Submarine Diary:

Submarine Diary Corwin Mendenhall, 2013-07-31 A vividly detailed account of life aboard U S submarines in the Pacific during World War II **Submarine Diary** Corwin Mendenhall, 1995 *The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual* Ron Martini, 2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal **Fremantle's Submarines** Michael Sturma, 2015-09-15 From unpromising beginnings in March 1942 the Allied submarine base at Fremantle on the west coast of Australia became a vital part of the Allied offensive against Japan Pushed back from the Philippines and the Netherlands East Indies American submariners accompanied by a small group of Dutch forces retreated to Fremantle as a last resort The location was chosen for its good harbor and the fact that it was outside the range of land based Japanese aircraft Unfortunately the base was also far from their patrol areas and supply lines and it was difficult to reinforce should the enemy attack Thanks largely to a welcoming civilian population morale quickly improved The hospitality and sense of belonging fostered by Western Australians became legendary among Allied submariners and remains central to their wartime memories Perhaps as a result of such a positive experience the Allied forces became much more successful in combat Intertwining social and military history Fremantle's Submarines relates how courage cooperation and community made Fremantle arguably the most successful military outpost of World War II from the standpoint of troop morale **The Submarine Pioneers** Richard Compton-Hall, 2003 This witty and perceptive account of the early years of submarine development contains much new material and the lives of the forgotten pioneers of submarines It includes many wonderful inventions and even more colourful inventors but focuses primarily on John Philip Holland the Irish American genius who took submarine development out of the hands of lunatics and visionaries and turned it into a deadly weapon of war **Dive! World War II Stories of Sailors & Submarines in the Pacific (Scholastic Focus)** Deborah Hopkinson, 2016-09-27 Sibert Honor author Deborah Hopkinson paints a vivid portrait of the deadly battles that raged in the Pacific during WWII and the remarkable courage of the US submarine sailors who fought them Dive World War II Stories of Sailors Submarines in the Pacific tells the incredible story of America's little known war within a war US submarine warfare during World War II Following the attack on Pearl Harbor the US entered World War II in December 1941 with only 44 Naval submarines many of them dating from the 1920s With the Pacific battleship fleet decimated after Pearl Harbor it was up to the feisty and heroic sailors aboard the

US submarines to stop the Japanese invasion across the Pacific Including breakouts highlighting submarine life and unsung African American and female war heroes award winning author Deborah Hopkinson uses first person accounts archival materials official Naval documents and photographs to bring the voices and exploits of these brave service members to life

The Submarine Has No Friends Douglas E. Campbell, Charles R. Hinman, 2019-07-23 At last count more than 80 U S submarines recorded some type of actual friendly fire incident in which they were involved during their WWII war patrols From being attacked by Allied bombers depth charged by U S ships or fired upon by armed Allied merchant ships submariners quickly came to understand the bitter truth of the maxim The submarine has no friends While the majority of submarines and their crew escaped with little more than bruised egos or minor injuries three submarines and their crews were lost to friendly fire For the first time in book format a serious and most comprehensive research effort has gone into capturing all such friendly fire incidents involving U S submarines during World War II Compiled through relentless research by the co authors their stories of loss and survival by other than the enemy is presented within these pages

USS Pampanito Gregory F Michno, 2016-01-12 Most World War II submarine stories are glorifications of war written by submarine captains about their own boats But the USS Pampanito was not a typical submarine The sub and its crew caused plenty of destruction but they found the pinnacle of their honor and fame in a dramatic sea rescue Gregory F Michno relates the experiences of the crewmen both enlisted men and officers who served on the USS Pampanito The Pampanito story begins with the boat s construction in 1943 continues through its six combat missions and concludes with its decommissioning after the war in 1945 The heart of the book is the September 12 1944 attack on a Japanese convoy carrying English and Australian POWs from the Burma Siam Railway of Bridge on the River Kwai fame to prison camps in Japan The Pampanito helped sink two of the prison ships unwittingly killing hundreds of Allied soldiers but then returned to rescue the survivors The crew picked a record seventy three men from the sea

