Speaking With The Devil Exploring Senseless Acts Of Evil:

Speaking with the Devil Carl Goldberg,1996 Goldberg s thorough examination of the genesis of evil raises questions confronted in Arendt s Eichmann in Jerusalem Fromm s The Heart of Man and Becker s Escape from Evil In this text he elaborates on arguments in those classics and draws on revealing case studies from his 25 years of clinical practice

Speaking with the Devil Carl Goldberg,1995 **Eroticisms** Jerry S. Piven,2003 Eroticisms Love Sex and Perversion explores the elusiveness of human sensuality In an era of conflicting moral relativism political correctness validation of lifestyle choices liberation hedonism and postmodern pansexualism versus resurgent puritanism conservatism fundamentalism and theological anti sexualism this fifth volume of Psychological Undercurrents of History penetrates current debates and delves into the past to grasp the viscous ambiguities of sexuality and reassess the question of whether the erotic can be perverse

Stone Cold Souls Gregory K. Moffatt,2008-07-30 History s most notorious and brutal killers still enjoy fame as public fascination with their lives and their crimes continues to grow Stone Cold Souls is a detailed examination of the most brutal killers in history Moffatt does what he does best by looking at historical accounts of events analyzing them from a psychological perspective and presenting his assessment in captivating fashion He examines different types of killers offers case studies and historical context and describes what sets these cases apart from other kinds of killings Even in a day and age where pop culture has made serial crime a mainstay of movies and books the depravity of the killers profiled in this work will still shock even a desensitized reader Men women and children alike have committed crimes so atrocious that it is hard to imagine that these events are not works of fiction Moffatt examines the difficult questions that inevitably arise when one reads cases of unthinkable torture and cruelty Why Were these people simply evil or is it possible that given other circumstances they could have redirected their energies into more productive outlets The author answers these questions and others and reveals the lives and crimes of these ruthless killers Stone Cold Souls features such well known cases as Andrei Chikatilo Marc Dutroux Herman Webster Mudgett Charles Ng Leonard Lake Lawrence Bittaker Roy Norris Ed Gein Edmund Kemper Henry Lee Lucas Gilles de Rais Ivan the Terrible Richard Ramirez Holly Ann Harvey Sandy Ketchum Mary Bell Jesse Pomeroy Josef Mengele Marshall Applewhite Jeffrey Lundgren David Koresh Jim Jones Father Oliver O Grady Charles Cullin Harold Shipman Michael Swango Myra Hindley Karla Homolka Aileen Carol Lee Wuornos Elizabeth Bathory Charles Sobhraj Albert Fish Donald Harvey and Dennis Rader

The SAGE Encyclopedia of Lifespan Human Development Dr Marc Bornstein,Marc H. Bornstein,2018-01-15 In approximately 800 signed articles by experts from a wide diversity of fields this encyclopedia explores all individual and situational factors related to human development across the lifespan

Seeking the Compassionate Life Carl Goldberg,Virginia Crespo,2004-06-30 Morality is a subject most ignored and little understood by modern psychological investigation Why a person acts honorably or heinously is one of the most puzzling and least answered questions regarding human behavior Here the authors posit that despite the fact that hatred and

arrogance continually battle compassion and decency as humanity's driving force people continue to develop altruism empathy and concern for others Goldberg and Crespo demonstrate seven factors crucial to achieving a compassionate life Goldberg and Crespo take us inside their treatment rooms through history across cultures and into their own personal worlds at large to meet clients and acquaintances including a would be rapist a virtuous stalker an adulterous minister and a young boy with little more than a matchbook and some pride to call his own Together the stories of these clients and historical figures including Nazis at Nuremberg reflect a vital theme Virtuous behavior should not be a mystery Morality is a subject most ignored and little understood by modern psychological investigation Why a person acts honorably or heinously is one of the most puzzling and least answered questions regarding human behavior The authors demonstrate that although within every human breast hatred and arrogance battle compassion and decency as a driving force people do indeed develop altruism empathy and concern for others Goldberg and Crespo outline seven crucial factors in the achievement of a compassionate life This book addresses two audiences First it questions modern psychological scientists who have ignored the importance of compassion virtue and morality focusing instead on contrived experimental situations rather than pursuing investigations in as part of the actual world in which we live Yet it is also written for all people concerned with the moral crisis in contemporary society and all people seeking personal and social solutions to deal with this crisis

