Speaking of Slavery Steven A. Epstein, 2018-05-15 The language of slavery is the last but steep price any society must pay for having tolerated the institution and profited from it The hypocrisies the racism the sexism the brutality bound up with the daily practice of slavery live on in *Voice, Slavery, and Race in Seventeenth-Century Florence* Emily Wilbourne, 2023 *Voice Slavery and Race in Seventeenth Century Florence* argues for the power of sound particularly musical and vocal sounds to systems of racial and ethnic difference Foregrounding newly discovered archival sources Emily Wilbourne documents the significant presence of foreign and racially marked individuals in Medici Florence many of whom were living under conditions of slavery or unfree labor This book considers how the musical and verbal sounds of these individuals were recruited to represent or communicate access to subjectivity agency and voice **The Oxford Handbook of Freedom**

David Schmidtz, Carmen E. Pavel, 2018 We speak of being free to speak our minds free to go to college free to move about we can be cancer free debt free worry free or free from doubt The concept of freedom and relatedly the notion of liberty is ubiquitous but not everyone agrees what the term means and the philosophical analysis of freedom that has grown over the last two decades has revealed it to be a complex notion whose meaning is dependent on the context The Oxford Handbook of Freedom will crystallize this work and craft the first wide ranging analysis of freedom in all its dimensions legal cultural religious economic political and psychological This volume includes 28 new essays by well regarded philosophers as well some historians and political theorists in order to reflect the breadth of the topic This handbook covers both current scholarship as well as historical trends with an overall eye to how current ideas on freedom developed The volume is divided into six sections conceptual frames framing the overall debates about freedom historical frames freedom in key historical periods from the ancients onward institutional frames freedom and the law cultural frames mutual expectations on our right to be free economic frames freedom and the market and lastly psychological frames free will in philosophy and psychology

Negotiating the Art of Fatherhood in Late Medieval and Early Modern Italy Juliann Vitullo, 2019-11-14 *Negotiating the Art of Fatherhood in Late Medieval and Early Modern Italy* examines contested notions of fatherhood in written and visual texts during the development of the mercantile economy in fourteenth and fifteenth century Italy It analyzes debates about the household and community management of wealth emotion and trade in luxury goods including enslaved women as moral questions Juliann Vitullo considers how this mercantile economy affected paternity and the portraits of ideal fatherhood which in some cases reconceived the role of fathers and in others reconfirmed traditional notions of paternal authority

That Most Precious Merchandise Hannah Barker, 2019-10-25 The history of the Black Sea as a source of Mediterranean slaves stretches from ancient Greek colonies to human trafficking networks in the present day At its height during the fourteenth and early fifteenth centuries the Black Sea slave trade was not the sole source of Mediterranean slaves Genoese Venetian and Egyptian merchants bought captives taken in conflicts throughout the region from North Africa sub

Saharan Africa the Balkans and the Aegean Sea Yet the trade in Black Sea slaves provided merchants with profit and prestige states with military recruits tax revenue and diplomatic influence and households with the service of women men and children Even though Genoa Venice and the Mamluk sultanate of Egypt and Greater Syria were the three most important strands in the web of the Black Sea slave trade they have rarely been studied together Examining Latin and Arabic sources in tandem Hannah Barker shows that Christian and Muslim inhabitants of the Mediterranean shared a set of assumptions and practices that amounted to a common culture of slavery Indeed the Genoese Venetian and Mamluk slave trades were thoroughly entangled with wide ranging effects Genoese and Venetian disruption of the Mamluk trade led to reprisals against Italian merchants living in Mamluk cities while their participation in the trade led to scathing criticism by supporters of the crusade movement who demanded commercial powers use their leverage to weaken the force of Islam Reading notarial registers tax records law merchants accounts travelers tales and letters sermons slave buying manuals and literary works as well as treaties governing the slave trade and crusade propaganda Barker gives a rich picture of the context in which merchants traded and enslaved people met their fate

The Slaves of the Churches Mary E. Sommar,2020 In recent years stories of religious universities and institutions grappling with their slave owning past have made headlines in the news People are shocked to learn that the Church itself could have been involved in such a sordid business This timely book the result of many years of research examines the origins of slavery in the early Church and the ways in which Church authorities attempted to define and regulate it over time

The Cambridge Companion to Global Literature and Slavery Laura Murphy,2022-12-22 Highlights the shifting terrain in literary studies of slavery and challenges the notion of what constitutes slavery and its representation

Counter-Reformation Sanctity in Global and Material Perspective Ruth Sargent Noyes,2024-11-29 This book explores the making of saints cults in the early modern world from an interdisciplinary perspective considering the entangled roles of materiality and globalization processes It brings together work across diverse media objects and materials as well as communities cultures and geographies to reframe a more synoptic materials centric and comparative history of the making and remaking of saints cults with a special focus on the long Counter Reformation The contributions engage with dynamics of local and universal and draw attention to the vital role of textual visual and material hagiographies in the creation and promotion of saints and would be saints cults The book fosters novel conceptualizations and cross pollination of ideas across traditions regions and disciplines and expands hagiography s horizons by reconsidering canonical saintly figures and reframing lesser known cults of saints and would be saints The book will be of interest to scholars of religious and early modern history as well as art history and visual and material studies

Law and the Illicit in Medieval Europe Ruth Mazo Karras,Joel Kaye,E. Ann Matter,2010-03-19 In the popular imagination the Middle Ages are often associated with lawlessness However historians have long recognized that medieval culture was characterized by an enormous respect for law and legal procedure This book makes the case that one cannot understand the era s cultural trends

without considering the profound development of law **The Invention of Race in the European Middle Ages** Geraldine Heng, 2018-03-08 In *The Invention of Race in the European Middle Ages* Geraldine Heng questions the common assumption that the concepts of race and racism only began in the modern era. Examining Europe's encounters with Jews, Muslims, Africans, Native Americans, Mongols, and the Romani Gypsies from the 12th through 15th centuries, she shows how racial thinking, racial law, racial practices, and racial phenomena existed in medieval Europe before a recognizable vocabulary of race emerged in the West. Analysing sources in a variety of media including stories, maps, statuary, illustrations, architectural features, history, saints' lives, religious commentary, laws, political and social institutions, and literature, she argues that religion so much in play again today enabled the positing of fundamental differences among humans that created strategic essentialisms to mark off human groups and populations for racialized treatment. Her ground-breaking study also shows how race figured in the emergence of *homo europaeus* and the identity of Western Europe in this time.
