Spectacles of Death in Ancient Rome Donald G. Kyle, 2012-11-12 The elaborate and inventive slaughter of humans and animals in the arena fed an insatiable desire for violent spectacle among the Roman people Donald G Kyle combines the words of ancient authors with current scholarly research and cross cultural perspectives as he explores the origins and historical development of the games who the victims were and why they were chosen how the Romans disposed of the thousands of resulting corpses the complex religious and ritual aspects of institutionalised violence the particularly savage treatment given to defiant Christians This lively and original work provides compelling sometimes controversial perspectives on the bloody entertainments of ancient Rome which continue to fascinate us to this day

Thomas, 2017-08-21 The seventeen contributions to this volume written by leading experts show that animals and humans in Graeco Roman antiquity are interconnected on a variety of different levels and that their encounters and interactions often result from their belonging to the same structures networks and communities or at least from finding themselves together in a certain setting context or environment wittingly or unwittingly Papers explore the concrete categories of interaction between animals and humans that can be identified in what contexts they occur and what types of evidence can be productively used to examine the concept of interactions Articles in this volume take into account literary visual and other types of evidence A comprehensive research bibliography is also provided

A Monument to Dynasty and Death Nathan T. Elkins, 2019-09-03 Go behind the scenes to discover why the Colosseum was the king of amphitheaters in the Roman world a paragon of Roman engineering prowess Early one morning in

80 CE the Colosseum roared to life with the deafening cheers of tens of thousands of spectators as the emperor Titus inaugurated the new amphitheater with one hundred days of bloody spectacles. These games were much anticipated for the new amphitheater had been under construction for a decade. Home to spectacles involving exotic beasts, elaborate executions of criminals, gladiatorial combats, and even when flooded, small scale naval battles, the building itself was also a marvel. Rising to a height of approximately 15 stories and occupying an area of 6 acres, more than four times the size of a modern football field, the Colosseum was the largest of all amphitheaters in the Roman Empire. In *A Monument to Dynasty and Death*, Nathan T. Elkins tells the story of the Colosseum's construction under Vespasian, its dedication under Titus, and further enhancements added under Domitian. The Colosseum, Elkins argues, was far more than a lavish entertainment venue; it was an ideologically charged monument to the new dynasty, its aspirations, and its achievements. *A Monument to Dynasty and Death* takes readers on a behind-the-scenes tour of the Colosseum, from the subterranean tunnels where elevators and cages transported gladiators and animals to the blood-soaked arena floor, to the imperial viewing box, to the amphitheater's decoration and amenities such as fountains and an awning to shade spectators. Trained as an archaeologist, an art historian, and a historian of ancient Rome, Elkins deploys an interdisciplinary approach that draws on contemporary historical texts, inscriptions, archaeology, and visual evidence to convey the layered ideological messages communicated by the Colosseum. This engaging book is an excellent resource for classes on Roman art, architecture, history, civilization, and sport and spectacle. [Seneca in Performance](#) George W.M. Harrison, 2000-12-31 The plays of Seneca, the Younger, minister and philosopher under Nero, are today increasingly studied, appreciated, and performed. Here, in twelve new papers from a distinguished international cast of scholars, explore established questions such as whether the plays were written for the stage, and newer topics such as the playwright's subtleties of characterisation, his relation to contemporary Roman spectacle and art, and the problems arising in translating him to modern text or stage. **Paul and His Social Relations** Stanley E. Porter, Christopher D.

Land, 2012-11-13 Pauline scholars have always been interested in Paul's relationships. In fact, some of the most influential developments in modern Pauline scholarship have been attempts to situate Paul socially. This volume addresses many of the questions surrounding Paul and his social relations, including how to define and analyze such relations, their relationship to Paul's historical and social context, how Paul related to numerous friends and foes, and the implications for understanding Paul's letters as well as his theology. As a result, a variety of methods are brought to an examination of Paul. These include explorations in social scientific methodology, close readings of Paul's letters, and linguistically informed approaches to social relations. The conclusions well illustrate the importance of Paul's social relations and his own social connectedness.

Atrocities Matthew White, 2011-10-31 An amusing, really, account of the murderous ways of despots, slave traders, blundering royals, gladiators, and assorted hordes. *New York Times*. Evangelists of human progress meet their opposite in Matthew White's epic examination of history's one hundred most violent events, or, in White's piquant phrasing, the numbers

that people want to argue about Reaching back to the Second Persian War in 480 BCE and moving chronologically through history White surrounds hard facts time and place and succinct takeaways who usually gets the blame with lively military social and political histories

Martyrdom and Memory Elizabeth Castelli, 2004-10-15 Martyrs are produced Elizabeth Castelli suggests not by the lived experience of particular historical individuals but by the stories that are later told about them And the formulaic character of stories about past suffering paradoxically serves specific theological cultural or political ends in the present Martyrdom and Memory explores the central role of persecution in the early development of Christian ideas institutions and cultural forms and shows how the legacy of Christian martyrdom plays out in today's world In the pre-Constantinian imperial period the conflict between Roman imperial powers and the subject Christian population hinged on competing interpretations of power submission resistance and victory This book highlights how both Roman and Christian notions of law and piety deployed the same forms of censure and critique each accusing the other of deviations from governing conventions of gender reason and religion Using Maurice Halbwachs's theoretical framework of collective memory and a wide range of Christian sources autobiographical writings martyrologies and saints' lives sermons art objects pilgrimage souvenirs and polemics about spectacle Castelli shows that the writings of early Christians aimed to create public and ideologically potent accounts of martyrdom The martyr's story becomes a usable past and a living tradition for Christian communities and an especially effective vehicle for transmitting ideas about gender power and sanctity An unlikely legacy of early Christian martyrdom is the emergence of modern martyr cults in the wake of the 1999 shootings at Columbine High School Focusing specifically on the martyr cult associated with one of the victims Martyrdom and Memory argues that the Columbine story dramatically expresses the ongoing power of collective memory constructed around a process of rendering tragic suffering redemptive and meaningful In the wake of Columbine and other contemporary legacies of martyrdom's ethical ambivalence the global impact of Christian culture making in the early twenty-first century cannot be ignored For as the last century's secularist hypothesis sits in the wings religion returns to center stage with one of this drama's most contentious yet riveting stars the martyr
