 Creative Voices* Dieumeme Noelliste,Sung Wook Chung,2015-04-20 As the twentieth century passed its midpoint and was
 rushing toward its end a growing number of Majority World theologians came to realize that they could in fact do theology in
 their own contexts for the benefit of their own people Thus from the 1960s onward theologians in the global South have
 embarked on a form of theological construction that has sometimes been described as contextual reflection or contextualized
 theology This volume is motivated by the conviction that these efforts have resulted in theological work that is also beneficial
 for Christians in other parts of the world The editors have invited Majority World theologians to share their reflections on
 several themes of Christian faith from their own sociohistorical perspectives but with an unswerving commitment to the
 authority of Scripture It is hoped that these fresh reflections will help Christians in the West engage and benefit from the
 perspectives of fellow believers in the global South Background Notes, Malaysia ,1983 Yearning to Belong Patrick
 Pillai,2016-04-29 Malaysia is among the most ethnically diverse and culturally rich nations on earth Yet much of its cultural
 wealth lies buried beneath the rubric of its main Malay Chinese and Indian e racee categories the dazzling diversity within
 and outside these groups remains largely unexplored This book uncovers some of this fascinating diversity through the
 stories of five little known acculturated ethnic groups in Peninsula Malaysia The author a Malaysian sociologist delivers an
 insightful and lucid study of these groups with some surprising findings These communities illustrate how much more cross
 cultural mingling sharing and co dependence there is within Malaysian society than we care to recognize admit or celebrate
 This raises various questions Is a similar process of spontaneous inter ethnic interaction possible between larger ethnic
 groups today How can we foster such acculturation and can it by itself contribute to ethnic harmony The author also
 discovers that despite their long settlement and deep acculturation segments of these groups are anxious about their future

and pine for an indigenous identity What are the implications of this trend for ethnic relations and how can it be resolved This book traces the acculturation journey of these communities and draws lessons for ethnic relations in one of the most complex multi ethnic nations in the world It will appeal to scholars students laymen and visitors interested in migration history culture ethnicity and heritage in Malaysia and the region **Style, Identity and Literacy** Christopher Stroud, Lionel Wee, 2011-11-15 Style Identity and Literacy is a qualitative study of the literacy practices of a group of Singaporean adolescents relating their patterns of interaction both inside and outside the classroom to the different levels of social organization in Singaporean society home peer group and school **Multilingual Global Cities** Peter Siemund, Jakob R.E. Leimgruber, 2020-11-29 This volume sets out to investigate the linguistic ecologies of Singapore Hong Kong and Dubai with chapters that combine empirical and theoretical approaches to the sociolinguistics of multilingualism One important feature of this publication is that the five parts of the collection deal with such key issues as the historical dimension language policies and language planning contemporary societal multilingualism multilingual language acquisition and the localized Englishes of global cities The first four sections of the volume provide a multi levelled and finely detailed description of multilingual diversity of three global cities while the final section discusses postcolonial Englishes in the context of multilingual language acquisition and language contact *Ethnic Identity and Minority Protection* Thomas W. Simon, 2012-03-28 In *Ethnic Identity and Minority Protection* Designation Discrimination and Brutalization Thomas W Simon examines a new framework for considering ethnic conflicts In contrast to the more traditional theories of justice Simon s theory of injustice shifts focus away from group identity toward group harms effectively making many problems such as how to define minorities in international law dramatically more manageable Simon argues that instead of promoting legislative devices like proportional representation for minorities it is more fruitful to seek adjudicative solutions to racial and ethnic related conflicts For example resources could be shifted to quasi judicial human rights treaty bodies that have adopted an injustice approach This injustice approach provides the foundation for Kosovo s case for remedial secession and helps to sort out the competing entitlement claims of Malays in different countries Indeed the priority of Thomas W Simon s *Ethnic Identity and Minority Protection* is to ensure the tales of designation and discrimination told at the beginning of the work do not become the stories of brutalization told at the end In short the challenge tackled in this text is to assure that reason reigns over hate
