Six American Poets from Emily Dickinson to the Present Allen Tate,1971-12-22 Six American Poets from Emily Dickinson to the Present was first published in 1969 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This volume provides critical introductions to the work of Emily Dickinson Hart Crane Edwin Arlington Robinson Conrad Aiken Marianne Moore and E E Cummings six American poets all of whom were born in the nineteenth century and whose various life spans overlap to cover a period of nearly a century and a half reaching into the present In his introduction Allen Tate discusses the significance of this group of poets and their influence on contemporary poetry He points out that the overlap in their ages gives a somewhat longer perspective to modern American poetry than the rise of modernism around 1912 has led us to look for The impressive variety and versatility of contemporary American poetry including its modernist development he writes has been the achievement of men and women born before 1901 In discussing the six poets introduced in this volume Mr Tate offers interesting comments on the place in literary history of a number of other poets including Ezra Pound T S Eliot Wallace Stevens Robert Frost Phelps Putnam Mark Van Doren John Hall Wheelock and John Crowe Ransom The introductions to the six poets are based on the material of six of the pamphlets in the series of University of Minnesota Pamphlets on American Writers Emily Dickinson by Denis Donoghue Hart Crane by Monroe K Spears Edwin Arlington Robinson by Louis Coxe Conrad Aiken by Reuel Denney Marianne Moore by Jean Garrigue and E E Cummings by Eve Triem

The Wounded Surgeon Adam Kirsch,2013-10-07 One of the most promising young poet critics in America Los Angeles Times examines a revolutionary generation of poets Robert Lowell Elizabeth Bishop Sylvia Plath John Berryman Randall Jarrell and Delmore Schwartz formed one of the great constellations of talent in American literature In the decades after World War II they changed American poetry forever by putting themselves at risk in their poems in a new and provocative way Their daring work helped to inspire the popular style of poetry now known as confessional But partly as a result of their openness they have become better known for their tumultuous lives afflicted by mental illness alcoholism and suicide than for their work This book reclaims their achievement by offering critical biographies of the poetry tracing the development of each poet s work exploring their major themes and techniques and examining how they transformed life into art An ideal introduction for

readers coming to these major American poets for the first time it will also help veteran readers to appreciate their work in a new light

Shades of Authority Stephen James, 2007-01-01 What is the relationship between poetry and power Should poetry be considered a mode of authority or an impotent medium And why is it that the modern poets most commonly regarded as authoritative are precisely those whose works wrestle with a sense of artistic inadequacy Such questions lie at the heart of *Shades of Authority* prompting fresh insights into three of the most important poets of recent decades Robert Lowell Geoffrey Hill and Seamus Heaney Through attentive close readings James shows how their responsiveness to matters of political and cultural import lends weight to the idea of poetry as authoritative utterance but also how each is exercised by a sense of the limitations and liabilities of language itself

Articulate Flesh Gregory Woods, 1987-01-01 Arguing that homosexual poetry is part of the mainstream of poetic writing not a distinct and differentiated category within it Gregory Woods provides a fastidious study of homosexual poetry in the twentieth century that emphasizes the homo erotic themes in the works of D H Lawrence Hart Crane W H Auden Allen Ginsberg and Thom Gunn Woods's controlled and elegant study demonstrates that a critic who ignores the sexual orientation of a poet particularly a love poet risks overlooking the significance of the poetry itself

Six Contemporary French Women Poets, 1997 Although many practice the art contemporary French women poets generally have been vastly underrepresented in periodicals and anthologies In the only anthology to feature avant garde French women poets exclusively Gavronsky shows how Kaplan Grangaud Portugal Lapeyr

re Giraudon and Risset differ from their American counterparts Before presenting his translations of the poems Gavronsky gives each poet the opportunity to define herself in terms of major influences on her poetry distinctive traits in her writing major themes in her work and the influence of gender on her art The poets also speculate about the relative underrepresentation of women poets in French periodicals and anthologies as well as about the form poetry might take in the twenty first century The poems in this volume are simultaneously delightful informative and combative They typify according to Gavronsky some of the main currents of a poetics in the making a poetics little known in the United States In reaffirming women s involvement with poetry Gavronsky believes that he has reconnected today s work with an immemorial tradition that in France clearly goes back to the Middle Ages

Six Poets from the Mountain South John Lang,2010-04-20 In the most extensive work to date on major poets from the mountain South John Lang takes as his point of departure an oft quoted remark by Jim Wayne Miller Appalachian literature is and has always been as decidedly worldly secular and profane in its outlook as the region s traditional religion appears to be spiritual and otherworldly Although this statement may be accurate for Miller s own poetry and fiction Lang maintains that it does not do justice to the pervasive religious and spiritual concerns of many of the mountain South s finest writers including the five other leading poets whose work he analyzes along with Miller s Fred Chappell Robert Morgan Jeff Daniel Marion Kathryn Stripling Byer and Charles Wright Lang demonstrates all write poetry that explores sometimes with widely varying results what they see as the undeniable presence of the divine within the temporal world Like Blake and Emerson before them these poets find the supernatural within nature rather than beyond it They all exhibit a love of place in their poems a strong sense of connection to nature and the land especially the mountains Yet while their affirmation of the world before

them suggests a resistance to the otherworldliness that Miller points to their poetry is nonetheless permeated with spiritual questing Dante strongly influences both Chappell and Wright though the latter eventually resigns himself to being simply a God fearing agnostic whereas Chappell follows Dante in celebrating the love that moves the sun and other stars Byer probably the least orthodox of these poets chooses to lay up treasures on earth rejecting the transcendent in favor of a Native American spirituality of immanence while Morgan and Marion find in nature what Marion calls a vocabulary of wonders akin to Emerson's conviction that nature is the language of the spiritual Employing close readings of the poets work and relating it to British and American Romanticism as well as contemporary eco theology and eco criticism Lang's book is the most ambitious and searching foray yet into the worlds of these renowned post World War II Appalachian poets
