Cromley, 2005 Review Invitation to Vernacular Architecture A Guide to the Study of Ordinary Buildings and Landscapes is a manual for exploring and interpreting vernacular architecture the common buildings of particular regions and time periods Thomas Carter and Elizabeth Collins Cromley provide a comprehensive introduction to the field Rich with illustrations and written in a clear and jargon free style Invitation to Vernacular Architecture is an ideal text for courses in architecture material culture studies historic preservation American studies and history and a useful guide for anyone interested in the **Insurgent Public Space** Jeffrey Hou, 2010-04-21 Winner of the EDRA book prize for 2012 In built environment Tacket cities around the world individuals and groups are reclaiming and creating urban sites temporary spaces and informal gathering places These insurgent public spaces challenge conventional views of how urban areas are defined and used and how they can transform the city environment No longer confined to traditional public areas like neighbourhood parks and public plazas these guerrilla spaces express the alternative social and spatial relationships in our changing cities With nearly twenty illustrated case studies this volume shows how instances of insurgent public space occur across the world Examples range from community gardening in Seattle and Los Angeles street dancing in Beijing to the transformation of parking spaces into temporary parks in San Francisco Drawing on the experiences and knowledge of individuals extensively engaged in the actual implementation of these spaces Insurgent Public Space is a unique cross disciplinary approach to the study of public space use and how it is utilized in the contemporary urban world Appealing to professionals and students in both urban studies and more social courses Hou has brought together valuable commentaries on an area of urbanism which has up until now been largely ignored **Designing Suburban Futures** June Williamson, 2013-05-07 Suburbs deserve a better more resilient future June Williamson shows that suburbs aren t destined to remain filled with strip malls and excess parking lots they can be reinvigorated through inventive design Today dead malls aging office parks and blighted apartment complexes are being retrofitted into walkable sustainable communities Williamson provides a broad vision of suburban reform based on the best schemes submitted in Long Island's highly successful Build a Better Burb competition Many of the design ideas and plans operate at a regional scale tackling systems such as transit aquifer protection and power generation

While some seek to fundamentally transform development patterns others work with existing infrastructure to create mixed use shared networks Designing Suburban Futures offers concrete but visionary strategies to take the sprawl out of suburbia creating a vibrant new suburban form The Type V City Jeana Ripple, 2025 How building codes shaped material social and environmental landscapes in American cities The Sustainable City VII M. Pacetti, G. Passerini, C.A. Brebbia, G. Latini, 2012-05-07 Containing research on sustainable urban redevelopment presented at the latest in a biennial series organised by the Wessex Institute of Technology this book addresses an area of growing interest The conference series was first held in 2000 These proceedings are split into two volumes Urban areas produce a series of environmental challenges arising from the consumption of natural resources and the consequent generation of waste and pollution contributing to the development of social and economic imbalances All these problems which continue to grow in our society require the development of new solutions Topics include Volume I Urban Strategies Eco town Planning Planning development and management Planning development and management for urban conservation and regeneration Case studies Landscape planning and design Environmental management Intelligent environments and emerging technologies Volume II Sustainable energy and the city Waterfront developments The community and the city Quality of life Cultural heritage issues Transportation Planning for risk Planning for risk Transport models in emergency conditions Industrial wastes as raw materials Waste management Safety and security The city heritage Palladio's Children N.J. Habraken, 2007-04-11 Based on many years of personal observation Palladio's Children critically examines the role of the architect as a professional descendent of Palladio and as an heir to his architectural legacy Seven innovative and carefully crafted essays explore the widening ideological schism between today s architects whose core values identity and education remain rooted in the Renaissance legacy of creating artful masterpieces and the practical demands on a profession which acts within an evolving ubiquitous and autonomous built environment or field Clearly written yet expressing complex evolving ideas this extended argument opens a new forum of debate across design theory professional practice and academic issues Moving the subject on from a historical perspective Habraken shows how architects are increasingly involved in the design of everyday buildings This must lead to a reassessment of architects identities values and education and the contribution of the architect in the Suburban Dreams Greg Dickinson, 2015-06-15 Explores how the suburban imaginary shaping of the built environment composed of the built environment and imaginative texts functions as a resource for living out the good life

Interdisciplinary Design Thinking in Architecture Education Julie Kim,2023-12-08 This book explores the creative potential for architecture curricula to integrate solid interdisciplinary thinking in design studio education Annotated case studies both from academic institutions and from professional practices provide examples of interdisciplinary engagement in creative design work highlighting the challenges and opportunities of this approach Cases are from a diverse selection of international collaborators featuring projects from the United States Australia Mexico Germany and Italy and cover a range

