director *American Anti-Pastoral* Thomas Gustafson,2024-06-14 One of the best known novels taking place in New Jersey Philip Roth's 1997 *American Pastoral* uses the fictional hamlet of Old Rimrock NJ as a microcosm for a nation in crisis during the cultural upheavals of the 1960s 70s Critics have called Old Rimrock mythic but it is based on a very real place the small Morris county town of Brookside New Jersey *American Anti Pastoral* reads the events in Roth's novel in relation to the history of Brookside and its region While Roth's protagonist Seymour Swede Levov initially views Old Rimrock as an idyllic paradise within the Garden State its real world counterpart has a more complex past in its origins as a small industrial village as well as a site for the politics of exclusionary zoning and a 1960s anti war protest at its celebrated 4th of July parade Literary historian and Brookside native Thomas Gustafson casts Roth's canonical novel in a fresh light as he studies both Old Rimrock in comparison to Brookside and the novel in relationship to NJ literature making a case for it as the Great New Jersey novel For Roth fans and history buffs alike *American Anti Pastoral* peels back the myths about the bucolic Garden State countryside to reveal deep fissures along the fault lines of race and religion in American democracy **Translation and Music** Sebnem Susam-Sarajeva,2016-04-08 Popular and multimodal forms of cultural products are becoming increasingly visible within translation studies research Interest in translation and music however has so far been relatively limited mainly because translation of musical material has been considered somewhat outside the limits of translation studies as traditionally conceived Difficulties associated with issues such as the musicality of lyrics the fuzzy boundaries between translation adaptation and rewriting and the pervasiveness of covert or unacknowledged translations of musical elements in a variety of settings have generally limited the research in this area to overt and canonized translations such as those done for the opera Yet the intersection of translation and music can be a fascinating field to explore and one which can enrich our understanding of what translation is and how it relates to other forms of expression This special issue is an attempt to open up the field of translation and music to a wider audience within translation studies and to an extent within musicology and cultural studies The volume includes contributions from a wide range of musical genres and languages from those that investigate translation and code switching in North African rap and rai and the intertextual and intersemiotic translations revolving around Mahler's lieder in Chinese to the appropriation and after life of Kurdish folk songs in Turkish and the emergence of rock n roll in Russian Other papers examine the reception of Anglo American stage musicals and musical films in Italy and Spain the concept of singability with examples from Scandinavian languages and the French dubbing of musical episodes of TV series The volume also offers an annotated bibliography on opera translation and a general bibliography on translation and music Chinese Film Jason McGrath,2023-01-31 A tour de force chronicling the development of realism in Chinese cinema The history of Chinese cinema is as long and complicated as the tumultuous history of China itself Be it the silent the Communist or the contemporary each Chinese cinematic era has necessitated its own form in conversation with broader trends in politics and culture In *Chinese Film* Jason McGrath tells this fascinating story by tracing the varied claims

to cinematic realism made by Chinese filmmakers officials critics and scholars Understanding realism as a historical dynamic that is both enabled and mitigated by aesthetic conventions of the day he analyzes it across six different types of claims ontological perceptual fictional social prescriptive and apophatic Through this method McGrath makes major claims not just about Chinese cinema but also about realism as an aesthetic form that negotiates between cultural conventions and the ever evolving real He comes to envision it as more than just a cinematic question showing how the struggle for realism is central to the Chinese struggle for modernity itself

Women and Home in Cinema Louise Radinger Field, 2024-03-14 This book explores visions of home in cinema and the ways in which women inhabit the onscreen realm Looking closely at a range of films made between 1936 and 2013 it examines how filmmakers reconfigure studio sets and real locations through the filmmaking process into mutable onscreen domains imbued with depth metaphor and expressivity The book studies the films through the lens of four filmmaking processes in particular d coupeage mise en sc ne sound and editing Close analysis reveals how filmmakers use these cinematic building blocks to shape onscreen worlds charged with emotion and animated by the warp and weft of psychic life Images of home abound in the cinema and women frequently find themselves at the core of both structures Drawing on recent spatial and feminist enquiry the book reviews the idea of home as a fixed and stable location and illustrates how the art of cinema is well equipped to explore home as an imaginary as well as a material realm With its emphasis on film practice as a route into critical reflection this book will be of interest to filmmakers film theorists and those who simply want to understand more about how films work