Engendered Death Joseph W. Laythe, 2011-12-16 Engendered Death Pennsylvania Women Who Kill is an historical and interdisciplinary study of women who kill in Pennsylvania from the 18th century to the present It is not an examination of what motivates women to kill although the reader may deduce that from the case studies included Instead it is an examination of how society perceives women who kill and how the gender lens is applied to them throughout the legal process in the media and in the courtroom What makes this work particularly unique is its combination of both scholarly analysis and narrative case studies As such it will appeal to both the scholar and the reader of true crime non fiction If we are to recognize the complex variables at play in all criminal offenses we will need to understand that the laws of a community its social values its politics economics and even geography play a factor in what laws are enforced and against whom they are enforced The decision to define and label certain behaviors and certain people was based on social political and economic considerations of each community Thus the commission of murder by a woman in Arizona may have a variety of factors associated with it that are not present in the case of a woman who murdered her husband in Maine This study in part because of the volume of cases and in part to limit the variables affecting the cases has limited its scope of women killers to the state of Pennsylvania Pennsylvania is the ideal state to study because of its long and stable legal and political traditions its historically diverse population and the large number of newspapers that will help us gauge the public's view of women and women who kill By limiting our scope to one state we know that the legal definitions are fairly consistent for all of the women during a certain period and we can more easily identify the shifts in social values regarding women and homicide

Jihad and Sacred Vengeance Jerry S.

Piven,Chris Boyd,Henry W. Lawton,2002 Learning to Forgive Walter R. Smith,2010-01-01 How do you forgive a person who has hurt your deeply Why forgive someone who does not deserve to be forgiven Forgiveness is not easy and often we discover that the person who needs to be forgiven the most is ourselves As we forgive others and ourselves we find that we are the ones who have benefited forgiveness brings a peace to our lives that no one can take away from us Learning to Forgive A Memoir of Doubt and Faith is the author s personal journey of forgiveness from a spiritual and psychological point of view The book shows the reader how they can use their relationship with God the resources of the Christian faith and their psychological understanding of themselves to learn how to forgive As readers see that pastors are not immune to the challenges of everyday life nor are they spared from abusive backgrounds they will be encouraged to embark on their own journeys of forgiveness or receive strength and hope for a journey already started **Intuitive Knowing as Spiritual**

Experience Phillip H. Wiebe,2015-09-16 This book is Wiebe s defense of the claim that a significant form of spiritual experience is found in knowing something we have no right to know He selects forty five first hand accounts from a data base at the University of Wales to make his case and in solidarity with those people recounts something of his own experience

Emotions, Crime and Justice Susanne Karstedt,Ian Loader,Heather Strang,2011-04-01 The return of emotions to debates about crime and criminal justice has been a striking development of recent decades across many jurisdictions This has been registered in the return of shame to justice procedures a heightened focus on victims and their emotional needs fear of crime as a major preoccupation of citizens and politicians and highly emotionalised public discourses on crime and justice But how can we best make sense of these developments Do we need to create emotionally intelligent justice systems or are we messing recklessly with the rational foundations of liberal criminal justice This volume brings together leading criminologists and sociologists from across the world in a much needed conversation about how to re calibrate reason and emotion in crime and justice today The contributions range from the micro analysis of emotions in violent encounters to the paradoxes and tensions that arise from the emotionalisation of criminal justice in the public sphere They explore the emotional labour of workers in police and penal institutions the justice experiences of victims and offenders and the role of vengeance forgiveness and regret in the aftermath of violence and conflict resolution The result is a set of original essays which offer a fresh and timely perspective on problems of crime and justice in contemporary liberal democracies Death

and Delusion Jerry S. Piven,2006-09-01 This book argues that conventional interpretation of Freudian psychology has not accounted for the death anxiety and its relation to illusions and delusions It contends that there is evidence to support the view that death anxiety is a very normal and central emotional threat human beings deal with by impeding awareness of the threat *Psychosynthesis* John Firman,Ann Gila,2010-03-10 Conceived by Italian psychiatrist Roberto Assagioli psychosynthesis is one of the first Western psychologies that addresses both spiritual development and psychological healing and growth by recognizing and supporting the particular life journey of the person the individual s own unique path of Self

realization Firman and Gila present a comprehensive account of psychosynthesis providing a transpersonal integration of developmental personality and clinical theory They reveal some of the relationships between psychosynthesis and contemporary developmental research object relations theory intersubjective psychology trauma theory the recovery movement Jungian psychology humanistic and transpersonal psychology and common psychological diagnoses Case examples and practical theory designed to support both the layperson and the professional seeking to understand and facilitate psychospiritual growth are included

Judaism and Genocide Jerry S. Piven,Chris Boyd,Henry Lawton,2002 Judaism and Genocide Psychological Undercurrents of History Volume IV returns to the Holocaust and the analysis of anti Semitism in a time when racial hatred ethnic cleansing and apocalyptic fantasy are resurgent Why do people seek to exterminate other cultures and peoples How can people inflict violent atrocity without feeling horror or compassion The authors of this volume address these questions to understand the psychodynamics of hatred mass violence and the genocidal impulse phenomena which thrive even today

