Kimberly L. Kempf

Suburban Burglary A Time And A Place For Everything:

Suburban Burglary George F. Rengert, John V. Wasilchick, 1985-09
Reynald, 2016-04-22 This ground breaking book examines the critical role that citizens play in guarding against crime By focusing on the ways in which residents are able to capably guard their residential environments from crime Reynald shows how local residents function or fail to function as effective crime controllers The studies contained herein are aimed at developing our theoretical empirical and practical understanding of the function of the capable guardian as a critical yet elusive actor in the crime event model In lieu of utilizing secondary data sources for proxy measures this book argues in favour of new more direct measures of guardianship employing direct methods of primary data collection in order to capture the action dimensions of capable guardianship as well as various other environmental and contextual factors that affect it It features observations of guardianship in action and interviews with guardians to elucidate the factors that empower guardians to make them capable of crime control
Principles of Geographical Offender Profiling David Canter, Donna Youngs, 2017-03-02 Geographical Offender Profiling GOP is the term that has emerged for the examination of where offences take place and the use of that examination to formulate views on the nature of the offender and where s he might be based As such it has become the cornerstone of offender profiling By its nature GOP bridges psychology geography criminology and forensic science and is of academic interest to all those disciplines as well as practical significance to police investigators This book brings together a cross section of the major papers published in the field that lay out the concepts and foundations of this area including some widely quoted but difficult to obtain classic papers with an introduction that puts the papers into an overall context and a concluding extensive bibliography of the publications relevant to this rapidly growing area

Crime Prevention Steven P. Lab, 2013-03-06 This book examines several types of crime prevention approaches and their goals including those that are designed to prevent conditions that foster deviance those directed toward persons or conditions with a high potential for deviance and those for persons who have already committed crimes This edition provides research and information on all aspects of crime prevention including the physical environment and crime neighborhood crime prevention the mass media and crime prevention crime displacement and diffusion prediction community policing drugs schools and electronic monitoring and home confinement
Classics in Environmental Criminology Martin A. Andresen, Paul J. Brantingham, J. Bryan Kinney, 2010-05-25 A careful analysis of environmental factors is key to understanding the causes of crime to solving crimes and eventually helping to predict and prevent them Classics in Environmental Criminology is a comprehensive collection of seminal pieces from legendary contributors who focus on the role that the immediate environment plays in the occurrence
After the Crime Martin S. Greenberg, R. Barry Ruback, 2012-12-06 Analyzing the findings of 20 studies involving more than 5 000 people this book explores the decision making process of the crime victim in the immediate aftermath of victimization Using a broad range of innovative research techniques the authors

assess the effects of rape robbery burglary and theft on individuals from diverse nationalities and ethnic backgrounds This work will be of value to people who work directly with crime victims and to researchers who are interested in the process of decision making under stressful circumstances *Applications of Geographical Offender Profiling* Donna Youngs,2017-03-02 Many law enforcement agencies are now analyzing where a crime is committed to develop predictions on the offender their location and other factors that could help with the investigation Known as Geographical Offender Profiling GOP this approach relies on a combination of principles and methodologies drawn from many different disciplines including psychology geography criminology and forensic science This book brings together a cross section of the major papers published in the field of GOP to explain the scope and application of GOP in different criminal contexts For the first time some widely quoted but difficult to obtain classic papers have been published together with an introduction that provides an up to the minute context and an extensive bibliography of the most relevant publications in this burgeoning area of study

