## **Stuttering Therapy Transfer And Maintenance Pb 19852nd Ed:**

*Stuttering Therapy*, 1983 This volume contains six papers presented by speech therapists at a conference dealing with principles and procedures that are crucial to transfer and maintenance of the modification of stuttering and the production of increased fluency E G Conture in *The General Problem of Change* addresses some of the general issues which affect the transfer of speech improvement skills learned during speech therapy to speech incidents outside of the therapeutic environment In *Working with Children in the School Environment* D E Williams considers ways to accomplish and some of the problems associated with transfer and maintenance in stuttering therapy for elementary school aged children The third paper *Behavioral Transfer and Maintenance Programs for Adolescent and Adult Stutterers* by E Boberg discusses the rationale and strategies used in transfer and maintenance programs for adults and adolescents An *Alternative to Automatic Fluency* by W H Perkins considers the question of automaticity of fluent speech and whether it can be achieved and maintained through speech therapy In *Body Concept Self Concept and Balance* E Versteegh Vermeij encourages the added dimension of body awareness individual needs and self concept development in speech therapy programs J G Sheehan *Relapse and Recovery from Stuttering* identifies sources and causes of relapse in stuttering and ways in which to make these factors work in favor of the stutterer A final commentary paper by H H Gregory highlights topics discussed at the conference including attitude change acceptance therapy intervention and maintenance CB

**Programmed Therapy FOR STUTTERING in Children and Adults** Bruce P. Ryan, 2001-01-01 The goal of this book is to call attention to a systematic scientific approach to studying and treating stuttering via the strategies of operant conditioning learning theory and single subject research design Another purpose is to present the data collected and or published over the past 30 years in one place for evaluation and comparison This new edition starts with a brief introductory chapter including the basic principles of operant analysis Chapter 2 covers the mechanics of charting counting and computing stuttering and speaking rates Chapter 3 describes evaluation with both new data and forms Chapter 4 is on programming and Chapter 5 highlights the two present major establishment programs Delayed Auditory Feedback DAF Prolongation and Gradual Increase in Length and Complexity of Utterance GILCU Chapter 6 discusses transfer and maintenance programs and follow up while Chapter 7 presents long term individual client performances in several programs Chapter 8 covers the preschool stuttering child and Chapter 9 describes efforts at and results of dissemination through training Chapter 10 is a summary of efficacy data published over recent years and Chapter 11 provides conclusions discussion of problems and suggested directions for future clinical research Because it uniquely combines behavior modification remediation of a well known but perplexing disorder and the most up to date clinical research this outstanding new edition will serve as a great resource to anyone involved in the treatment of speech disorders

**Approaches to the Treatment of Stuttering** Peggy Dalton, 2018-10-26 In the years prior to publication cures for stuttering seemed to appear constantly but many were of limited value were poorly evaluated and

gave only a temporary alleviation that was not transferred to daily life More responsible clinicians produced publications expounding one particular approach to therapy but less was available giving a balanced overview which was of practical help to therapists Originally published in 1983 this book aimed to provide such an overview with a focus on practical intervention rather than on theory The need for careful assessment is particularly stressed and also the need for flexibility in the choice of treatment for any one client Changes in fluency are looked at in relation to the effects they might have on the person s life as a whole and factors involved in the maintenance of this change are discussed In addition adjuncts to speech therapy such as drugs hypnosis and various forms of masking are evaluated Issues of the training of therapists are raised and suggestions made as to the nature of the therapeutic relationship when working with people who stutter *Therapy of Stuttering* Richard Ham,1990 Facilitating Transfer and Maintenance in School-age Children who Stutter allison Mei-Li Wong,2014 This report was developed to a enhance the clinician s understanding of transfer and maintenance as it relates to stuttering b explore the unique challenges that face the school aged population c examine research outside of the field that may be of benefit for school aged stuttering clients and d provide the clinician with examples and activities that will facilitate the transfer and maintenance of stuttering treatment The report will include a brief discussion of transfer and maintenance The remainder of the report will focus on facilitating transfer and maintenance by increasing motivation self efficacy realistic goal setting and self regulation
