Submarine Operational Effectiveness in the 20Th Century Captain John F. O'Connell,2010-06-21 A very new weapons system the lurking submarine with its self propelled torpedoes fired from ambush changed the complexion of naval warfare forever Both warships and merchant ships were at risk In 1914 U boats demonstrated their capability to sink major warships During 1915 they turned their attention to merchant ships and began to sink or capture them in wholesale lots U boats nearly won the First World War for Germany by forcing Great Britain into peace negotiations in late 1917 U boats sank or captured over 6 100 ships during WW I In April 1917 England had only six weeks grain supply left and apparently had no adequate way to deal with the unrestricted U boat offensive that Germany unleashed in February of that year Submarine Operational Effectiveness in the 20th Century deals with the first strategic submarine campaign and its outcome It goes on to outline submarine development by major nations during the 1920s and 1930s including submarine use during the Spanish Civil War It ends in 1939 on the eve of World War Two a war in which two massive submarine campaigns would be waged the first by Nazi Germany against the Allies and the second by the United States against the Empire of Japan Friend or Foe Paul Kemp,1993-09-14 During the Second World War there were over 100 instances of naval engagements between ships submarines and aircraft of the same side In the past there has often been a reluctance by the authorities to admit to these losses but with operational records now available it is possible for historians to explain how a good number of ships and submarines were attacked damaged or sunk by the forces of their own side **The Mediterranean Fleet, 1919-1929** Paul Halpern,2016-03-03 Following the end of the First World War the Mediterranean Fleet found itself heavily involved in the Eastern Mediterranean the Sea of Marmora the Black Sea and to a lesser extent the Adriatic Naval commanders were faced with complex problems in a situation of neither war nor peace The collapse of the Ottoman Russian and Habsburg empires created a vacuum of power in which different factions struggled for control or influence In the Black Sea this involved the Royal Navy in intervention in 1919 and 1920 on the side of those Russians fighting the Bolsheviks By 1920 the Allies were also faced with the challenge of the Turkish nationalists culminating in the Chanak crisis of 1922 The 1923 Treaty of Lausanne enabled the Mediterranean Fleet finally to return to a peacetime routine although there was renewed threat of war over Mosul in 1925 1926 These events are the subject of the majority of the documents contained in this volume Those that

comprise the final section of the book show the Mediterranean Fleet back to preparation for a major war applying the lessons of World War One and studying how to make use of new weapons aircraft carriers and aircraft **Argonaut** John Poluhowich,1999 From the inspired fiction of Jules Verne to the dark menace of the Cold War submarines have captivated the imaginations of millions for more than a century Many inventors have been credited for the submarine but one significant figure has been seriously overlooked Without the efforts of Simon Lake underwater navigation would be quite different from what it is today Argonaut illustrates Lake s creativity and passion **Sea Narratives: Cultural Responses to the Sea, 1600-Present** Charlotte Mathieson,2016-06-07 Sea Narratives Cultural Responses to the Sea 1600 Present explores the relationship between the sea and culture from the early modern period to the present The collection uses the concept of the sea narrative as a lens through which to consider the multiple ways in which the sea has shaped challenged and expanded modes of cultural representation to produce varied contested and provocative chronicles of the sea across a variety of cultural forms within diverse socio cultural moments Sea Narratives provides a unique perspective on the relationship between the sea and cultural production it reveals the sea to be more than simply a source of creative inspiration instead showing how the sea has had a demonstrable effect on new modes and forms of narration across the cultural sphere and in turn how these forms have been essential in shaping socio cultural understandings of the sea The result is an incisive exploration of the sea s force as a cultural presence **Special Bibliography Series** ,1957
