Suburban Warriors The Origins Of The New American Right:

Suburban Warriors Lisa McGirr,2001-01-01 A groundbreaking study of American conservatism revisits the early and mid 1960s to trace the roots of the conservative revival that eventually changed the American political landscape

Suburban Warriors Lisa McGirr,2015-06-02 In the early 1960s American conservatives seemed to have fallen on hard times McCarthyism was on the run and movements on the political left were grabbing headlines The media lampooned John Birchers s accusations that Dwight Eisenhower was a communist puppet Mainstream America snickered at warnings by California Congressman James B Utt that barefooted Africans were training in Georgia to help the United Nations take over the country Yet in Utt s home district of Orange County thousands of middle class suburbanites proceeded to organize a powerful conservative movement that would land Ronald Reagan in the White House and redefine the spectrum of acceptable politics into the next century *Suburban Warriors* introduces us to these people women hosting coffee klatches for Barry Goldwater in their tract houses members of anticommunist reading groups organizing against sex education pro life Democrats gradually drawn into conservative circles and new arrivals finding work in defense companies and a sense of community in Orange County s mushrooming evangelical churches We learn what motivated them and how they interpreted their political activity Lisa McGirr shows that their movement was not one of marginal people suffering from status anxiety but rather one formed by successful entrepreneurial types with modern lifestyles and bright futures She describes how these suburban pioneers created new political and social philosophies anchored in a fusion of Christian fundamentalism xenophobic nationalism and western libertarianism While introducing these rank and file activists McGirr chronicles Orange County s rise from nut country to political vanguard Through this history she traces the evolution of the New Right from a virulent anticommunist anti establishment fringe to a broad national movement nourished by evangelical Protestantism Her original contribution to the social history of politics broadens and often upsets our understanding of the deep and tenacious roots of popular conservatism in America

The Transformation of American Sex Education Ellen S. More,2024-09-03 This book examines Americans attempts to come to terms with the vexed subject of sex education in the schools from the late 1940s to the early 21st century Using Mary Calderone s life and career as a touchstone it traces the origins of modern sex education in the United States from the work of a group of reformers who coalesced around Calderone to create SIECUS in 1964 through the development and use of the competing approaches known as abstinence based and comprehensive sex education from the 1980s into the 21st century

African American Urban History since World War II Kenneth L. Kusmer, Joe W. Trotter, 2009-08-01 Historians have devoted surprisingly little attention to African American urban history of the postwar period especially compared with earlier decades Correcting this imbalance African American Urban History since World War II features an exciting mix of seasoned scholars and fresh new voices whose combined efforts provide the first comprehensive assessment of this important subject The first of this volume s five groundbreaking sections focuses on black migration and Latino immigration examining tensions and alliances that emerged between African Americans and other groups Exploring the challenges of residential segregation and deindustrialization later sections tackle such topics as the real estate industry s discriminatory practices the movement of middle class blacks to the suburbs and the influence of black urban activists on national employment and social welfare policies Another group of contributors examines these themes through the lens of gender chronicling deindustrialization s disproportionate impact on women and women s leading roles in movements for social change Concluding with a set of essays on black culture and consumption this volume fully realizes its goal of linking local transformations with the national and global processes that affect urban class and race relations **The Clinton Riddle** Todd G. Shields, Jeannie M.

Whayne, Donald R. Kelley, 2004-01-01 In 2002 a distinguished interdisciplinary group of scholars gathered at the Diane D Blair Center of Southern Politics and Society at the University of Arkansas to provide a critical evaluation of the Clinton Gore administration Their groundbreaking assessment of the most controversial president in modern times treats such crucial topics as race women and minorities the character issue foreign policy and the media This book provides a unique vantage point on the Clinton riddle that all future studies will need to consider The Economists' Hour Binyamin

