Encyclopedia of American Classical Pianists Richard Masters, 2023-09-30 This essential reference focuses on the lives careers and musical contributions of over 150 American pianists from early days of the nation until the present day Richard Masters spotlights both modern and historical pianists including women people of color and LGBTQ pianists who either never had the opportunity to win widespread acclaim but were top notch performers or who achieved important careers against heavy odds but were soon forgotten after their deaths such as Augusta Cottlow George Copeland and Natalie Hinderas This volume also gives attention to important collaborative pianists none of whom have ever appeared in any volume on classical pianists and influential pedagogues some of whom never had significant performing careers but produced important students Each entry explores an individual pianist s life and career from relevant biographical details to impact on American musical

culture and includes a selected list and brief discussion of existing and available recordings if any. Additionally, an introduction situates these pianists into historical trends. Overseen by a blue ribbon editorial board, *Encyclopedia of American Classical Pianists 1800s to the Present* provides a comprehensive view of the depth and breadth of American pianistic achievement and serves as the most up to date work for students, piano departments, music libraries, researchers, and interested pianophiles. **Godowsky, the Pianists' Pianist** Jeremy Nicholas, 1989 *Watson's Weekly Art Journal*, 1890

The American Record Guide, 1962 **The Musical Herald**, 1908 **Great Pianists Speak with Adele Marcus** Adele Marcus, 1979 **Great Pianists Speak for Themselves** Elyse Mach, 1980 **Great Pianists Speak for Themselves** Elyse Mach, 1980 *After the Golden Age* Kenneth Hamilton, 2007-12-07 Kenneth Hamilton's book engagingly and lucidly dissects the oft invoked myth of a Great Tradition or Golden Age of Pianism. It is written both for players and for members of their audiences by a pianist who believes that scholarship and readability can go hand in hand. Hamilton discusses in meticulous yet lively detail the performance style of great pianists from Liszt to Paderewski and delves into the far from inevitable development of the piano recital. He entertainingly recounts how classical concerts evolved from exuberant, sometimes riotous events into the formal, funereal trotting out of predictable pieces they can be today, how an often unhistorical respect for the score began to replace pianists' improvisations and adaptations, and how the clinical custom arose that an audience should be seen and not heard. Pianists will find food for thought here on their repertoire and the traditions of its performance. Hamilton chronicles why pianists of the past did not always begin a piece with the first note of the score nor end with the last. He emphasizes that anxiety over wrong notes is a relatively recent psychosis and playing entirely from memory a relatively recent requirement. Audiences will encounter a vivid account of how drastically different are the recitals they attend compared to concerts of the past and how their own role has diminished from noisily active participants in the concert experience to passive recipients of artistic benediction from the stage. They will discover when cowed listeners eventually stopped applauding between movements and why they stopped talking loudly during them. The book's broad message proclaims that there is nothing divinely ordained about our own concert practices, programming, and piano performance styles. Many aspects of the modern approach are unhistorical, some laudable, some merely ludicrous. They are also far removed from those fondly if deceptively remembered as constituting a Golden Age. **Clavier**, 1986 **Franz Schubert** Graham Johnson, 2014-12-16 This three volume boxed set is the definitive work on Franz Schubert's vocal music with piano. A richly illustrated encyclopedia, these substantial volumes contain more than seven hundred song commentaries with parallel text and translations by Richard Wigmore, detailed annotations on the songs' poetic sources, and biographies of one hundred and twenty poets as well as general articles on accompaniment, tonality, transcriptions, singers, and more. Written by Graham Johnson, celebrated accompanist, author, and the first pianist ever to record all of Schubert's songs and part songs, this sumptuous work is a must for performers, scholars, and all lovers of Schubert lieder. *Classical Musicians Speak Out as*

a New Century Begins Sidney Bertram Smith, 2005 In *Classical Musicians Speak Out as a New Century Begins* Sidney Smith presents a unique snapshot of eminent musical opinion clearly illustrating what musicians and composers are thinking at the beginning of the twenty first century Meticulously researched Smith draws his conclusions from an host of internationally renowned figures **Saturday Review** ,1957 **The Pianist's Resource Guide** Joseph Rezits, Gerald Deatsman, 1978