From Morality to Mental Health Mike W. Martin,2006-04-20 Morality and mental health are now inseparably linked in our view of character Alcoholics are sick yet they are punished for drunk driving Drug addicts are criminals but their punishment can be court ordered therapy The line between character flaws and personality disorders has become fuzzy with even the seven deadly sins seen as mental disorders In addition to pathologizing wrong doing we also psychologize virtue self respect becomes self esteem integrity becomes psychological integration and responsibility becomes maturity Moral advice is now sought primarily from psychologists and therapists rather than philosophers or theologians In this wide ranging accessible book Mike W Martin asks are we replacing morality with therapy in potentially confused and dangerous ways or are we creatively integrating morality and mental health According to him it s a little bit of both He surveys the ways in which morality and mental health are related touching on practical concerns like love and work self respect and self fulfillment guilt and depression crime and violence and addictions Terming this integrative development the therapeutic trend in ethics Martin uses examples from popular culture various moral controversies and draws on a line of thought that includes Plato the Stoics Freud Nietzsche and contemporary psychotherapeutic theories Martin develops some interesting conclusions among them that sound morality is indeed healthy and that moral values are inevitably embedded in our conceptions of mental health In the end he shows how both morality and mental health are inextricably intertwined in our pursuit of a meaningful life This book will be of interest to philosophers psychologists psychiatrists and sociologists as well as the general reader

Encyclopedia of Religious and Spiritual Development Elizabeth M. Dowling,W. George Scarlett,2006 Focuses on the developmental process of religion and spirituality across the human life span This encyclopedia joins a recent trend in research and scholarship aimed at better understanding the similarities and differences between world religions and spiritualities between expressions of the divine and between experiences of the transcendent

Language and Ideology René Dirven, Bruce Wayne Hawkins, Roslyn M. Frank, Esra Sandikcioglu, Cornelia Ilie, 2001-01-01 Together with its sister volume on Theoretical Cognitive Approaches this volume explores the contribution which cognitive linguistics can make to the identification and analysis of overt and hidden ideologies This volume shows that descriptive tools which cognitive linguistics developed for the analysis of language in use are highly efficient for the analysis of ideologies as well Amongst them are the concept of grounding and the speaker's deictic centre iconographic reference frames cultural cognitive models as a subgroup of Idealized Cognitive Models conceptual metaphors root metaphors frames as groups of metaphors mental spaces and conceptual blending The first section Political metaphor and ideology discusses topics such as Nazi Germany discrimination of Afro Americans South Africa's rainbow nation and the impeachment campaign against President Clinton The second section on cross cultural Otherness deals with cultural clashes such as those between the Basque symbolic world and the general European value systems between the Islam and the West determining its treatment of Iraq in the Gulf War and between Hong Kong Otherness and centuries of Western dominance The third section deals with Metaphors for institutional ideologies and concentrates on the globalisation of the North and South American markets on insults in un parliamentary debates and on the Internet being for sale

Handbook of Adult Development Jack Demick, Carrie Andreoletti, 2012-12-06 This volume is an outgrowth of contemporary research on development over the adult lifespan which by now has burgeoned and developed both nationally and internationally However for us the impetus to be involved in this area was spawned and nurtured by our initial association with the Society for Research in Adult Development SRAD with its origins some 15 years ago by Michael Commons and his associates in Cambridge Massachusetts Through the good will and support of this society we also became and are still heavily involved with the Journal of Adult Development and the Kluwer Plenum Monograph Series on Adult Development and Aging of which this volume is a companion Many of the contributions in the volume are from SRAD members who consistently adhere to a focus on positive adult development Their chapters have been complemented by

pieces from other researchers who have adopted more mainstream approaches to adult development and oraging Regardless ofthe par ticular approach and or focus of the chapter all the work reported herein sup ports the relatively recent idea that development is not restricted to children and adolescents but continues throughout the adult lifespan in ways that we never envisionedsome 20 years ago Thus the volume represents state of the arttheory research and practice on adult development which has the potential to occupy us all for some time to come

CULTIVATING EMPATHY: Inspiring Health Professionals to Communicate More Effectively Kathleen Stephany, 2015-01-06 Research demonstrates that even if empathy the capacity to perceive or share emotions with other beings or objects is not part of a person s communication skill set it can be taught Empathy can therefore be viewed as an acquired communication skill Cultivating and practicing the skill of empathy among health care providers enhances the quality of care experienced by their patients which in turn can even improve work satisfaction for health care providers Many communication textbooks or manuals for care giving professions primarily focus on specific communication skills and techniques Cultivating Empathy takes a different approach the book sets empathy as the foundation of all therapeutic interactions and teaches the reader to learn the art of empathy by using constructive approaches and research findings from social sciences and neuroscience