Appelbaum, 2019-09-03 In this lively and entertaining history of ideas Liaquat Ahamed The New Yorker New York Times editorial writer Binyamin Appelbaum tells the story of the people who sparked four decades of economic revolution Before the 1960s American politicians had never paid much attention to economists But as the post World War II boom began to sputter economists gained influence and power In The Economists Hour Binyamin Appelbaum traces the rise of the economists first in the United States and then around the globe as their ideas reshaped the modern world curbing government unleashing corporations and hastening globalization Some leading figures are relatively well known such as Milton Friedman the elfin libertarian who had a greater influence on American life than any other economist of his

generation and Arthur Laffer who sketched a curve on a cocktail napkin that helped to make tax cuts a staple of conservative economic policy Others stayed out of the limelight but left a lasting impact on modern life Walter Oi a blind economist who dictated to his wife and assistants some of the calculations that persuaded President Nixon to end military conscription Alfred Kahn who deregulated air travel and rejoiced in the crowded cabins on commercial flights as the proof of his success and Thomas Schelling who put a dollar value on human life Their fundamental belief That government should stop trying to manage the economy Their guiding principle That markets would deliver steady growth and ensure that all Americans shared in the benefits But the Economists Hour failed to deliver on its promise of broad prosperity And the single minded embrace of markets has come at the expense of economic equality the health of liberal democracy and future generations Timely engaging and expertly researched The Economists Hour is a reckoning and a call for people to rewrite the rules of the market A Wall Street Journal Business Bestseller Winner of the Porchlight Business Book Award in Narrative Biography

Racing for Innocence Jennifer Pierce,2012-09-05 How is it that recipients of white privilege deny the role they play in reproducing racial inequality Racing for Innocence addresses this question by examining the backlash against affirmative action in the late 1980s and early 1990s just as courts universities and other institutions began to end affirmative action programs This book recounts the stories of elite legal professionals at a large corporation with a federally mandated affirmative action program as well as the cultural narratives about race gender and power in the news media and Hollywood films Though most white men denied accountability for any racism in the workplace they recounted ways in which they resisted whether wittingly or not incorporating people of color or white women into their workplace lives Drawing on three different approaches ethnography narrative analysis and fiction to conceptualize

American Evangelicals and the 1960s Axel R. Schäfer, 2013-08-23 In the late 1970s the New Christian Right emerged as a formidable political force boldly announcing itself as a unified movement representing the views of a moral majority But that movement did not spring fully formed from its predecessors American Evangelicals and the 1960s refutes the thesis that evangelical politics were a purely inflammatory backlash against the cultural and political upheaval of the decade Bringing together fresh research and innovative interpretations this book demonstrates that evangelicals actually participated in broader American developments during the long 1960s that the evangelical constituency was more diverse than often noted and that the notion of right wing evangelical politics as a backlash was a later creation serving the interests of both Republican conservative alliances and their critics Evangelicalism's involvement with rather than its reaction against the main social movements public policy initiatives and cultural transformations of the 1960s proved significant in its 1970s political ascendance Twelve essays that range thematically from the oil industry to prison ministry and from American counterculture to the Second Vatican Council depict modern evangelicalism both as a religious movement with its own internal dynamics and as one fully integrated into general American history

Dividing the Public Matthew Gardner Kelly, 2024-01-15 Winner of the Vincent P DeSantis Book Prize from The Society for Historians of the Gilded Age and Progressive Era and awarded with Honorable Mention in the Outstanding Book Award by the History of Education Society In *Dividing the Public* Matthew Gardner Kelly takes aim at the racial and economic disparities that characterize public education funding in the United States With California as his focus Kelly illustrates that the use of local taxes to fund public education was never an inadvertent or de facto product of past practices but an intentional decision adopted in place of well known alternatives during the Progressive Era against past precedent and principle in several states From efforts to convert expropriated Indigenous and Mexican land into common school funding in the 1850s to reforms that directed state aid to expanding white suburbs during the years surrounding World War II *Dividing the Public* traces in intricate detail how a host of policies connected to school funding have divided California by race and class over time In bringing into view the neglected and poorly understood history of policymaking connected to school finance Kelly offers a new story about the role public education played in shaping the racially segregated economically divided and politically fragmented world of the post 1945 metropolis