Anti-Submarine Warfare David Owen, 2007-11-15 The submarine was undoubtedly the most potent purely naval weapon of the twentieth century In two world wars enemy underwater campaigns were very nearly successful in thwarting Allied hopes of victory indeed annihilation of Japanese shipping by US Navy submarines is an indicator of what might have been That the submarine was usually defeated is a hugely important story in naval history yet this is the first book to treat the subject as a whole in a readable and accessible manner It concerns individual heroism and devotion to duty but also ingenuity technical advances and originality of tactical thought What developed was an endless battle between forces above and below the surface where a successful innovation by one side eventually produces a counter measure by the other in a lethal struggle for supremacy Development was not a straight line wrong ideas and assumptions led to defeat and disaster

Death at a Distance Michael Sturma, 2013-07-31 Only seven U S submariners earned the Medal of Honor in World War II Sam Dealey the USS Harder s commander was one of them His honor was awarded posthumously after the entire crew was lost off Bataan during a depth charge attack in

August 1944 by a Japanese convoy The Harder's fighting spirit is legendary and its record of sinking a total of eighteen enemy ships with a tonnage in excess of 55 000 made Dealey one of the top five submarine skippers in the war During a single patrol his crew sank five enemy destroyers in five short range torpedo attacks an unprecedented feat In addition the Harder played important roles in rescue missions extracting secret operatives deep in enemy territory and saving downed pilots Drawing on previously untapped sources Michael Sturma an Australian teaching at Murdoch University details several daring missions one that involved the heroic Australian commando Bill Jenkins and puts the Harder's action in the context of the overall Pacific campaign In doing so the author adds not only significant information to the Harder's story but also provides a fresh perspective on the submarine war Tin-Pots and Pirate Ships Michael L. Hadley, Roger Flynn Sarty, 1991 The title Tin Pots and Pirate Ships reflects a common Canadian attitude during the First World War Canada's Tin Pot Navy was maligned while the Kaiser's Pirates were feared Not since Gilbert Tucker's classic The Naval Service of Canada has there been so comprehensive a study of the origins of the Canadian Navy and no previous study has examined those origins from the perspective of the Canadian Navy's response to the German threat **Escape from the Deep** Alex Kershaw, 2009-04-14 Their submarine was dead one hundred and eighty feet below the surface of the Pacific Ocean Somehow they survived They were tortured and beaten Somehow they survived Alex Kershaw has done it again as he brings to life World War II's greatest submarine survival adventure James Bradley author of *Flags of Our Fathers* and *Flyboys* In the early morning hours of October 24 1944 the legendary U S Navy submarine Tang was hit by one of its own faulty torpedoes The survivors of the explosion struggled to stay alive one hundred eighty feet beneath the surface while the Japanese dropped deadly depth charges As the air ran out some of the crew made a daring ascent through the escape hatch In the end just nine of the original eighty man crew survived But the survivors were beginning a far greater ordeal After being picked up by the Japanese they were sent to an interrogation camp known as the Torture Farm When they were liberated in 1945 they were close to death but they had revealed nothing to the Japanese including the greatest secret of World War II With the same heart pounding narrative drive that made *The Bedford Boys* and *The Longest Winter* national bestsellers Alex Kershaw brings to life this incredible story of survival and endurance **Fatal Dive** Peter Stevens, 2012-07-30 Discusses how the family of Commander Jim Abele found the long lost USS Grunion a Naval submarine that disappeared in 1942 **Publications** United States. Office of Naval Records and Library, 1920 Publication , 1920 *The Submarine Service, 1900-1918* Nicholas Lambert, 2020-11-26 The year 2001 marks the centenary of the Royal Navy's submarine service In the aftermath of the 2016 celebrations of the Battle of Jutland centenary it is worth considering how the First World War at sea changed This volume opens with an examination of the background to the Board of Admiralty's decision in 1900 to buy submarines bringing to light documents that go a long way toward dispelling the myth that Britain's pre 1914 naval leaders were opposed to the development of the submarine as a major weapon Indeed the documents show that senior naval officers and

influential civilians in Whitehall believed that the advent of the submarine would revolutionize naval warfare in a way that would bolster the Royal Navy's position as the world's predominant naval power. This edited selection of documents illustrates not only the Admiralty's thinking on the employment of the submarine between 1900 and 1918; it also charts the technical development of British submarines and explains issues such as why the pioneer submariners came to regard themselves as an elite group within the Royal Navy and were allowed to become the silent service.