of project types and scales Chapters by invited experts offer speculations on current and future models situating examples within the broader context and encouraging dialogue between practice and pedagogy The collection of voices in this book offers critical and provocative lenses learning from history while forging inventive and creative roles for the architect as practitioner entrepreneur strategist choreographer activist facilitator leader and teacher Interdisciplinary Design Thinking provides insights into the potential of interdisciplinary engagement at the level of foundational undergraduate education making it ideal for faculty in architecture schools It will also be of interest to design professionals concerned with interdisciplinary collaboration and how to incorporate similar efforts in their own practices Examining the Environmental Impacts of Materials and Buildings Brownell, Blaine Erickson, 2020-02-28 Fundamental environmental challenges such as climate change resource depletion and pollution are still widely relevant in today s world Many of these problems have been associated with the architecture engineering and construction industries due to the level of resources used in these professions In recent years many manufacturers in these fields have expressed the motivation to make necessary changes that would be beneficial to the environment Despite this progress there remains a lack of research and assessment on the methods to achieve environmental stability within these architectural fields Examining the Environmental Impacts of Materials and Buildings provides emerging research exploring the theoretical and practical aspects of ecological performance within modern building design and materials based construction Featuring coverage on a broad range of topics such as life cycle assessment material flows analysis and sustainability this book is ideally designed for architects civil engineers construction professionals environmentalists ecologists business practitioners scientists policymakers designers researchers and academicians seeking research on current trends in environmental performance within building design

The Integrated Shopping Mall Britt Elizabeth Lindberg,2002 Loose-Fit Architecture Alex Lifschutz,2018-02-05 Loose Fit Architecture Designing Buildings for Change September October 2017 Profile 249 Volume 87 No 5 ISBN 978 1119 152644 Guest Edited by Alex Lifschutz The idea that a building is finished or complete on the day it opens its doors is hardwired into existing thinking about design planning and construction But this ignores the unprecedented rate of social and technological change A building only begins its life when the contractors leave With resources at a premium and a greater need for a sustainable use of building materials can we still afford to construct new housing or indeed any buildings that ignore the need for flexibility or the ability to evolve over time Our design culture needs to move beyond the idealisation of a creative individual designer generating highly specific forms with fixed uses The possibilities of adaptation and flexibility have often been overlooked but they create hugely exciting loose fit architectures that emancipate users to create their own versatile and vibrant environments Contributors include Stewart Brand Renee Chow Ellen Dunham Jones and June Williamson John Habraken Edwin Heathcote Despina Katsakakis Stephen Kendall Ian Lambot Giorgio Macchi Alexi Marmot Andrea Martin Kazunobu Minami Peter Murray Brett Steele and Simon Sturgis

Houses for a New World Barbara Miller

Lane, 2022-07-12 The fascinating history of the twentieth century s most successful experiment in mass housing While the work of Frank Lloyd Wright Richard Neutra and their contemporaries frequently influences our ideas about house design at the midcentury most Americans during this period lived in homes built by little known builders who also served as developers of the communities Often dismissed as little boxes made of ticky tacky the tract houses of America's postwar suburbs represent the twentieth century s most successful experiment in mass housing Houses for a New World is the first comprehensive history of this uniquely American form of domestic architecture and urbanism Between 1945 and 1965 more than thirteen million houses most of them in new ranch and split level styles were constructed on large expanses of land outside city centers providing homes for the country's rapidly expanding population Focusing on twelve developments in the suburbs of Boston Philadelphia Chicago and Los Angeles Barbara Miller Lane tells the story of the collaborations between builders and buyers showing how both wanted houses and communities that espoused a modern way of life informal democratic multiethnic and devoted to improving the lives of their children The resulting houses differed dramatically from both the European International Style and older forms of American domestic architecture Based on a decade of original research and accompanied by hundreds of historical images plans and maps this book presents an entirely new interpretation of the American suburb The result is a fascinating history of houses and developments that continue to shape how tens of millions of Americans live Featured housing developments in Houses for a New World Boston area Governor Francis Farms Warwick RI Wethersfield Natick MA Brookfield Brockton MA Chicago area Greenview Estates Arlington Heights IL Elk Grove Village Rolling Meadows Weathersfield at Schaumburg Los Angeles and Orange County area Cinderella Homes Anaheim CA Panorama City Los Angeles Rossmoor Los Alamitos CA Philadelphia area Lawrence Park Broomall PA Rose Tree Woods Companion to Urban Design Tridib Banerjee, Anastasia Loukaitou-Sideris, 2011-03-17 Today the practice Broomall PA of urban design has forged a distinctive identity with applications at many different scales ranging from the block or street scale to the scale of metropolitan and regional landscapes Urban design interfaces many aspects of contemporary public policy multiculturalism healthy cities environmental justice economic development climate change energy conservations protection of natural environments sustainable development community liveability and the like The field now comprises a core body of knowledge that enfolds a right history of ideas paradigms principles tools research and applications enriched by electric influences from the humanities and social and natural sciences Companion to Urban Design includes more than fifty original contributions from internationally recognized authorities in the field These contributions address the following questions What are the important ideas that have shaped the field and the current practice of urban design What are the major methods and processes that have influenced the practice of urban design at various scales What are the current innovations relevant to the pedagogy of urban design What are the lingering debates conflicts ad contradictions in the theory and practice of urban design How could urban design respond to the contemporary challenges of climate change
