Everyday Life in British Government R. A. W. Rhodes, 2011-04-21 As citizens why do we care about the everyday life of ministers and civil servants We care because the decisions of the great and the good affect all our lives for good or ill For all their personal political and policy failings and foibles they make a difference So we want to know what ministers and bureaucrats do why and how We are interested in their beliefs and practices In his fascinating piece of political anthropology Rod Rhodes uncovers exactly how the British political elite thinks and acts Drawing on unprecedented access to ministers and senior civil servants in three government departments he answers a simple question what do they do On the basis of extensive fieldwork supplemented by revealing interviews he tries to capture the essence of their everyday life He describes the ministers and permanent secretaries world through their own eyes and explores how their beliefs and practices serve to create meaning in politics policy making and public service delivery He goes on to analyze how such beliefs and practices are embedded in traditions in webs of protocols rituals and languages The story he has to tell is dramatized through in depth accounts of specific events to show ministers and civil servants in action He challenges the conventional constitutional institutional and managerial views of British governance Instead he describes a storytelling political administrative elite with beliefs and practices rooted in the Westminster model which uses protocols and rituals to domesticate rude surprises and cope with recurrent dilemmas

Ministry of Overseas Development. Library,1973 **The Way the Money Goes** Christopher Hood,Maia King,Iain McLean,Barbara Maria Piotrowska,2023-09-28 The Way the Money Goes traces out what happened to the UK s fiscal constitution the framework for planning and controlling public spending under three different governments Conservative Labour Conservative Liberal Democrat from the early 1990s to the mid 2010s The book tells the story of what happened under each government and combines narrative with vignettes that range from the funding of a new Treasury building to efforts to crowdsource ideas for spending cuts It also includes chapters devoted to different domains of spending control namely capital spending spending by subnational governments running cost expenditure fiscal forecasting and the development of new accounting metrics This book is based on over 120 in depth interviews of civil servants and ministers who were involved in public spending over the period as well as documents from the same timeframe It explores how and why despite much talk of change and reform in everything from parliamentary procedure to bureaucratic processes many of the underlying features of the UK s fiscal constitution persisted including arrangements for formula funding of the different countries within the union designed as a temporary stopgap in the transition to devolution To put UK developments into

perspective the book includes a discussion of how the UK system was rated in reports from international bodies over the period which suggests that in such exercises the more political parts of the fiscal constitution were rated differently from the more technocratic parts. Given several volcanic type political eruptions in the UK over recent years the book concludes by exploring some different possible scenarios for the future of its fiscal constitution in the light of those and other possible eruptions to come. *Public administration*, 1977

Centre and Provinces: China 1978-93 Linda Chelan Li, 1998-05-14 Centre and Provinces China 1978 93 goes beyond the dominant state capacity paradigm to argue for an interactive model to explain the political relations between the central and provincial governments in contemporary China. The uni dimensional centrist perspective of the state capacity paradigm has failed to adequately explain the coexistence of central and provincial power and to anticipate circumstances of change. In this book a hybrid rational choice cum institutional approach highlights the mutual power of both the Centre and the provinces each party the Centre or the provinces imposes structural constraints upon the other. Power is not a zero sum game. The cases of Shanghai and Guangdong important resourceful provinces under very different central policy contexts contrast possible interactions between central policy and provincial choice. Conflicts amidst a context of mutual dependence necessitate compromise on both sides and qualitative changes to centre province relations as a result may well have long term implications for wider political processes.
