*More Peoples of Las Vegas* Jerry L Simich,Thomas C. Wright,2010-03-15 The remarkable economic growth of Las Vegas between 1980 and 2007 created a population boom and a major increase in the ethnic and religious diversity of the city Today over 21 percent of the city s population is foreign born and over 30 percent speak a language other than English at home The local court system offers interpreters in 82 languages and in 2005 2006 for example more than 11 000 people originating from 138 countries were naturalized there as American citizens More Peoples of Las Vegas extends the survey of this city s cosmopolitan population begun in The Peoples of Las Vegas University of Nevada Press 2005 As in the previous book this volume includes well established groups like the Irish and Germans and recently arrived groups like the Ethiopians and Guatemalans Essays describe the history of each group in Las Vegas and the roles they play in the life and economy of the city The essays also explore the influence of modern telecommunications and accessible air travel showing how these factors allow newcomers to create transnational identities and maintain ties with families and culture back home They also examine the role of local institutions including clubs religious organizations shops restaurants and newspapers and other media in helping immigrants maintain their ethnic and

religious identities and in disseminating national and even regional cultures of origin More Peoples of Las Vegas adds to our awareness of the rich and varied ethnic and religious character of Las Vegas In a broader context it offers thoughtful perspectives on the impact of globalization on a major American city and on the realities of immigrant life in the twenty first century *Cross-border Cultural Production* Janet Wasko,2008 This volume addresses issues revolving around the production of mediated cultural products across borders More specifically the authors consider cross border cultural production in the film and television industries and how it affects and is affected by media centers and more recently established production locations The film and television industries have long been recognized as playing important economic political and cultural roles And while it could be argued that historically these forms of cultural production often have been international endeavors the choice of production sites has become an especially contentious issue during the last few decades as global production has expanded While some factions notably from the US film and television industries refer to this issue as runaway production this book takes a much broader look at the implications and consequences of this phenomenon Basically cross border production involves the expansion of production away from traditional centers whether to other countries or to other locations within the same country Thus this study covers a wide range of issues involving economic and political considerations as well as creative and aesthetic decision making **The New York Architect** Donn Barber,Harold Van Buren Magonigle,1909 Vol 1 consists of plates and plans only
