Spectacular China:

Spectacular China Nigel Cameron,1997 Since Marco Polo first returned from the Far East in 1295 with exotic treasures and wondrous stories China has fascinated the West For this unique publishing co venture the China Tourist Press has collected a lifetime of works from the very best Chinese photographers seen together in book form for the first time of foldouts in which each image expands to nearly four feet wide □□□□ Guangwei He,Nigel Cameron,1997 **China's Quest for Global Dominance** Maj Gen P JS Sandhu,2011-10-11 Today the whole world is watching China with great interest and that includes India China has been termed a threat a challenge an opportunity a concern a competitor the next superpower a global player and many more things It depends who is looking at it and from where In 2009 United Service Institution USI of India decided to commence a five years study programme on China Towards that end we held the National Security Seminar 2009 titled Rising China Opportunity or Strategic Challenge on 25 26 November 2009 Its proceedings have been published in the form of a book This seminar on Chinas Quest for Global Dominance Reality or Myth is a continuation of the above study It focused on China s grand strategy economic future military capability and PLA s modernisation and an assessment of China s strategic posture China Geopolitics ARTUR VICTORIA,2025-07-01 The country is determined to innovate and open up in order to explore new ideas new models and new paths for international development cooperation drawing on the successful experience of other countries and international organisations actively participating in multilateral development cooperation Through its joint work with the international community it participates in the implementation of the United Nations 2030 Agenda for Sustainable Development and supports the efforts of developing countries to achieve sustainable development The country is a global industrial powerhouse known for its large scale production of consumer goods electronics textiles and industrial equipment Its large workforce investment in infrastructure and export oriented policies have made it an important export and manufacturing centre for multinational companies China advocates results orientated cooperation and efficiently and pragmatically attaches great importance to the effectiveness and sustainability of projects committing itself to improving the quality and efficiency of international development cooperation in order to achieve tangible results that benefit the world s population With its economy China has become a key player on the world stage Its exponential growth and industrialisation have led to its emergence as a major economic power rivalling other countries This situation has not only changed the world s geopolitical landscape but has also had a profound impact on international relations China s economic transformation a narrative of impressive speed and scale is fundamentally linked to its growth strategy This approach meticulously crafted and tirelessly pursued has seen it go from a largely agrarian economy to the second largest economy in the world in just a few decades Understanding this strategy is essential to understanding the nation s remarkable rise and its profound impact on world geopolitics China and India Jonathan Holslag,2010-01-22 For all their spectacular growth China and India must still lift a hundred million citizens out of poverty and create jobs for the

numerous laborers Both powers hope trade and investment will sustain national unity For the first time Jonathan Holslag identifies these objectives as new sources of rivalry and argues that China and India cannot grow without fierce contest Though he recognizes that both countries wish to maintain stable relations Holslag argues that success in implementing economic reform will give way to conflict This rivalry is already tangible in Asia as a whole where shifting patterns of economic influence have altered the balance of power and have led to shortsighted policies that undermine regional stability Holslag also demonstrates that despite two decades of peace mutual perceptions have become hostile and a military game of tit for tat promises to diminish prospects for peace Holslag therefore refutes the notion that development and interdependence lead to peace and he does so by embedding rich empirical evidence within broader debates on international relations theory His book is down to earth and realistic while also taking into account the complexities of internal policymaking The result is a fascinating portrait of the complicated interaction among economic political military and perceptual levels of diplomacy
