

THE FIRST STEP TO SUCCESSFUL COMPREHENSION QAR

"The researchers recommended that each strategy be taught with singular focus, over a long period of time, to students from kindergarten through twelfth grade and beyond, and that teachers model and students practice the strategies with a variety of texts. If teachers focused their attention on a strategy, beginning with a great deal of modeling and gradually releasing responsibility (Gallagher and Pearson, 1983) to the children to practice it independently, the researchers believed students could actually be taught to think differently as they read."
