Albrecht, 1997-08-14 Well known authors present not only their own theories of human communication but also describe from personal vantage points the process by which they constructed their theories The authors narratives of their experiences in posing formulating and empirically investigating their questions provide invaluable instructional models for current students The vitality of this book derives from the communal focus on the theory and practice of language and other means of communicative conduct Each chapter is concerned with the pragmatics of human communication and describes an original and systematic study of the phenomena with recourse to data Together these chapters represent a range of important contemporary directions in communication studies **The Art of Positive Communication** Julien C. Mirivel, 2014 How we communicate with each other matters greatly Our identity our friendships and marriages our families and our culture are the product of how we

speaking to one another. Our words affect our hopes and dreams as well as those of our children. We insult, complain, or criticize. We compliment, offer support, and inspire. These are choices that take place in the crevices of our most private and public conversations with others. This book bridges communication theory and practice to foreground an important message: positive communication matters. By examining closely how people talk to each other at home or at work, this book enables undergraduate and graduate students to communicate more positively. *The Art of Positive Communication* is an ideal text for undergraduate and graduate students enrolled in interpersonal communication courses and as a supplemental text to inspire all students to communicate better.

Effective Group Discussion: Theory and Practice Gloria Galanes, Katherine Adams, 2009-02-23. Combining the most recent research findings with the practical tools students need to become productive group members, this leading text covers secondary groups of all kinds: work groups, committees, task forces, self-directed work teams, and other small groups whose objectives include finding solutions to problems, producing goods, and creating policies.