Torpedo Junction

Homer H. Hickam, 1996-05-03. In 1942, German U-boats turned the shipping lanes off Cape Hatteras into a sea of death. Cruising up and down the U.S. eastern seaboard, they sank 259 ships, littering the waters with cargo and bodies. As astonished civilians witnessed explosions from American beaches, fighting men dubbed the area Torpedo Junction. And while the U.S. Navy failed to react, a handful of Coast Guard sailors scrambled to the front lines. Outgunned and outmaneuvered, they heroically battled the deadliest fleet of submarines ever launched. Never was Germany closer to winning the war. In a moving ship-by-ship account of terror and rescue at sea, Homer Hickam chronicles a little-known saga of courage, ingenuity, and triumph in the early years of World War II. From nerve-racking sea duels to the dramatic ordeals of sailors and victims on both sides of the battle, Hickam dramatically captures a war we had to win because this one hit terrifyingly close to home.

Power at Sea Lisle A. Rose, 2007. Volume 1. Traces the social issues, technological advances, and combative encounters of the international naval race from 1890 through WWI as the largest industrial nations—U.S., Great Britain, Japan, and Germany—scrambled to secure global markets and empire using their battleship navies as pawns of power politics. Provided by publisher.

Red Star Rogue Kenneth Sewell, Clint Richmond, 2005-10-01. This riveting New York Times bestseller tells of the shocking true story of a rogue Soviet submarine poised for a nuclear strike on the United States, revealing the explosive facts about one of the best-kept secrets of the Cold War. The Flint Journal. On March 7, 1968, several hundred miles northwest of Hawaii, the nuclear-armed K-129 surfaced and sunk, taking its crewmen and officers with it to perish at sea. Who was commanding the rogue Russian sub? What was its target? How did it infiltrate American waters undetected? Drawing from recently declassified documents and extensive confidential interviews, Navy veteran Kenneth Sewell exposes the stunning truth behind an operation calculated to provoke war between the United States and China. With full authoritative detail and sixteen pages of exclusive photographs, *Red Star Rogue* illuminates this history-shaping event and rings with chilling relevance in light of today's terrorist threats.

Surface and Destroy Michael Sturma, 2011-03-25. World War II submariners rarely experienced anything as exhilarating or horrifying as the surface gun attack. Between the ocean floor and the rolling whitecaps above, submarines patrolled a dark abyss in a fusion of silence, shadows, and steel, firing around eleven thousand torpedoes, sinking Japanese men-of-war and more than one thousand merchant ships. But the anonymity and simplicity of the stealthy torpedo attack hid the savagery of warfare, a stark difference from the brutality of the surface gun maneuver. As the submarine shot through the surface of the water, confined sailors scrambled through the hatches, armed

with large caliber guns and met the enemy face to face Surface and Destroy The Submarine Gun War in the Pacific reveals the nature of submarine warfare in the Pacific Ocean during World War II and investigates the challenges of facing the enemy on the surface The surface battle amplified the realities of war bringing submariners into close contact with survivors and potential prisoners of war As Japan s larger ships disappeared from the Pacific theater American submarines turned their attention to smaller craft such as patrol boats schooners sampans and junks Some officers refused to attack enemy vessels of questionable value while others attacked reluctantly and tried to minimize casualties Michael Sturma focuses on the submariners reactions and attitudes toward their victims exploring the sailors personal standards of morality and their ability to wage total war Surface and Destroy is a thorough analysis of the submariner experience and the effects of surface attacks on the war in the Pacific offering a compelling study of the battles that became intolerably personal
