

The book cover features a photograph of an ancient Roman underground structure, likely a catacomb or a hidden passageway. The walls are made of brick and stone, with several arched openings leading to other parts of the structure. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the textures of the masonry. The title 'SUBTERRANEAN ROME' is printed in large, white, serif capital letters across the top half of the cover.

Subterranean Rome:

Subterranean Rome Leonard Victor Rutgers, 2000 The catacombs the long underground galleries into which the early Christian community of Rome buried its dead have always fascinated visitors to Rome Containing the graves of hundreds of thousands of early Christian believers as well as the tombs of famous martyrs and no less famous popes the catacombs are truly awe inspiring places It is here in the dark and winding galleries of these enormous subterranean cities of the dead that one encounters the earliest physical evidence of a community that changed the course of Western civilization once and for all In this long awaited book the first general study on the catacombs to appear in English in a long time readers are taken on an underground tour by one of the world s foremost specialists in catacomb archaeology In addition to providing practical information for those wishing to enter the catacombs as visitors or pilgrims this book explains how recent archaeological discoveries in the catacombs of Rome have changed and continue to change our understanding of how Rome s early Christian community expressed its faith while coping with the realities of everyday life This book is essential reading for all those wishing to possess an up to date manual on why the early Christian and the Jewish catacombs occupy a place of such central importance in the celebrations surrounding the year 2000

Roma sotterranea Ivana Della Portella, 2002 Provides a cross section that embodies the variegated panorama of subterranean Rome

Subterranean Rome Ivana Della Portella, 2000 Beneath the pavements of monumental Rome the Rome of the imperial Fora and the great basilicas lies another Rome secret and less flamboyant where everyday buildings open up to reveal unsuspected treasures of art and history This is subterranean Rome Though perhaps somewhat less magnificent or picturesque than the city above ground it is equally or even more evocative and fascinating Like a kind of Atlantis buried beneath its centuries old covering its gardens temples baths and nymphaeums tell us a story of ancient times made up of light and life but also of shadows persecution and death Here we find the mysterious temples dedicated to the cult of the god Mithras that seem to bring alive the magical atmosphere of initiation and sacrifice Here too are nymphaeums places of pleasure and physical and spiritual refreshment columbaria with their astonishing funerary architecture hypogaeums and underground passages that still preserve precious works of art beneath churches palaces and even in the basements of unpromising looking houses However subterranean Rome does not consist only of mysterious and sacred places for we also find urban and secular structures like the quarters of the Seventh Cohort of Guards or the famous Golden House the Domus Aurea With evocative photographs several published here for the first time this book reveals the hidden world of subterranean Rome guides us through the most fascinating sites in many cases previously unvisited and frequently difficult of access It represents a journey in time that explores the most ancient roots of western culture Jacket