Crime Analysis and Crime Mapping Rachel Boba,Rachel Boba Santos,2005-07-08 Crime analysis is an emerging profession in policing and a growing topic of interest in the criminal justice field This book offers a thorough introduction to the field as well as guidelines for its practice making it a useful asset for current and future crime analysts and police practitioners as well as for students *Criminal Psychology and Forensic Technology* Grover Maurice Godwin,2000-11-29 Offender profiling has been developing slowly as a possible investigative tool since 1841 and the publication of Edgar Allen Poe s *The Murder in the Rue Morgue* In this book detective C Auguste Dupin demonstrates the ability to follow the thought patterns of a companion while they stroll through Paris for 15 minutes without speaking a word Today *Social, Ecological and Environmental Theories of Crime* Jeffery T. Walker,2017-07-05 One of the oldest and most extensive forms of criminology falls within what is referred to among other names as social ecology Beginning with the work of Guerry and Quetelet this theory became the dominate paradigm in explaining crime with the work of the Chicago School in the early 1900s social disorganization theory and neighborhood research attempting to deal with crime in deteriorating cities Social ecology is also the basis for the research being conducted in environmental criminology This volume offers a selection of the most influential works in social ecology and environmental criminology It begins with research from human ecology and the Chicago School extending through some of the research in social disorganization theory It encompasses some of the major journal articles from the 1980s and 1990s in neighborhoods and crime and then addresses some of the quintessential works in environmental criminology It ends with groundbreaking work in this area that may indicate the future direction of the field This valuable collection includes an excellent introduction by Jeff Walker *Criminal Psychology* David Canter,2017-05-02 This thoroughly updated and revised new edition provides an essential overview of a full range of psychological contributions to the understanding of crime and the processes of dealing with offenders and helping their victims From the cognitive developmental and social processes that influence a diverse range of crimes including burglary fraud rape and murder to the

challenges faced by the police and courts in investigating crime or securing reliable testimony the text is packed with pedagogical features that bring this fascinating subject to life These include boxes highlighting key topics or issues around research methods further reading and suggested essay titles Also including chapters on rehabilitation in prisons and the psychology of victims the text examines hot topics such as gang membership and terrorism as well as discussing how psychology may better understand criminals and criminal behaviour in the future It builds to a comprehensive and accessible introduction to the field It will be ideal for students across psychology criminology and socio legal studies and law *The Ecology of Aggression* Arnold P. Goldstein, 2012-12-06 Adopting a unique situation oriented perspective this book studies the occurrence and control of aggression on the micro meso and macro levels of physical and social ecologies The wide ranging viewpoint clarifies important aspects of all forms of aggression to provide psychologists sociologists and criminologists with a powerful aid for treatment and intervention techniques

Crime Analysis with Crime Mapping Rachel Boba Santos, 2022-02-07 Crime Analysis With Crime Mapping Fifth Edition provides students and practitioners with a solid introduction to the conceptual nature and practice of crime analysis and how it assists police in crime reduction Author Rachel Boba Santos delves into this emerging field providing guidelines and techniques for conducting crime analysis supported by evidence based research real world application and recent innovations in the field As the only introductory core text for crime analysis this must have resource presents readers with opportunities to apply theory research methods and statistics to careers that support and enhance the effectiveness of modern policing *Patterns, Prevention, and Geometry of Crime* Martin A. Andresen, J. Bryan Kinney, 2012-03-15 P P Brantingham's enormous contribution to criminology has paved the way for major theoretical and empirical developments in the understanding of crime and its respective patterns prevention and geometry In this unique collection of original essays Andresen and Kinney bring together leading scholars in the field of environmental criminology to honour the work of P P Brantingham with new research on the geometry of crime patterns in crime and crime generators and attractors Chapters include new perspectives on the crime mobility triangle electronic monitoring illegal drug markets the patterns of vehicle theft for export prolific offender patterns crime rates in hotels and motels violent crime and juvenile crime A final chapter gathers together a collection of letters to P P Brantingham from key scholars reflecting on and celebrating their important contribution This volume provides essential readings for those interested in the field of environmental criminology

