Selected Poems Patrick Longe, 2009-11-24 a philosophical thread through the underpinnings of one man's outlook on the mind's journey a voice so wrangled you can almost hear the tone and emphasis give shape to meaning *On Bathos* Sara Crangle, Peter Nicholls, 2010-07-22 While the sublime has garnered a great deal of critical attention over the past twenty years its counterpart bathos has yet to receive any extended treatment Generally understood as an inadvertent descent to the low vulgar and ludicrous in writing or art the term bathos was popularised by Pope who used it to satirise his contemporaries Ironically likening bathos to the depths of profundity Pope lauded his peers for their influential writings whilst openly deriding their absurd misuses of figure and rhetorical device Pope's method proved prophetic today artists regularly celebrate and incorporate bathetic practice This essay collection considers how bathos has become so central to literature fine art and music The innovative and diverse contributions assess the consequences of this endemic inversion of aesthetic standards and consider where artistic production might go after hitting and so comfortably inhabiting rock bottom

Hermathena , 1911 *The English Novel, Vol II* Richard. W. F. Kroll, 2014-07-21 The English Novel Volume II Smollett to Austen collects a series of previously published essays on the early eighteenth century novel in a single volume reflecting the proliferation of theoretical approaches since the 1970s The novel has been the object of some of the most exciting and important critical speculations and the eighteenth century novel has been at the centre of new approaches both to the novel and to the period between 1750 and 1800 Richard Kroll's introduction seeks to frame the contributions by reference to the most significant critical discussions These include the general importance of sentimentalism as a cultural movement after 1750 its relationship to the emergence of the Gothic novel as a specific genre or mode the rapid rise in the number of women novelists in the later eighteenth century the relationship between the novel as mediator of social relations and the idea of the public sphere the relationship between novelistic codes and the massive growth of a consumerist society the class conflicts of writers like Smollett the effect on the novel of the new British nation and the effects of the French Revolution and the subsequent political debates on writers like Wollstonecraft Godwin and Austen This collection will be of interest to students of the later enlightenment and also to all who are interested in late eighteenth century radicalism and the general relationship between literature history and politics *Critical Moments in Classical Literature* Richard Hunter, 2009-05-28 Through a series of innovative critical readings Richard Hunter builds a picture of how the ancients discussed the meaning of literary works and their importance in society He pays particular attention to the interplay of criticism and creativity by not treating criticism in isolation from the works which the critics discussed Attention is given both to the development of a history of criticism as far as our sources allow and to the constant recurrence of similar themes across the centuries At the head of the book stands the contest of Aeschylus and Euripides in Aristophanes' *Frogs* which foreshadows more of the subsequent critical tradition than is often realised Other chapters are devoted to ancient reflection on Greek and Roman

Cogito and the Unconscious Slavoj Zizek, 1998-04-08 The Cartesian cogito the principle articulated by Descartes that I think therefore I am is often hailed as the precursor of modern science At the same time the cogito s agent the ego is sometimes feared as the agency of manipulative domination responsible for all present woes from patriarchal oppression to ecological catastrophes Without psychoanalyzing philosophy Cogito and the Unconscious explores the vicissitudes of the cogito and shows that psychoanalyses can render visible a constitutive madness within modern philosophy the point at which I think therefore I am becomes obsessional neurosis characterized by If I stop thinking I will cease to exist Noting that for Lacan the Cartesian construct is the same as the Freudian subject of the unconscious the contributors follow Lacan s plea for a psychoanalytic return to the cogito Along the path of this return they examine the ethical attitude that befits modern subjectivity the inherent sexualization of modern subjectivity the impasse in which the Cartesian project becomes involved given the enigmatic status of the human body and the Cartesian subject s confrontation with its modern critics including Althusser Bataille and Dennett In a style that has become familiar to i ek s readers these essays bring together a strict conceptual analysis and an approach to a wide range of cultural and ideological phenomena from the sadist paradoxes of Kant s moral philosophy to the universe of Ayn Rand s novels from the question Which if any is the sex of the cogito to the defense of the cogito against the onslaught of cognitive sciences Challenging us to reconsider fundamental notions of human consciousness and modern subjectivity this is a book whose very Lacanian orthodoxy makes it irreverently transgressive of predominant theoretical paradigms Cogito and the Unconscious will appeal to readers interested in philosophy psychoanalysis cultural studies and theories of ideology Contributors Miran Bozovic Mladen Dolar Alain Grosrichard Marc de Kessel Robert Pfaller Renata Salecl Slavoj i ek Alenka Zupancic

Critical Discourses of the Fantastic, 1712-1831 David Sandner, 2016-04-22 Challenging literary histories that locate the emergence of fantastic literature in the Romantic period David Sandner shows that tales of wonder and imagination were extremely popular throughout the eighteenth century Sandner engages contemporary critical definitions and defenses of eighteenth and early nineteenth century fantastic literature demonstrating that a century of debate and experimentation preceded the Romantic s interest in the creative imagination In The Fairy Way of Writing Joseph Addison first defines the literary use of the supernatural in a modern and rational age Other writers like Richard Hurd James

Beattie Samuel Johnson James Percy and Walter Scott influence the shape of the fantastic by defining and describing the modern fantastic in relation to a fabulous and primitive past As the genre of the purely imaginary Sandner argues the fantastic functions as a discourse of the sublime imagination albeit a contested discourse that threatens to disrupt any attempt to ground the sublime in the realistic or sympathetic imagination His readings of works by authors such as Ann Radcliffe William Beckford Horace Walpole Mary Shelley Walter Scott and James Hogg not only redefine the antecedents of the fantastic but also offer a convincing account of how and why the fantastic came to be marginalized in the wake of the Enlightenment
