Submarine Warfare Today Tomorrow:

Submarine Warfare John Evelyn Moore, Richard Compton-Hall, 1986 Anti-Submarine Warfare David Owen, 2007-11-15

A deep dive into the tactics and technology used to defend against submarines from the opening of the First World War through World War II and beyond The submarine was undoubtedly the most potent purely naval weapon of the twentieth century In two world wars enemy underwater campaigns were very nearly successful in thwarting Allied hopes of victory indeed annihilation of Japanese shipping by US Navy submarines is an indicator of what might have been That the submarine was usually defeated is a hugely important story in naval history yet this is the first book to treat the subject as a whole in a readable and accessible manner It concerns individual heroism and devotion to duty but also ingenuity technical advances and originality of tactical thought What developed was an endless battle between forces above and below the surface where a successful innovation by one side eventually produces a countermeasure by the other in a lethal struggle for supremacy Development was not a straight line wrong ideas and assumptions led to defeat and disaster Iconography with dozens of photographs and often large format diagrams a vast bibliography and a complete and documented general approach make this volume a work of great quality and of great interest for all enthusiasts and scholars of this very interesting subject Storia Militare The modeller will not only find the text engaging but there is a superb collection of photographs and illustrations which of course include submarines corvettes and destroyers Subjects which the modeller increasingly appreciates Highly recommended Model Boats **The Future: Warfare, military forces and technology** ,1989 **Accidental Nuclear War** Derek Paul, Michael D. Intriligator, Paul Smoker, 1990-06-01 This book constitutes the Proceedings of a meeting held in Pugwash Nova Scotia 18-20 July 1989 which was the eighteenth in a series of Workshops on Nuclear Forces held in the framework of the Pugwash Conferences on Science and World Affairs This particular series of Workshops was initiated in January 1980 that is immediately after the NATO double track decision of December 1979 that in the short run led to the deployment in Europe of new US nuclear armed missiles ground launched cruise missiles and medium range ballistic missiles Pershing II but that was also instrumental in setting into motion the process that led to the total elimination of all US and Soviet ground based missiles having ranges from 500 to 5500km **Arms Control At Sea** J Richard Hill, 2024-04-01 Originally published in 1989 this book reviews the history of maritime control measures from before the First World War and provides a critical examination of both the objectives of maritime power and the concepts of disarmament peace zones parity verifiability and peaceful co existence It argues that the objectives or maritime power are not necessarily incompatible with international security and that strategic deterrence can contribute to improved security Limitation measures it is argued can in some cases be double edged endangering other security fields and having a destabilizing effect The book stresses the need for non absolute solutions in order to achieve a reasonable level of security and makes proposals for both structural and confidence building measures along those lines *Defense Department authorization and oversight* United States.

China's Rising Sea Power Peter Howarth,2006-04-18 This is a fascinating insight into China s strategic abilities and ambitions probing the real depths of its plans for the twenty first century China s Rising Sea Power explores similarities between China s strategic outlook today and that of earlier continental powers whose submarine fleets challenged dominant maritime powers for regional hegemony Germany in two World Wars and the Soviet Union during the Cold War Using insights from classical naval strategic theory Peter Howarth examines Beijing s strategic logic in making tactical submarines the keystone of China s naval force structure He also investigates the influence of Soviet naval strategy and ancient Chinese military thought on the PLA Navy s strategic culture contending that China s increasingly capable submarine fleet could play a key role in Beijing s use of force to resolve the Taiwan issue This book will be of great interest to all students and scholars of security and strategic studies Asian politics geopolitics and military naval strategy

Future Survey Annual 1988-1989 Michael Marien,Lane Jennings,1990-01-01 BMW Z cars have carved a huge reputation for themselves in a very short time From the revolutionary and innovative Z1 of the late 1980s to the beautiful and exclusive Z8 of more recent times via the popular Z3 and its controversial replacement the Z4 the family has made BMW s name in the increasingly competitive sports car market

The Future of Sea Power Eric Grove,2021-05-30 This book first published in 1990 presents a fundamental reassessment of maritime strategy It analyses the lessons of twentieth century naval warfare and examines in detail the

changing face of naval warfare both in terms of the weapons used and the platforms from which they are launched and controlled It looks at the evolving uses of the seas both economic and military and sets sea power against the developing world environment political legal and economic discussing those factors that stimulate nations to exert power at sea and those that limit their naval capabilities It also develops a theoretical framework for future thinking about maritime strategy and forces revises and updates Mahan s classical analysis of the foundations of sea power and discusses thinking about naval tasks