Measurement Issues in Criminology Kimberly L. Kempf, 2012-12-06 Measurement Issues in Criminology examines the techniques and procedures crucial to successful research Topics appropriate for specific research designs data sources and analytic techniques are identified as well as topics for which such measurement methods are inappropriate Subjects explored include ethical obligations and social research the offender's perspective longitudinal research design advantages of time series studies over other procedures when investigating important questions of process and change and the strength and weakness of studies utilizing secondary

data sources Evaluating Gun Policy Jens Ludwig, Philip J. Cook, 2004-05-13 Compared with other developed nations the United States is unique in its high rates of both gun ownership and murder Although widespread gun ownership does not have much effect on the overall crime rate gun use does make criminal violence more lethal and has a unique capacity to terrorize the public Gun crime accounts for most of the costs of gun violence in the United States which are on the order of 100 billion per year But that is not the whole story Guns also provide recreational benefits and sometimes are used virtuously in fending off or forestalling criminal attacks Given that guns may be used for both good and ill the goal of gun policy in the United States has been to reduce the flow of guns to the highest risk groups while preserving access for most people There is no lack of opinions on policies to regulate gun commerce possession and use and most policy proposals spark intense controversy Whether the current system achieves the proper balance between preserving access and preventing misuse remains the subject of considerable debate Evaluating Gun Policy provides guidance for a pragmatic approach to gun policy using good empirical research to help resolve conflicting assertions about the effects of guns gun control and law enforcement The chapters in this volume do not conform neatly to the claims of any one political position The book is divided into five parts In the first section contributors analyze the connections between rates of gun ownership and two outcomes of particular interest to society suicide and burglary Regulating ownership is the focus of the second section where contributors investigate the consequences a large scale combined gun ban and buy back program in Australia as well as the impact of state laws that prohibit gun ownership to those with histories of domestic violence The third section focuses on efforts to restrict gun carrying and includes a critical examination of efforts in Pit *Crime Opportunity Theories* Mangai Natarajan, 2017-07-05 Opportunity theories of crime seek to explain the occurrence of crime rather than simply the existence of criminal dispositions They emphasize the fundamental element in the criminal act of opportunity how this arises how it is perceived evaluated and acted on by those with criminal dispositions This volume brings together influential research articles on opportunity theories of crime by leading theorists such as Cohen and Felson on routine activity theory and Clarke and Cornish on the bounded rational choice perspective The articles also include more recent theoretical developments and studies of situational crime prevention of specific twenty first century crimes These articles attest to the sheer volume as well to as the richness and the variety of work designed to reduce crime that has forever changed the face of criminology and criminal justice Profiling Property Crimes David V. Canter, Laurence J. Alison, 2018-02-06 This title was first published in 2000 Each of these commissioned papers explores the varieties of different crimes against property The actions that differentiate types of arson burglary workplace crime and robbery are examined to provide insights of relevance to criminologists psychologists and criminal investigators Casualties Of Community Disorder Deborah Baskin, Ira Sommers, 2018-10-08 This book provides a detailed account of the criminal careers of 170 women who committed violent street crimes in New York City describing their entry into criminal activities their development into persistent street

criminals and for some their eventual transition out of street crime *GIS and Crime Mapping* Spencer Chainey, Jerry Ratcliffe, 2013-04-26 The growing potential of GIS for supporting policing and crime reduction is now being recognised by a broader community GIS can be employed at different levels to support operational policing tactical crime mapping detection and wider ranging strategic analyses With the use of GIS for crime mapping increasing this book provides a definitive reference GIS and Crime Mapping provides essential information and reference material to support readers in developing and implementing crime mapping Relevant case studies help demonstrate the key principles concepts and applications of crime mapping This book combines the topics of theoretical principles GIS analytical techniques data processing solutions information sharing problem solving approaches map design and organisational structures for using crime mapping for policing and crime reduction Delivered in an accessible style topics are covered in a manner that underpins crime mapping use in the three broad areas of operations tactics and strategy Provides a complete start to finish coverage of crime mapping including theory scientific methodologies analysis techniques and design principles Includes a comprehensive presentation of crime mapping applications for operational tactical and strategic purposes Includes global case studies and examples to demonstrate good practice Co authored by Spencer Chainey a leading researcher and consultant on GIS and crime mapping and Jerry Ratcliffe a renowned professor and former police officer This book is essential reading for crime analysts and other professionals working in intelligence roles in law enforcement or crime reduction at the local regional and national government levels It is also an excellent reference for undergraduate and Masters students taking courses in GIS Geomatics Crime Mapping Crime Science Criminal Justice and Criminology
