Submariners Swordrays First Three Patrols:

The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual Ron Martini, 2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal

Hot Straight and Normal Ron Martini, 2001 Hot Straight and Normal is a submarine bibliography with over 6000 references to books videos articles and Internet sources It is designed to assist researchers historians students teachers collectors and others with an interest in submarines their history construction and use in wars worldwide It's unique format of listing the books by title will assist the researcher and casual reader alike in finding or searching for familiar words and subjects Fiction book titles are also included Each listing contains title author date published publisher page count ISBN number and other informative descriptions if known This is the only submarine bibliography currently in publication The article index includes all articles in all issues of Naval Submarine League's Submarine Review and Naval Institute's Naval Proceedings magazine There are Web sites and other Internet sources listed and even information on obtaining more information through the Freedom of Information Act Also included is how to find materials inside government archives Collected and edited by a former U S submariner and member of U S Submarine Veterans Inc

Hitler's U-Boat War Clay Blair, 2010-07-21 Clay Blair's best selling naval classic Silent Victory The U S Submarine War Against Japan is regarded as the definitive account of that decisive phase of the war in the Pacific Nine years in the making Hitler's U boat War is destined to become the definitive account of the German submarine war against the Allies or The Battle of the Atlantic It is an epic sea story the most arduous and prolonged naval battle in all history For a period of nearly six years the German U boat force attempted to blockade and isolate the British Isles in hopes of forcing the British out of the war thereby thwarting the Allied strategic air assault on German cities as well as Overlord the Allied invasion of Occupied France Fortunately for the Allies the U boat force failed to achieve either of these objectives but in the attempt they sank 2 800 Allied merchant ships while the Allies sank nearly 800 U boats On both sides tens of thousands of sailors perished The top secret Allied penetration of German naval codes and conversely the top secret German penetration of Allied naval codes played important roles in the Atlantic naval battle In order to safeguard the secrets of codebreaking in the postwar years London and Washington agreed to withhold all official codebreaking and U boat records Thus for decade upon decade an authoritative and definitive history of the Battle of the Atlantic could not be attempted The accounts that did appear were

incomplete and full of errors of fact and false interpretations and conclusions often leaving the entirely wrong impression that the German U boats came within a whisker of defeating the Allies a myth that persists When London and Washington finally began to release the official records in the 1980s Clay Blair and his wife Joan commenced work on this history in Washington London and Germany They relied on the official records as well as the work of German British American and Canadian naval scholars who published studies of bits and pieces of the story The end result is this magnificent and monumental work crammed with vivid and dramatic scenes of naval actions and dispassionate but startling new revelations and interpretations and conclusions about all aspects of the Battle of the Atlantic The Blair history will be published in two volumes This first volume *The Hunters* covers the first three years of the war August 1939 to August 1942 Told chronologically it is subdivided into two major sections the War Against the British Empire and the War Against the Americas Volume II *The Hunted* to follow a year later will cover the last years of the naval war in Europe August 1942 to May 1945 when the Allies finally overcame the U boat threat Never before has Hitler's U boat war been chronicled with such authority fidelity objectivity and detail Nothing is omitted Even those who fought the Battle of the Atlantic will find no end of surprises Later generations will benefit by having at hand an account of this important phase of World War II free of bias and mythology

Swordray's First Three Patrols Clay Blair, 1980 **Atkinson's Evening Post and Philadelphia Saturday News**, 1957-05 **The Saturday Evening Post**, 1957 SCC Library has 1974 89 plus scattered issues **First Patrol** Philip L Munck, Michael J Pastore, 2020-11-16 Follow a patrol of one of the earliest ballistic missile submarines FIRST PATROL chronicles a crew's experiences during the three month period of duty in a strategic submarine patrol cycle The events occurred in the early 1960's Their submarine is one of the first five boats carrying 16 nuclear warhead Fleet Ballistic Missiles The 60 day patrol at sea starts after a month of upkeep in Scotland The story is told through the eyes of the author a young naval officer on his first submarine patrol after he had completed lengthy nuclear power and submarine training He reports to the off crew offices of his boat on the Submarine Base in Groton CT and is anguished to find he will be the Supply Officer instead of being assigned to a job operating the nuclear power plant He learns that Adm Rickover is replacing the non

nuclear trained officers on submarines with nuclear officers His concern is that he has no training in overseeing crew meals and spare parts nor does it give him the experience he needs to become a chief engineer But the job gives him daily access and insight to the crew This is a true story about a unique way of life where watch standing mixes with the human conflicts that occur when 125 men are locked in a steel tube for 60 days Starting with the first midwatch on patrol and continuing until just hours before returning to Holy Loch it is a voyage filled with equipment malfunctions including a reactor coolant leak Mission orders forbade radioing for advice and the Captain must choose between performing a complex repair or aborting the patrol The book is written in a non technical manner using first person narrative and crew member interactions to explain complex events in human terms As the author receives engineering and conning officer watch training he shows how the fledgling submariner acquires the skills and knowledge of his trade At the conclusion of the central story epilogues describing complications in trying to return home from Scotland and some of the experiences of his subsequent four patrols An extensive set of notes covering some of the technical details of nuclear submarine operations for the reader interested in exploring the subject more deeply and a glossary of terms and expressions Besides the unprecedented first day of patrol incident that put the entire mission at risk there were other major equipment failures including a reactor coolant leak loss of trim and drain pumps galley fire flooding loss of the trash ejection tube and failure of the navigation star periscope required for navigation Isolating the coolant leak required two reactor compartment entries and operating the diesel engine to provide power during the reactor shutdowns The crew performed at high levels during these crises and drills because of their intelligence and training During mundane daily routine human nature caused some to regress to frivolous actions There were many daily life situations where boredom drove some to seek to escape tension that even the recreations committee s slot machine doesn t provide The goat locker the senior enlisted men provided hilarious formal rites for Crossing the Arctic Circle and the Splice the Mainbrace party that involved the whole crew and all officers But these events only provided brief respites from patrol monotony Daily life was epitomized in the FBM submariner s mantra Patrol is 99% absolute boredom and 1% sheer terror
