The people who made the long and perilous journey over the Oregon and California trails drove this swift and astonishing change In this magisterial volume Will Bagley tells why and how this massive emigration began While many previous authors have told parts of this story Bagley has recast it in its entirety for modern readers Drawing on research he conducted for the National Park Service's Long Distance Trails Office he has woven a wealth of primary sources personal letters and journals government documents newspaper reports and folk accounts into a compelling narrative that reinterprets the first years of overland migration Illustrated with photographs and historical maps So Rugged and Mountainous is the first of a projected four volume history Overland West The Story of the Oregon and California Trails This sweeping series describes how the Road across the Plains transformed the American West and became an enduring part of its legacy And by showing that overland emigration would not have been possible without the cooperation of Native peoples and tribes it places American Indians at the center of trail history not on Westering Women and the Frontier Experience, 1800-1915 Sandra L. Possessing the Pacific Stuart Banner, 2009-06-30 During the **An Interior Empire** Stephen Dow Beckham, 1995 nineteenth century British and American settlers acquired a vast amount of land from indigenous people throughout the Pacific but in no two places did they acquire it the same way Stuart Banner tells the story of colonial settlement in Australia New Zealand Fiji Tonga Hawaii California Oregon Washington British Columbia and Alaska Today indigenous people own much more land in some of these places than in others And certain indigenous peoples benefit from treaty rights while others do not These variations are traceable to choices made more than a century ago choices about whether indigenous people were the owners of their land and how that land was to be transferred to whites Banner argues that these differences were not due to any deliberate land policy created in London or Washington Rather the decisions were made locally by settlers and colonial officials and were based on factors peculiar to each colony such as whether the local indigenous people were agriculturalists and what level of political organization they had attained These differences loom very large now perhaps even larger than they did in the nineteenth century because they continue to influence the course of litigation and political struggle between indigenous people and whites over claims to land and other resources Possessing the Pacific is an original and broadly conceived study of how colonial struggles over land still shape the relations between whites and indigenous people throughout much of the world Oregon and the Collapse of Illahee Gray H. Whaley, 2010 In this sound analysis of

Indian white relations in Oregon the author clearly presents the significant regional issues and effectively integrates them into the broad national patterns Roger L Nichols University of Arizona author of Natives and Strangers A History of Ethnic **Americans** The Federal Indian Policy in the Oregon Country, 1849-1855 ... Ruby, John A. Brown, 1976 The Chinook Indians who originally lived at the mouth of the Columbia River in present day Oregon and Washington were experienced traders long before the arrival of white men to that area When Captain Robert Gray in the ship Columbia Rediviva for which the river was named entered the Columbia in 1792 he found the Chinooks in an important position in the trade system between inland Indians and those of the Northwest Coast The system was based on a small seashell the dentalium as the principal medium of exchange The Chinooks traded in such items as sea otter furs elkskin armor which could withstand arrows seagoing canoes hollowed from the trunks of giant trees and slaves captured from other tribes Chinook women held equal status with the men in the trade and in fact the women were preferred as traders by many later ships captains who often feared and distrusted the Indian men The Chinooks welcomed white men not only for the new trade goods they brought but also for the new outlets they provided Chinook goods which reached Vancouver Island and as far north as Alaska The trade was advantageous for the white men too for British and American ships that carried sea otter furs from the Northwest Coast to China often realized enormous profits Although the first white men in the trade were seamen land based traders set up posts on the Columbia not long after American explorers Lewis and Clark blazed the trail from the United States to the Pacific Northwest in 1805 John Jacob Astor's men founded the first successful white trading post at Fort Astoria the site of today s Astoria Oregon and the North West Company and the Hudson s Bay Company soon followed into the territory As more white men moved into the area the Chinooks began to lose their favored position as middlemen in the trade Alcohol new diseases such as smallpox influenza and venereal disease intertribal warfare and the growing number of white settlers soon led to the near extinction of the Chinooks By 1 51 when the first treaty was made between them and the United States government they were living in small fragmented bands scattered throughout the territory Today the Chinook Indians are working to revive their tribal traditions and history and to establish a new tribal economy within the white man s system
