflict and functional theories He also sheds new light on the process of secularization the relations between industrialization and education structural differentiation and the role of the state in social change This work marks a return for the author to the same historical arena Victorian Britain that inspired his classic work *Social Change in the Industrial Revolution* thirty five years ago Smelser s research has again been exhaustive He has achieved a remarkable synthesis of the huge body of available materials both primary and secondary Smelser s latest book will be most controversial in its treatment of class as a primordial social grouping beyond its economic significance Indeed his demonstration that class ethnic and religious groupings were decisive in determining the course of British working class education has broad ranging implications These groupings remain at the heart of educational conflict debate and change in most societies including our own and prompt us to pose again and again the chronic question who controls the educational terrain The Quarterly Review William Gifford, Sir John Taylor Coleridge, John Gibson Lockhart, Whitwell Elwin, William Macpherson, William Smith, John Murray, Rowland Edmund Prothero (Baron Ernle), George Walter Prothero, 1896 *Special Reports on Educational Subjects* Great Britain. Board of Education, 1902 **Accounts and Papers of the House of Commons** Great Britain. Parliament. House of Commons, 1870 **Sessional Index** Great Britain. Parliament. House of Commons, 1870

The Quarterly Review , 1896 *The New Code, 1891, of Regulations of the Education Department...* Great Britain. Board of Education, 1891 **The Evolution of the British Welfare State** Derek Fraser, 1973-04-01 The Educational Thought and Influence of Matthew Arnold W.F. Connell, 2002-09-10 Drawing on the great wealth of knowledge and experience of education practitioners and theorists these volumes explore the very important relationship between education and society These book became standard texts for actual and intending teachers Drawing upon comparative material from Israel France and Germany titles in The Sociology of Education set of the International Library of Sociology also discuss the key questions of girls and special needs education and the psychology of education **The Mind of the Century** , 1901

Teaching Britain Christopher Bischof, 2019-05-09 Teaching Britain examines teachers as key agents in the production of social knowledge Teachers in nineteenth century Britain claimed intimate knowledge of everyday life among the poor and working class at home and non white subjects abroad They mobilized their knowledge in a wide range of media from accounts of local happenings in their schools official log books to travel narratives based on summer trips around Britain and the wider world Teachers also obsessively narrated and reflected on their own careers Through these stories and the work they did every day teachers imagined and helped to enact new models of professionalism attitudes towards poverty and social mobility ways of thinking about race and empire and roles for the state As highly visible agents of the state and beneficiaries of new state funded opportunities teachers also represented the largesse and the reach of the liberal state but also the limits of both **Education and Empire** David McLean, 1999 Education education education is a slogan of current government but in the mid nineteenth century it also was at the heart of the debate about Britain s position in the world The

social problems accompanying industrialization and rapid urban growth provoked a widespread debate which forced education onto the political agenda and the new ideas about teaching methods curricula and the physical and moral care of children developed rapidly This study based on a unique cache of records of the Admiralty Schools at Greenwich provides an extraordinary and striking insight into the problems and the achievements of mid nineteenth schools The story is enhanced by the connection with the Royal Navy a major arm of empire and provides unprecedented insight into the forces at the root of the sweeping changes of the period **Towards a Theory of Schooling (Routledge Revivals)** David

Hamilton,2013-09-13 First published in 1989 Towards a Theory of Schooling explores and debates the relationship between school and society It examines the form and function of one of humankind s most important social institutions following the cutting edge of pedagogic innovation from mainland Europe through the British Isles to the USA In the process the book throws important light upon the origins and evolution of the school based notions of class curriculum classroom recitation and class teaching *Miscellaneous papers, lists of names &c., relating to the Dictionary of national biography*
